Good Spirits A New Look At Ol Demon Alcohol:

Good Spirits Gene Logsdon, 1999 With the recent burgeoning of microbreweries home breweries and boutique wineries it's only a matter of time until people start home distillation The technology has always been around and the urge to put one's own label on a bottle of whiskey may prove overwhelming to some So why aren't there any homemade whiskeys in the marketplace For openers it's against federal law It's also dangerous Stills create explosive gases Logsdon yearns for a nation of amateur distillers He recounts a family history of clandestine distilling and he offers delightful tales and anecdotal histories of home brewers wine makers and distillers Constructing a contrarian account of bootlegging during Prohibition he makes booze smuggling a cottage industry rather than a gang run criminal conspiracy Both funny and serious Logsdon's book will likely prove controversial too especially with those made uncomfortable by irony Mark Knoblauch 240p **Letter to a Young Farmer** Gene Logsdon, 2017-01-26 In the midst of our epidemic fear of the future and its so far predicted emergencies and catastrophes here is Gene patiently quietly with the right touch of merriment talking about the small really possible ways of solving our one great problem how to live on the Earth without destroying it Wendell Berry from the foreword For more than four decades the self-described contrary farmer and writer Gene Logsdon has commented on the state of American agriculture In *Letter to a Young Farmer* his final book of essays Logsdon addresses the next generation young people who are moving back to the land to enjoy a better way of life as small scale garden farmers It's a lifestyle that isn't defined by accumulating wealth or by the get big or get out agribusiness mindset Instead it's one that recognizes the beauty of nature cherishes the land respects our fellow creatures and values rural traditions It's one that also looks forward and embraces right technologies including new and innovative ways of working smarter not harder and avoiding premature burnout Completed only a few weeks before the author's death *Letter to a Young Farmer* is a remarkable testament to the life and wisdom of one of the greatest rural philosophers and writers of our time Gene's earthy wit and sometimes irreverent humor combines with his valuable perspectives on many wide ranging subjects everything from how to show a ram who's boss to enjoying the almost churchlike calmness of a well built livestock barn Reading this book is like sitting down on the porch with a neighbor who has learned the ways of farming through years of long observation and practice Someone in short who has seen it all and has much to say and much to teach us if we only take the time to listen and learn And Gene Logsdon was the best kind of teacher equal parts storyteller idealist and rabble rouser His vision of a nation filled with garden farmers based in cities towns and countrysides will resonate with many people both young and old who long to create a more sustainable meaningful life for themselves and a better world for all of us Sagacious and sly practical and poetic Logsdon's voice may have been contrarian but it was never condescending Booklist *The Omnivore's Dilemma* Michael Pollan, 2007-08-28 Outstanding a wide ranging invitation to think through the moral ramifications of our eating habits The New Yorker One of the New York Times Book Review's Ten Best Books of the Year and Winner of the James Beard Award

Author of *This is Your Mind on Plants* *How to Change Your Mind* and the 1 New York Times Bestseller *In Defense of Food* and *Food Rules* What should we have for dinner Ten years ago Michael Pollan confronted us with this seemingly simple question and with *The Omnivore's Dilemma* his brilliant and eye opening exploration of our food choices demonstrated that how we answer it today may determine not only our health but our survival as a species In the years since Pollan's revolutionary examination has changed the way Americans think about food Bringing wide attention to the little known but vitally important dimensions of food and agriculture in America Pollan launched a national conversation about what we eat and the profound consequences that even the simplest everyday food choices have on both ourselves and the natural world Ten years later *The Omnivore's Dilemma* continues to transform the way Americans think about the politics perils and pleasures of eating

A Sanctuary of Trees Gene Logsdon, 2012 Whether as an adolescent studying at a seminary or as a journalist living just outside Philadelphia's city limits Gene has always lived and worked close to the woods and his curiosity and keen sense of observation have taught him valuable lessons about a wide variety of trees their distinct characteristics and the multiple benefits and uses they have In addition to imparting many fascinating practical details of woods wisdom *A Sanctuary of Trees* is infused with a philosophy and descriptive lyricism that is born from the author's passionate and lifelong relationship with nature There is a point at which the tree shudders before it begins its descent Then slowly it tips picks up speed often with a kind of wailing death cry from rending wood fibers and hits the ground with a whump that literally shakes the earth underfoot The air in the aftermath seems to shimmy and shiver as if saturated with static electricity

The Herbalist's Way Nancy Phillips, Michael Phillips, 2005-08-19 This updated edition of *The Village Herbalist* provides a complete guide to the art and practice of herbalism as well as an introduction to the herbalist's role in family and community life Inspirational profiles of practicing herbalists from across the country add a human touch to the author's wealth of practical herbal knowledge *The Herbalist's Way* includes time honored healing wisdom from many cultures as well as information on Roles and responsibilities of herbalists in their communities Herbal workshops conferences and education centers Growing drying and preparing medicinal herbs Learning to listen to clients and recommend holistic treatments for healing and continued wellness Licensing marketing and other legal and business issues facing modern herbalists Comprehensive resources and suggestions for building your herbal library

