*Good Ideas from Questionable Christians and Outright Pagans* Steve Wilkens, 2025-11-04 What indeed has Athens to do with Jerusalem What concord is there between the Academy and the church Tertullian 3rd century Such skepticism about the place of philosophy in the life of Christians persists down through the ages As a student author Steve Wilkens had deep reservations about studying the works of pagans or even questionable Christians Now a teacher at a Christian university Wilkens has developed a deep appreciation for teaching and studying philosophy In fact he believes that the life of faith can be enriched by good philosophical reflection In this book Wilkens helps you begin the same journey Using generous quotations from the original sources Wilkens provides an introduction to the study of philosophy by exploring a single key issue from each of the following philosophers Socrates Plato Aristotle Augustine Aquinas Descartes Kierkegaard Marx Nietzsche and Sartre The questions considered include Why ask why Is a just society possible Is God responsible for evil Can you be certain of anything Is morality all about power Do you really want to be free Wilkens encourages you not to be a mere spectator but to actively and critically engage the questions and ideas these philosophers raise Here is a book for beginning students thoughtful Christians or anyone who wants to explore life s deepest questions *Kierkegaard* Mark A.

Christian worldview courses for Christian college or university students This volume will also be of interest to Christian students in secular post secondary institutions who may be encountering challenges to their faith both implicit and explicit from peers or professors who assume that holding a strong Christian faith and pursuing a rigorous college or university education are essentially incompatible This book should also be helpful for college and university professors who embrace the Christian faith but whose post secondary academic background because of its secular orientation has left them inadequately prepared to intelligently apply the implications of their faith to their particular academic specialty Such specialists be they professors or upper level graduate students will find the extensive bibliographies of recent scholarship at the end of the individual chapters particularly helpful Downey and Porter present a unique contribution to the perennial question of how faith interacts with the academic disciplines Numerous factors contribute to this book's significance the common conviction that one's Christian beliefs ought to shape the contents of one's teaching the variety of perspectives and opinions and the wide range of academic disciplines under discussion The essays originating among the excellent faculty of Trinity Western University will deservedly be much used in undergraduate colleges and universities Hans Borsma J I Packer Professor of Theology Regent College Few faculty Christian or otherwise understand what their colleagues in other departments are doing or why This collection of essays is not only an excellent introduction to the whole scope of academic enterprises but to the unique and important relationship between each discipline and the Christian faith An important book not only for the entire range of faculty but for students yearning to understand both their Christian faith and what is being taught in the classroom James W Sirf author of the Universe Next Door and with co author Carl Peraino Deepest Differences A Christian Atheist Dialogue Christian Worldview and the Academic Disciplines is a book long overdue It will serve as an outstanding textbook for interdisciplinary courses But this book is more than that Christian Worldview and the Academic Disciplines is a book that everyone concerned with Christian thought especially in the context of the Academy will want to read I highly recommend it Craig A Evans Payment Distinguished Professor of New Testament Acadia Divinity College Nova Scotia [Christian Ethics](#) Steve Wilkens, 2017-06-27 Steve Wilkens edits a conversation between four major approaches to contemporary ethics in the Christian tradition virtue divine command natural law and prophetic This accessible introduction includes contributions by Brad Kallenberg John Hare Claire Peterson and Peter Heltzel **The God You Thought You Knew** Alex McFarland, 2015-09-29 Popular Apologist Corrects the Record on What Christianity Is All About The Christianity our culture rejects may not be true Christianity at all So many people today believe they have to be good to be accepted by God or that the Bible is just a list of do's and don'ts or that God is far away and unapproachable Instead of providing proofs about God and the Bible in this book Alex provides a reason to want to know Jesus By sharing his own story of the loneliness and alienation of his youth Alex taps in to universal fears of rejection and loneliness We all seek acceptance and purpose and there's only one solution Learn how to be anchored in the Truth and security that comes through Christ **10 Answers for**

provides a systematic and logical approach to the origins of religion. Many common themes are shown to exist between Christianity and earlier Pagan religions that go back in time centuries before Christianity itself. Carpenter makes an effort to get to the very roots of religion in this book. He is trying to uncover where our religious concepts first originated and reveals an evolutionary sequence which starts with phallic and procreative cults as having the earliest known impact. Following this came a cult of magic much along the lines of Frazer's *The Golden Bough* where spirits and earth divinities were worshipped. Lastly came the belief in actual God figures that came down from heaven. A big part of early religion also concerns the consciousness which is generally found today. Lastly and most importantly, Carpenter mentions a third type of consciousness found in many of the rites and beliefs of ancient religions but which we seem to have lost today. He considers this form of consciousness unnamed but provides an Appendix on the doctrines of the Upanishads which he says at least gives us an idea concerning this third stage of consciousness and the mental attitude required. Only here in this higher stage that we've been striving for are the real facts of the inner life found.

**Paganism in Our Christianity** Arthur Weigall, 2008-11. It took three centuries after the death of Jesus for Christianity to become an organized religion at the Council of Nicea in 325 AD. During this formative time it was difficult for Christianity to compete and survive with the many forms of paganism. In order to succeed and draw new converts into the fold, a number of pagan beliefs and ideas were incorporated into the Christian faith. Today we do not recognize these pagan features but the author asserts that they are there and points them out in this well researched book. He reveals how this paganism was brought in. Many long standing pagan festivals were incorporated and given significance. For example, Christianity had abolished the Hebrew Sabbath of Saturday so made Sunday their day of worship partly because it was the day of the resurrection but largely because it was the weekly festival of the sun for its main competing rival Mithraism. Also, December 25th was the birthday of the sun god Mithra so this date was brought in and called Christmas with full knowledge that Jesus was not born on this day. These are facts. Many more are covered such as the influence of pagan gods, the trinity, miraculous occurrences, the composition of the New Testament, the resurrection, the doctrine of atonement and much more. The author believes Christianity should be what its name infers based on the teachings of Christ and not derived from other sources. This book should be read by every interested Christian or student of the history of religions.
