The Good in Existential Metaphysics Elizabeth G. Salmon, 1953 *The Good in Existential Metaphysics* Elizabeth G. Salmon, 2011-10-01 Nietzsche's Meta-Existentialism Vinod Acharya, 2013-11-27 Vinod Acharya presents a new existential interpretation of Nietzsche's philosophy. He contends that Nietzsche's peculiar form of existentialism can be understood only by undertaking a thorough analysis of his characterization and critique of metaphysics. This reading remedies the shortcomings of previous existential interpretations of Nietzsche which typically view existentialism as concerned primarily with the meaning of individual existence and therefore necessarily at odds with the abstraction and objectivity of metaphysical thought. Acharya argues that the approach of Nietzsche's philosophy especially in his mature works is to make the typical existential position foundational and then to develop to the fullest the implications of this position. This meta-existential approach necessarily yields an ambiguous and open-ended critique of metaphysics. Taking issue with the Heideggerian, the poststructuralist, and the naturalistic interpretations, this book contends that Nietzsche neither simply overcomes metaphysics nor remains trapped within its confines. Acharya argues that an ever-renewed encounter with and critique of metaphysics is an essential aspect of Nietzsche's meta-existentialism. *The Good in Existential Metaphysics, Etc* Elizabeth G. Salmon, 1953 From Phenomenology to Existentialism Dov Schwartz, 2012-12-03 Rabbi Joseph B. Soloveitchik's philosophy plays a significant role in twentieth-century Jewish thought. This book focuses on the first and the second stages of Soloveitchik's philosophy, 1945-1965, through a systematic and detailed discussion of some of his essays, including *From There You Shall Seek* and *The Lonely Man of Faith*. Schwartz analyzes these essays according to this thesis: in the mid-40s Soloveitchik used the phenomenology of religion to express his views; while in the 50s he added the existential theory. *International Philosophical Quarterly*, 1961 *The Thomist*, 1969 A speculative quarterly review **The Routledge Handbook of Metametaphysics** Ricki Bliss, J.T.M. Notebooks Schubert M. Ogden,2018-11-06 As artists not uncommonly keep sketchbooks so thinkers often write notebooks Schubert Ogden is a thinker for whom writing notebooks has been an essential discipline throughout his long career of trying to think as a Christian systematic theologian By his own confession constantly writing down his thoughts so he could discover what he wanted to think has always been as necessary to learning how to think theologically as constantly reading in order to think fruitfully with the minds of others This volume is a selection from the indefinitely larger corpus of Ogden s notebooks now archived in the Drew University Library All arising from his thinking as a theologian the entries selected are addressed to some of the more fundamental and therefore mainly philosophical issues now facing anyone who would do Christian theology systematically While each entry stands on its own and may well be read discretely they together make up a single many sided argument for a distinctive way of doing theology today by resolutely pursuing a comparably distinctive way of doing metaphysics and ethics

Dictionary of Existentialism Haim Gordon,2013-10-31 Existentialism as a philosophy gained prominence after World War II Instead of focusing upon a particular aspect of human existence existentialists argued that our focus must be upon the

whole being as he/she exists in the world. Rebellious against the rationalism of such philosophers as Descartes and Hegel, existentialists reject the emphasis placed on man as primarily a thinking being. Freedom is central to human existence and human relations and encounters cannot be reduced simply to thinking. This Dictionary provides through alphabetically arranged entries overviews of the various tenets, philosophers and writers of existentialism and of those writers/philosophers who in retrospect seem to existentialists to espouse their philosophy: Nietzsche, Kierkegaard, Dostoyevski et al.

Existentialism and its relevance to the contemporary system of education in India: Existentialism and present educational scenario Rukhsana Akhter, 2014-05-01. Existentialism represents a protest against the rationalism of traditional philosophy against misleading notions of the bourgeois culture and the dehumanizing values of industrial civilization. Since alienation, loneliness and self-estrangement constitute threats to human personality in the modern world, existential thought has viewed as its cardinal concerns a quest for subjective truth, a reaction against the negation of Being and a perennial search for freedom. From the ancient Greek philosopher Socrates to the twentieth-century French philosopher Jean-Paul Sartre and other thinkers have dealt with this tragic sense of ontological reality, the human situation within a comic context. The book put forward is the beginning of an attempt to revive existentialism by addressing these issues. The idea is eventually to present a conception of personhood that is recognizably existentialist or similar to that presented by writers like Kierkegaard, Heidegger, Jaspers and Sartre in certain fundamental ways but that takes into account the last twenty years of developments in the many different areas of philosophy that directly affect our understanding of what it is to be a person. The result will hopefully be a more sophisticated existentialist theory of personhood that can be presented in contemporary terms as a serious challenge to current dogmas in metaphysics and moral theory and be defended against the ascendant naturalistic, rationalistic or pragmatist alternatives.

Living Existentialism J. C. Berendzen, Gregory Hoskins, 2017-03-24. Writing in the late 1990s about the tendency of encyclopedists to designate existentialism a finished project, Thomas W. Busch cautions that such hasty periodization risks distorting our understanding of the contemporary philosophical scene and of depriving ourselves of vital resources for critiquing contemporary forms of oppression, what Gabriel Marcel referred to as processes of dehumanization. We should recall that existentialism made possible present forms of Continental philosophy, all of which assume the existentialist critique of dualism, essentialism and totality in modern philosophy, and we should acknowledge that existentialism remains capable of haunting today's scene as an important and relevant critic. Offered in honor of Thomas W. Busch after his more than fifty years of work in philosophy, the essays in this volume attest to existentialism as a living project. The essays are written by scholars who championed existentialism in America and by scholars who now seek to extend existentialist insights into new territory, including into research in cognitive science. The essays range from studies of key figures and texts to explorations of urgent topics such as the nature of freedom and the possibility of what Busch calls incorporation, a sense of communicative solidarity that respects difference and disagreement.
