Goodbye Beedee

Goodbye Beedee:

The Butterfly in Amber: The Chain of Charms 6 Kate Forsyth, 2008-07-01 Once there was a gypsy queen who wore on her wrist a chain of six lucky charms The queen gave each her six children one of the charms as their lucky talisman but ever since the chain of charms was broken the gypsies had been dogged with misfortune Life for the Finch tribe has gone even more horribly wrong They have been accused of vagrancy and murder and thrown into gaol with only three weeks to live The only members of the family to escape are 13 year old Emilia and her cousin Luka They have been entrusted to find the six charms and bring them together again Then perhaps the gypsies could once again have some luck and the Finch tribe could walk free What Emilia and Luka do not realise is that there is a price to be paid for each lucky charm and that the cost may prove too high 28th August 3rd September 1658 Luka and Emilia travel to London to find the last of the Graylings tribe who has married a Puritan lawyer and turned her back on her past As well as all the perils of the capital city the children must escape the vengeful Coldham and still get to Kingston Upon Thames in time to rescue their families But then on the anniversary of his greatest victory the Lord Protector Oliver Cromwell is mysteriously stricken down Will everything change And can the children save their family in time The thrilling conclusion to the Chain of Charms series **Your Reading**
