Encountering Mystery Dale C. Allison, 2022-07-26 Despite widespread skepticism on the matter a significant number of people today have stories of religious experience moments of inexplicable terror or rapturous joy visions near death experiences of the afterlife encounters with angels heavenly voices and premonitions How should rationally minded people respond What would your reaction be if someone told you that one night while sitting alone she saw through the window a brilliant light descend from the sky until it was so large that it filled the room and that it radiated a feeling of pure love And what would you say if a friend confided that one night he woke up and could not move felt he was being suffocated and sensed an evil spirit in the room By default in the secular age we are skeptical about anything mysterious or supernatural More likely than not most people would respond to the stories above with embarrassment and concern about the person's grasp of reality or they would attempt to explain them away through rational or scientific means But the truth is that religious experiences like these are not as uncommon as they seem although talking about such experiences often is This is the case even in a faith tradition such as Christianity despite the Bible's numerous accounts of miraculous and mysterious happenings In Encountering Mystery noted biblical scholar Dale Allison makes the argument that stories of religious experience are meaningful and not to be marginalized and that we have a moral prerogative to lovingly engage with such stories regardless of whether we have had similar experiences Through a close look at phenomena such as moments of inexplicable terror or rapturous joy visions near death experiences of the afterlife encounters with angels heavenly voices and premonitions Allison shows how ordinary practices of faith need not be at odds with individual religious experiences Above all he enjoins us to be honest about the persistence of religious experience in a secular age and to make space for those who encounter mystery in their lives

Wisdom of Near-Death Experiences Dr. Penny Sartori, 2014-03-25 Drawing on a 5 year clinical study of near death experiences a doctor presents riveting patient stories to explore how NDEs can empower us and society as a whole By trying to pathologize NDEs are we missing out on what they can tell us about life Dr Penny Sartori is a registered nurse who began researching Near Death Experiences NDEs in 1995 after one of her long term intensive care patients begged her to let him die in peace Inspired by this encounter she went on to research NDEs in a PhD

program where she learned profound spiritual lessons and made startling discoveries that she now shares in *The Wisdom of Near Death Experiences*. During her academic work Dr Sartori studied three samples of ICU patients during a five year period. Here she recounts the eye opening stories of those patients who experienced NDEs and out of body experiences OBEs. In one group as many as 18% of patients experienced an NDE though Patient 10 stood out among the others. After being unresponsive he awoke to report he had experienced an OBE. He was able to describe what happened in the hospital room while he was unconscious and claimed he met not only his deceased father but a Jesus like figure. Most shocking of all he had regained the use of his hand which had been paralyzed since birth. When talking about the biggest takeaways from her research Dr Sartori shares how her findings have made her question the common belief that the brain gives rise to consciousness. Most importantly she has gained a deeper appreciation for death an experience she now views with less fear and anxiety. In addition to detailing dozens of case studies *The Wisdom of Near Death Experiences* also discusses childhood NDEs the differences in NDEs among different cultures and the after effects of NDEs.

Afterlife Encounters Dianne Arcangel, 2005-09-02. Never before released research proves the dead communicate with us. As a former hospice worker and director of the Elisabeth Kbler Ross Center Dianne Arcangel was certain that visitations from beyond death provided comfort and hope for loved ones still grappling with their loss. As a researcher however she was unable to find specific data to measure that comfort and hope. To remedy this lack of information she created the Afterlife Encounters Survey a five year international survival study. Afterlife Encounters reveals the results of this landmark study and for the first time offers a systematic categorization of such encounters explaining when these encounters are most likely to occur and what type of apparition is likely to appear. Afterlife Encounters presents not only the data but also the stories beyond the numbers as friends and family members relate their visitation experiences in their own words. Included are amazing stories of the dead returning to tell loved ones that they had been murdered and who it was that killed them apparitions revealing where family treasure was buried even one spirit who provided a remarkable account of the tragedies of 9 11 weeks before those events occurred. The stats and stories that Arcangel shares are certain to stay with you for a long time as will her eye opening conclusion afterlife encounters provide real lasting comfort and hope to an astounding 97 percent of those loved ones who experience them.
