Good Reasons And Persuasive Force A Pragmatic Approach:

Good Reasons and Persuasive Force Thomas M. Olshewsky, 1983 The Philosopher's Index ,1985 Vols for 1969 include a section of abstracts **International Philosophical Quarterly** ,1983 **The New Scholasticism** ,1984 Love and Good Reasons Fritz Oehlschlaeger, 2003-01-14 Insisting on the vital productive relationship between ethics and the study of literature Love and Good Reasons demonstrates ways of reading novels and stories from a Christian perspective Fritz Oehlschlaeger argues for the study of literature as a training ground for the kinds of thinking on which moral reasoning depends He challenges methods of doing ethics that attempt to specify universally binding principles or rules and argues for the need to bring literature back into conversation with the most basic questions about how we should live Love and Good Reasons combines postliberal narrative theology especially Stanley Hauerwas's Christian ethics and Alasdair MacIntyre's idea of traditional inquiry with recent scholarship in literature and ethics including the work of Martha Nussbaum J Hillis Miller Wayne Booth Jeffrey Stout and Richard Rorty Oehlschlaeger offers detailed readings of literature by five major authors Herman Melville Jane Austen Anthony Trollope Henry James and Stephen Crane He examines their works in light of biblical scripture and the grand narratives of Israel Jesus and the Church Discussing the role of religion in contemporary higher education Oehlschlaeger shares his own experiences of teaching literature from a religious perspective at a state university

Cognitive Pragmatism Nicholas Rescher, 2017-03-13 In *Cognitive Pragmatism* Nicholas Rescher tackles the major questions of philosophical inquiry pondering the nature of truth and existence In the authoritative voice and calculated manner that we've come to expect from this distinguished philosopher Rescher argues that the development of knowledge is a practice pursued by humans because we have a need for its products This pragmatic approach satisfies our innate urge as humans to make sense of our surroundings Taking his discussion down to the level of particular details and addressing such topics as inductive validation hypostatization fallacies and counterfactual reasoning Rescher abandons abstract generalities in favor of concrete specifics For example philosophers usually insist that to reason logically from a counterfactual we must imagine a possible world in which the statement is fact But Rescher argues that there's no need to attempt to accept the facts of a world outside our cognition in order to reason from them He shows us how we can use our own natural system of prioritizing our own understanding of the fundamental to resolve the inconsistencies in such statements as If the Eiffel Tower were in Manhattan then it would be in New York State In using dozens of real world examples such as these and in arguing in his characteristically succinct style Rescher casts light on a wide variety of concrete issues in the classical theory of knowledge and reassures us along the way that the inherent limitations on our knowledge are no cause for distress In pragmatic theory and inquiry we must accept that the best we can do is good enough because we only have a certain albeit large set of tools and conceptualizations available to us A unique synthesis this endeavor into pragmatic epistemology will be of interest to scholars and students of philosophy and cognitive science **Politics, Persuasion, and Pragmatism** Ellen

Susan Peel, 2002 *An addition to the Theory and Interpretation of Narrative* series Peel's book addresses how feminist utopian narratives attempt to persuade readers to adopt certain beliefs Using three feminist utopian novels as her main examples *The Marriages between Zones Three Four and Five* by Doris Lessing *The Left Hand of Darkness* by Ursula K Le Guin and *Les Guirlandes* by Monique Wittig Peel examines how belief bridging and protean metaphor in these works persuade readers Literary persuasion often dismissed as propaganda in fact works in subtle and profound ways The book presents major techniques by which narrative literature exercises this sophisticated influence on beliefs Ultimately concluding that the pragmatic works better than the static in utopian feminism Peel shows how in novels such as those under discussion the narrative techniques support pragmatism Inquiring how narrative form can shape political belief by affecting readers responses the author integrates topics that are rarely combined The book investigates three theoretical issues utopian belief distinguishing the perfectionism of the static from the vitality of the pragmatic and showing how the latter creates narrative energy the persuasive process tracing narrative form and asking how implied readers match real ones and how readers are swayed by belief bridging and protean metaphor and feminist belief a nuanced definition that accounts both for what links feminists and what makes them diverse *Politics Persuasion and Pragmatism* explores the rhetorical and ethical power of narrative literature International Logic Review ,1983 **Empirical Logic and Public Debate** Erik C.W. Krabbe, Renée José Dalitz, Pier A. Smit, 2023-03-13 *Empirical Logic and Public Debate* supplies a large number of previously unpublished papers that together make up a survey of recent developments in the field of empirical logic It contains theoretical contributions some of a more formal and some of an informal nature as well as numerous contemporary and historical case studies The book will therefore be attractive both to those who wish to focus upon the theory and practice of discussion debate arguing and argument as well as to those readers who are primarily interested in applications to a particular field such as ethics political philosophy feminist philosophy or the history of philosophy Task-Based Approaches to Teaching and Assessing Pragmatics Naoko Taguchi, Youjin Kim, 2018-08-15 This volume is the first book length attempt to bring together the fields of task based language teaching TBLT and second language pragmatics by exploring how the teaching and assessment of pragmatics can be integrated into TBLT The TBLT pragmatics connection is illustrated in a variety of constructs e.g speech acts honorifics genres interactional features methods e.g quantitative quasi experimental conversation analysis and topics e.g instructed SLA heritage language learning technology enhanced teaching assessment and discursive pragmatics Chapters in this volume collectively demonstrate how the two fields can together advance the current practice of teaching language for socially situated real world communicative needs *Forthcoming Books* Rose Arny, 1984-03 **British Paperbacks in Print** ,1985 Journalism and the Philosophy of Truth Jesse Owen Hearn-Branaman, 2016-02-12 This book bridges a gap between discussions about truth human understanding and epistemology in philosophical circles and debates about objectivity bias and truth in journalism It examines four major philosophical theories in easy to understand terms while

