developed such deep ruts in our thinking How we blame God How we base everything on the wrong standard How our everyday language is a language of death How we have so much doubt in God It has made me so concerned Only by the love of God flowing through me have I been able to keep my faith and continue to practice what I preach I know it is Gods Will that I help others to see the truth The truth is Jesus The truth is Gods Word We know Jesus was the revelation of God what God was like He was a healer the greatest healer of all time The Bible is Gods Word and it tells us that God wants us well It also tells us who the enemy is Satan is the taker and God is the giver Live 120 Years in Good Health is full of Bible quotes revealing these truths and tells us how to overcome our doubts and weaknesses Watch what we say Possess your vessel Establish your priority The choice is yours The importance of love Standing firm etc This book has many Bible quotations Thats because the Bible is Gods Word containing His promises His instructions His will His direction etc From the Bible we learn Gods way But we must DO it We must be doers of the Word not just hearers or readers James 1 2225 The way to healing health and long life is Gods way He is the giver of life His life My vision is that God will use this book to inform and inspire people to seek His Kingdom first and to discover the truth of not just healing but long life 120 years in good health There is so much sickness and death and sorrow and tragedy We need a change of direction We need Gods Way We need Jesus the healer We need help As you read this book I pray that you see the truth and find the way Jesus is the Way the Truth and the Life I pray you find Jesus and live a healthy happy holy life with Him One last thing Jesus is coming soon According to 2 Peter 3 12 we can hasten the day of the coming of the Lord I believe we will hasten that day by being healthy and living long lives as a witness to the love and power of God Jesus is coming for a glorious church Ephesians 5 27 I invite you to accept this challenge and LIVE FOR 120 YEARS IN GOOD HEALTH to the glory of God The Vision of the Author Web site

Habilitation, Health, and Agency Lawrence C. Becker,2012-06-15 Lawrence C Becker introduces an unconventional set of background ideas for future philosophical work on normative theories of basic justice The organizing concept is habilitation the process of equipping a person or thing with functional abilities or capacities The specific proposals drawn from the concept of habilitation are independent of any particular set of distributive principles The result is a framework for theory that includes a metric for the pursuit of basic justice but not a normative theory of it The basic idea is that receiving and providing habilitation is a lifelong necessity for human beings from their nearly helpless newborn state through their struggles to survive and thrive thereafter even into the most severe diminishments of old age This lifelong human necessity underlies all questions about basic justice and the possibilities for habilitation define the circumstances under which those questions arise Focusing on the circumstances of habilitation calls attention to the central role of physical and psychological health Without basic good health in both domains it is not possible to cope with the habilitative demands of one s physical and psychological endowments and one s physical and social environments And for human beings a particular aspect of human health effectively sums up these matters namely human agency the nature and extent of the ability to act effectively The book proposes specifically that normative theories of basic justice adopt the habilitation framework What then appears to follow is that the most plausible comprehensive metric for assessing progress toward basic justice will be the level and distribution of basic good health Moreover achieving robustly healthy agency will be the most plausible tactical target for making progress toward basic justice no matter what one s favored distributive principles might be Beyond Facts Carmen Pagés,Carlos Scartascini,Rita Funaro,Lucía Madrigal,Suzanne Duryea,Juan Camilo Chaparro,María Victoria Rodríguez-Pombo,Eduardo Lora,Pablo Sanguinetti,William D.
