weeklyworldnews.com is a leading entertainment news site *Report of the Commissioner for ...* United States Fish Commission, 1893 Deep Country Neil Ansell, 2011-04-07 Deep Country is Neil Ansell's account of five years spent alone in a hillside cottage in Wales. I lived alone in this cottage for five years summer and winter with no transport no phone. This is the story of those five years where I lived and how I lived. It is the story of what it means to live in a place so remote that you may not see another soul for weeks on end. And it is the story of the hidden places that I came to call my own and the wild creatures that became my society. Neil Ansell immerses himself in the rugged British landscape exploring nature's unspoilt wilderness and man's relationship with it. Deep Country is a celebration of rural life and the perfect read for fans of Robert Macfarlane's Landmarks, Helen Macdonald's H is for Hawk or James Rebanks' A Shepherd's Life. A beautiful translucent portrayal of mid Wales. Jay Griffiths' Touching Through Ansell's charming and thoroughly detailed stories of run-ins with red kites, curlews, sparrowhawks, jays and ravens, we see him lose himself in the rhythms and rituals of life in the British wilderness. Financial Times Remarkable fascinating Time Out A gem of a book an extraordinary tale. Ansell's rich prose will transport you to a real-life Narnian world that CS Lewis would have envied. Find your deepest most comfortable armchair and get away from it all. Countryfile Neil Ansell spent five years living on a remote hillside in Wales and wrote his first book Deep Country about the experience. Since that time he has become an award-winning television journalist with the BBC. He has travelled in over fifty countries and has written for the Guardian, the New Statesman and the Big Issue Weapon of Jihad Karen Crumley, 1999 A fictional account of how the U.S. is open to annihilation by the use of surprisingly simple tactics. In this novel an Iranian/Iraqi Coalition mounts an all-or-nothing attack on the U.S. using biological warfare Population Ecology of Raptors Ian Newton, 2010-11-30 Dr Newton's book is concerned with all aspects of population regulation in diurnal birds of prey: their social behaviour, dispersion, numbers, movements, breeding and mortality. He has drawn on his own studies in Scotland and on material and investigations worldwide to produce an authoritative and stimulating synthesis of current thinking and research on the ecological problems of the Falconiformes. He also deals in detail with the effects of pesticides and other pollutants on these birds and with their scientific management and conservation. The author's lucid style will ensure a wide readership among research workers and the more general audience with an interest in birds of prey. There is a full bibliography and an extensive appendix of tables.