maintaining a critical insight which is fundamental to the contemporary study of journalism The book aims to move forward the discussion of truth in the news media by dissecting commonly used concepts such as bias objectivity balance fairness in a philosophically grounded way drawing on in depth interviews with journalists to explore how journalists talk about truth

Anti-pragmatism; an Examination Into the Respective Rights of Intellectual Aristocracy and Social Democracy Albert Schinz,1909 The Rise of Informal Logic Ralph H. Johnson,2014-07-15 We are pleased to release this digital edition of

Ralph Johnson s The Rise of Informal Logic as Volume 2 in the series Windsor Studies in Argumentation This edition is a reprint of the previous Vale Press edition with some minor corrections We have decided to make this the second volume in the series because it is such a compelling account of the formation of informal logic as a discipline written by one of the founders of the field The book includes essential chapters on the history and development of informal logic Other chapters are key reflections on the theoretical issues raised by the attempt to understand informal argument Many of the papers were previously published in important journals A number of them were co authored with J Anthony Blair Three of them have appeared only in the present book Lincoln's Tragic Pragmatism John Burt,2013-01-07 In their famous debates Lincoln

and Douglas struggled with how to behave when an ethical conflict like slavery strained democracy s commitment to rule by both consent and principle What conscience demands and what it can persuade others to agree to are not always the same Ultimately this tragic limitation of liberalism led Lincoln to war **Books in Print Supplement** ,1988 *Sustainability*

Bryan G. Norton,2010-11-15 While many disciplines contribute to environmental conservation there is little successful integration of science and social values Arguing that the central problem in conservation is a lack of effective communication Bryan Norton shows in *Sustainability* how current linguistic resources discourage any shared multidisciplinary public deliberation over environmental goals and policy In response Norton develops a new interdisciplinary approach to defining sustainability the cornerstone of environmental policy using philosophical and linguistic analyses to create a nonideological vocabulary that can accommodate scientific and evaluative environmental discourse Emphasizing cooperation and adaptation through social learning Norton provides a practical framework that encourages an experimental approach to language clarification and problem formulation as well as an interdisciplinary approach to creating solutions By moving beyond the scientific arena to acknowledge the importance of public discourse *Sustainability* offers an entirely novel approach to environmentalism **The Performative Dimensions of Rhetorical Questions in the Hebrew Bible** Jim W.

Adams,2020-07-23 This book sets out to describe the multi dimensional nature and function of rhetorical questions in the Old Testament Biblical scholars have previously analyzed the use of rhetorical questions in both Testaments but consistently describe their function in persuasive terms While this understanding is appropriate in a number of instances many rhetorical questions do not operate this way and Jim W Adams focuses in particular on rhetoric expressing the self involvement of both the speaker and hearer Among linguistic philosophers speech act theory has illuminated the fact that uttering a sentence

does not merely convey information it may also involve the performing of an action The concept of communicative action provides additional tools to the exegetical process as it points the interpreter beyond the assumption that the use of language is merely for descriptive purposes Language can also have performative and self involving dimensions In relation to speech act theory linguistic specialists continue to research the nature of rhetorical questions The Oxford Handbook of Refugee and Forced Migration Studies Elena Fiddian-Qasmiyeh, Gil Loescher, Katy Long, Nando Sigona, 2014 Refugee and Forced Migration Studies has grown from being a concern of a relatively small number of scholars and policy researchers in the 1980s to a global field of interest with thousands of students worldwide studying displacement either from traditional disciplinary perspectives or as a core component of newer programmes across the Humanities and Social and Political Sciences Today the field encompasses both rigorous academic research which may or may not ultimately inform policy and practice as well as action research focused on advocating in favour of refugees needs and rights This authoritative Handbook critically evaluates the birth and development of Refugee and Forced Migration Studies and analyses the key contemporary and future challenges faced by academics and practitioners working with and for forcibly displaced populations around the world The 52 state of the art chapters written by leading academics practitioners and policymakers working in universities research centres think tanks NGOs and international organizations provide a comprehensive and cutting edge overview of the key intellectual political social and institutional challenges arising from mass displacement in the world today The chapters vividly illustrate the vibrant and engaging debates that characterize this rapidly expanding field of research and practice
