Faith And Speculation:

Faith and speculation Austin Farrer, 1964 *Faith and Speculation* Austin Farrer, 1967 *Faith and Speculation* Austin Farrer, 1967 **Speculation** Gayle Rogers, 2021-07-06 In the modern world why do we still resort to speculation Advances in scientific and statistical reasoning are supposed to have provided greater certainty in making claims about the future Yet we constantly spin out scenarios about tomorrow for ourselves or for entire societies with flimsy or no evidence Insubstantial speculations from utopian thinking to high risk stock gambles often provoke fierce backlash even when they prove prophetic for the world we come to inhabit Why does this hypothetical way of thinking generate such controversy In this cultural literary and intellectual history Gayle Rogers traces debates over speculation from antiquity to the present Celebrated by Boethius as the height of humanity's mental powers but denigrated as sinful by John Calvin speculation eventually became central to the scientific revolution's new methods of seeing the natural world In the nineteenth century writers such as Jane Austen used the concept to diagnose the marriage market redefining speculation for the purpose of social critique Speculation fueled the development of modern capitalism spurring booms busts and bubbles and recently artificial intelligence has automated the speculation previously done by humans with uncertain and troubling consequences Unraveling these histories and many other disputes Rogers argues that what has always been at stake in arguments over speculation and why it so often appears so threatening is the authority to produce and control knowledge about the future Recasting centuries of contests over the power to anticipate tomorrow this book reveals the crucial role speculation has played in how we create and potentially destroy the future The Philosophical Theology of Austin Farrer Brian Hebblethwaite, 2007 Thirty years of reflection on the philosophical theology of Austin Farrer lie behind the nine chapters of this book in which Farrer's seminal work on faith and reason providence and evil finite and infinite freedom evolution and creation and the doctrines of the Incarnation and the Trinity is discussed and developed Austin Farrer Fellow and Chaplain of Trinity College Oxford for twenty years then Warden of Keble College till his death in 1968 is widely regarded as the most significant Anglican philosophical theologian of the twentieth century His unparalleled combination of philosophical acuity theological insight and spiritual profundity have earned him lasting admiration and influence wherever the mainstream Christian tradition is valued and thought worthy of further exploration and fresh interpretation These studies are offered in the hope that a new generation of philosophical theologians will find inspiration and encouragement in Farrer's work A Light in a Burning-Glass Robert Boak Slocum, 2019-09-27 A Light in a Burning Glass introduces readers to the distinctive synthesis of theological reflection and everyday faith that characterizes the life and theology of Austin Farrer 1904-1968 a man widely considered to be the most important Anglican theologian of the twentieth century Often quoted for isolated insights but rarely appreciated for his depth and coherency Farrer is a theologian who according to Robert Boak Slocum is fascinating to consider but difficult to master In this survey and explanation of the Anglican leader's prodigious output and

complexity of thought Slocum sorts through Farrer's many writings to articulate his theological vision Slocum delves into Farrer's treatises essays lectures correspondence and reviews in an exploration of his three primary areas of theological concern pastoral biblical and philosophical Noting that few theologians have published so many significant works in such varied areas of theological study Slocum maps the connectedness of thought that unites Farrer's works Slocum moves from a basic study of Farrer's background and methodology to a consideration of his major themes Christian hope the problem of evil the role of image and imagination in Christian faith the use of literary methods in the interpretation of theology and the interplay of divine action and human freedom in the Christian life Questioning Back Joseph S. O'Leary, 2016-08-31 This is the first of three essays in fundamental theology along with Religious Pluralism and Christian Truth 1996 and Conventional and Absolute Truth 2015 which attempt to reassess the status of Christian doctrinal language within the contemporary regime of truth In light of Heidegger's overcoming of metaphysics it revisits the age old tension between Athens and Jerusalem between the metaphysical structures of the Greek mind and the texture of the biblical events of revelation and salvation A deconstructive reading that traces this tension in classical Christian texts continued in later studies including *Christianisme et philosophie chez Origene* Editions du Cerf 2011 clears the ground for a step back to biblical realities as they are apprehended in contemporary consciousness **Faith and Speculation** Reverend Farrer, 1967 *Kierkegaard and His Contemporaries* Jon Stewart, 2008-08-22 Interpreting Kierkegaard in the general context of Golden Age Denmark this interdisciplinary anthology features articles which treat his various relations to his most famous Danish contemporaries It aims to see them not as minor figures laboring in Kierkegaard's shadow but rather as significant thinkers and artists in their own right The articles illuminate both Kierkegaard's influence on his contemporaries and their varied influences on him By means of the analyses of these various relations aspects of Kierkegaard's authorship are brought into new and insightful perspectives The featured essays treat some of the most important figures from the time representing the fields of philosophy theology literature criticism and art *Tolerance and Intolerance in Religion and Beyond* Anne Sarah Matviyets, Giuseppe Veltri, Jörg Rüpke, 2023-10-09 This book focuses on religious tolerance and intolerance in terms of practices institutions and intellectual habits It brings together an array of historical and anthropological studies and philosophical cognitive and psychological explorations by established scholars from a range of disciplines The contributions feature modern and historic instances of tolerance and intolerance across a variety of geographies societies and religious traditions They help readers to gain an understanding of the notion of tolerance and the historical consequences of intolerance from the perspective of different cultures religions and philosophies The volume highlights tolerance's potential to be a means to build bridges and at the same time determine limits Whilst the challenge of promoting tolerance has mostly been treated as a value or practice of demographic or religious majorities this book offers a broader take and pays attention to minority perspectives It is a valuable reference for scholars of religious studies the sociology of religion and the history of religion **Philosophical**

