Dunlop,2016-11-20 The 24th of March 1939 was a poignant day for twelve year old Gerald Wiener He was on a train pulling out of Berlin and he was on his way to the UK to escape persecution in Nazi Germany He was one of the thousands of unaccompanied children saved by the Kindertransport Looked after by two sisters in Oxford his abilities as a scholar became apparent and from an early age he was set on the road to academic achievement There followed a distinguished career as a research scientist in Edinburgh where he made a genetic discovery that received international recognition His research department was a centre of excellence and members of his team went on to make an astonishing breakthrough in genetics the cloning of Dolly the sheep During his career Gerald was also in demand to assist agricultural development in China India the secretive North Korea and many other countries and his trips during these years are full of incident and fascinating human and social insights It was while he was on a postdoctoral fellowship in the USA that he discovered he had a large family in California He had known nothing of them as his mother and father had parted when he was only two years old His aunt and stepmother gave him compelling accounts of their escapes from Hitler via Shanghai and life under the Japanese during the War Their stories and that of Gerald himself are amazing tales of resilience and triumph over adversity This book shows how one man s life and achievements mirror the great events of the second half of the twentieth century and the opening years of the new millennium      **Unacknowledged Legislation** Christopher Hitchens,2000 A celebration of Percy Shelley s assertion that poets are the unacknowledged legislators of the world these thirty plus essays on writers from Oscar Wilde to Salman Rushdie dispel the myth of politics as a stone tied to the neck of literature Norman Podhoretz s bloody crossroads Instead Hitchens argues that when all parties in the state were agreed on a matter it was the individual pens that created the space for a true moral argument      *The Fictional Minds of Modernism* Ricardo Miguel-Alfonso,2020-02-20 Challenging the notion that modernism is marked by an inward turn a configuration of the individual as distinct from the world this collection delineates the relationship between the mind and material and social systems rethinking our understanding of modernism s representation of cognitive and affective processes Through analysis of

a variety of international novels short stories and films all published roughly between 1890 and 1945 the contributors to this collection demonstrate that the so called inward turn of modernist narratives in fact reflects the necessary interaction between mind self and world that constitutes knowledge and therefore precludes any radical split between these categories The essays examine the cognitive value of modernist narrative showing how the perception of objects and of other people is a relational activity that requires an awareness of the constant flux of reality The Fictional Minds of Modernism explores how modernist narratives offer insights into the real historical world not as a mere object of contemplation but as an object of knowledge thus bridging the gap between classical narratology and modernist experimentation     Writing with Light Mick Gidley, 2010 Contributor Martin Padgett's essay Native Americans the Photobook and the Southwest Ansel Adams and Mary Austin's Taos Pueblo was awarded the 2010 Arthur Miller Essay Prize This book offers a collection of essays on the interface between literature and photography as exemplified in important North American texts