Gene Everlasting Gene Logsdon, 2014-01-24 Author Gene Logsdon whom Wendell Berry once called the most experienced and best observer of agriculture we have has a notion That it is a little easier for gardeners and farmers to accept death than the rest of the populace Why Because every day farmers and gardeners help plants and animals begin life and help plants and animals end life They are intimately attuned to the food chain They understand how all living things are seated around a dining table eating while being eaten They realize that all of nature is in flux Gene Everlasting contains Logsdon s reflections by turns both humorous and heart wrenching on nature death and eternity all from a contrary farmer s perspective He recounts joys and tragedies from his childhood in the 1930s and 40s spent on an Ohio farm through adulthood and child raising all the way up to his recent bout with cancer always with an eye toward the lessons that farming has taught him about life and its mysteries Whether his subject is parsnips pigweed immortality irises green burial buzzards or compound interest Logsdon generously applies as much heart and wit to his words as he does care and expertise to his fields **Make Mead Like a Viking** Jereme Zimmerman, 2015 A complete guide to using the best ingredients and minimal equipment to create fun and flavorful brews Ancient societies brewed flavorful and healing meads ales and wines for millennia using only intuition storytelling and knowledge passed down through generations no fancy expensive equipment or degrees in chemistry needed In *Make Mead Like a Viking* homesteader fermentation enthusiast and self described Appalachian Yeti Viking Jereme Zimmerman summons the bryggjemann of the ancient Norse to demonstrate how homebrewing mead arguably the world s oldest fermented alcoholic beverage can be not only uncomplicated but fun Armed with wild yeast bearing totem sticks readers will learn techniques for brewing sweet semi sweet and dry meads melomels fruit meads metheglins spiced meads Ethiopian t ej flower and herbal meads braggots honey beers country wines and even Viking grog opening the Mead Hall doors to further experimentation in fermentation and flavor In addition aspiring Vikings will explore The importance of local and unpasteurized honey for both flavor and health benefits Why modern homebrewing practices materials and chemicals work but aren t necessary How to grow and harvest herbs and collect wild botanicals for use in healing nutritious and magical meads beers and wines Hops recent monopoly as a primary brewing ingredient and how to use botanicals other than hops for flavoring and preserving mead ancient ales and gruits The rituals mysticism and communion with nature that were integral components of ancient brewing and can be for modern homebrewers as well Recommendations for starting a mead circle to share your wild meads with other brewers as part of the growing mead movement subculture and more Whether you ve been intimidated by modern homebrewing s cost or seeming complexity in the past and its focus on the use of unnatural

chemicals or are boldly looking to expand your current brewing and fermentation practices Zimmerman's welcoming style and spirit will usher you into exciting new territory Grounded in history and mythology but like Odin's ever seeking eye focusing continually on the future of self sufficient food culture Make Mead Like a Viking is a practical and entertaining guide for the ages **Living at Nature's Pace** Gene Logsdon, 2000-02-01 For decades Logsdon and his family have run a viable family farm Along the way he has become a widely influential journalist and social critic documenting in hundreds of essays for national and regional magazines the crisis in conventional agri business and the boundless potential for new forms of farming that reconcile tradition with ecology Logsdon reminds us that healthy and economical agriculture must work at nature's pace instead of trying to impose an industrial order on the natural world Foreseeing a future with more farmers not fewer he looks for workable models among the Amish among his lifelong neighbors in Ohio and among resourceful urban gardeners and a new generation of defiantly unorthodox organic growers creating an innovative farmers market economy in every region of the country Nature knows how to grow plants and raise animals it is human beings who are in danger of losing this age old expertise substituting chemical additives and artificial technologies for the traditional virtues of fertility artistry and knowledge of natural processes This new edition of Logsdon's important collection of essays and articles first published by Pantheon in 1993 contains six new chapters taking stock of American farm life at this turn of the century

Cider, Hard and Sweet: History, Traditions, and Making Your Own (Third Edition) Ben Watson, 2013-09-02 In this richly informative and entertaining book Ben Watson explores the cultural and historical roots of cider He introduces us to its different styles draft farmhouse French New England and sparkling and also covers other apple products like apple wine apple juice cider vinegar and Calvados Cider is the new thing in today's drinking world even though it's been around for centuries In spite of its long and colorful history cider has remained relatively underappreciated by the American public The purchase in 2012 of a Vermont based cidemaker for over 300 million signaled that this is all likely to change very soon Richly informative and entertaining Cider Hard and Sweet is your go to source for everything related to apples cider and cidemaking It includes great information on apple varieties cidemaking basics barrel fermentation and recipes for cooking with cider with instructions for making boiled cider and cider jelly and recipes for dishes with cider braises and marinades It also teaches readers how to recognize a good cider and takes you from buying store bought to making the genuine article at home Cider, Hard and Sweet: History, Traditions, and Making Your Own (Second Edition) Ben Watson, 2011-05-01 A fully updated and expanded primer for anyone who wants to make cider and for those who just like to drink it With the rise in consumer demand for local foods and local food products and the emergence of more small craft food and beverage producers since this book was originally published in 2000 this revised edition of Cider Hard and Sweet comes at the right time Watson's expanded the section on the history of cider to chronicle lesser known cider producers such as those in Spain and Asia broadened the selection of North American cider varieties and European cider apple varieties provided new

cidermaking basics tailored to beginner and intermediate cidermakers with special attention to the new cidermaking equipment available added new recipes for cooking with cider from notable chefs and bartenders and added a new chapter about the recent popularity of perry pear cider available for purchase today **Moonshine!** Matthew B.