Theology and Christian Doctrine Brian Hebblethwaite, 2008-04-15 Philosophical Theology and Christian Doctrine surveys and comments on recent work by philosophers of religion in the analytic tradition on the doctrines of the Christian creed Topics covered include creation Incarnation Trinity salvation and eschatology and the ultimate future of creation Comprehensive survey of core Christian doctrines **Theological Tracts for the times** ,1861 **Between Speech and Revelation** Joshua Ryan Kira, 2019-11-14 Evangelicalism in spite of its size and relationship to various historic movements in Christian history has never been known to be a perspective that interacts widely in its theological development Its insular nature emphasis on inspiration and its highly doctrinal concerns have caused it to frequently be an outlier in larger dialogues concerning Scripture This book attempts to remedy this lack of interaction by bringing an evangelical view of the Bible into contact with various twentieth century traditions that have attempted to delve into the relationship between divine speech and revelation Specifically the works of Calvinist philosopher Nicholas Wolterstorff hermeneutical theologian Eberhard Jungel and Anglican philosopher theologian Austin Farrer will be mined for the resources necessary to affirm and defend a belief in an evangelical view of Scripture This would include the belief that the Bible can rightly be called God s word the adherence to verbal plenary inspiration and a reluctance to use higher criticism in analyzing Scripture Through criticism and appropriation this work will set the guidelines for the construction of a more comprehensive perspective of revelation divine speech and the Bible as well as showing how Evangelicalism can contribute to the larger ecumenical dialogue concerning theological methodology Speculative Communities Aris Komporozos-Athanasiou, 2022-01-17 Speculative Communities investigates the financial world s influence on the social imagination unraveling its radical effects on our personal and political lives In Speculative Communities Aris Komporozos Athanasiou examines the ways that speculation has moved beyond financial markets to shape fundamental aspects of our social and political lives As ordinary people make exceptional decisions such as the American election of a populist demagogue or the British vote to leave the European Union they are moving from time honored and tested practices of governance toward the speculative promise of a new more uncertain future This book shows how even our methods of building community have shifted to the speculative realm as social media platforms enable and amplify our volatile wagers For Komporozos Athanasiou to speculate means increasingly to connect to endorse the unknown pre emptively and often daringly as a means of social survival Grappling with the question of how more uncertainty can lead to its full throated embrace rather than dissent Speculative Communities shows how finance has become the model for society writ large As Komporozos Athanasiou argues virtual marketplaces new social media and dating apps bring finance s opaque infrastructures into the most intimate realms of our lives leading to a new type of speculative imagination across economy culture and society **Brownson's Quarterly Review** Orestes Augustus Brownson, 1849 Faith and Speculation Austin Farrer, 1967-01-01 Controversy Orestes Augustus Brownson, 1884 Melanchthon and Patristic Thought: The Doctrines of Christ and Grace, the Trinity and the Creation Meijering, 2022-02-22 The Philosophy

of Religion on the Basis of Its History: Genetic-speculative philosophy of religion (2 vols.) Otto Pflleiderer, 1888 *The Ordering of the Christian Mind* Martin Westerholm, 2015-11-12

The adequacy of Karl Barth's conception of theological reasoning is a decisive point of contention in assessments of the legacy and potential of twentieth century theology. Barth's work is a formative point from which other twentieth century figures take their orientation; later thinkers have most often taken their leave from his work by suggesting that it reflects an underdeveloped conception of the activities of human reason. The regularity with which other thinkers orient themselves in relation to Barth by pointing to a positivism, faith subjectivism or fideism in his work elevates the question of theological reasoning to a decisive point in the comprehension of twentieth century theology. *The Ordering of the Christian Mind* facilitates evaluation of Barth's work by reconstructing his conception of the activities of reason. It does so first by reframing the question. Martin Westerholm shows that Barth's understanding of the moral structure of the relation between God and creatures demands that the question of theological reasoning be approached through an ethical inquiry into the proper ordering of the activities of the mind. Secondly, Westerholm deploys a new set of categories through which Barth's work can be described. He shows that by working through an account of the noetic corollaries of faith and of the understanding of faith, Barth develops a coherent and compelling account of the standpoint orientation and freedom of theological reasoning. Development of this material is accompanied by new accounts of Barth's earlier theology of the resurrection, his theological development and the significance of his engagement with Anselm.
