A Study of American Education* Upton Sinclair,1923      *The Goose-Step* Upton Sinclair,1924      **The Goose-Step** Upton Sinclair,2017-10-12 Excerpt from *The Goose Step A Study of American Education* Six hundred thousand young people are attending colleges and universities in America They are the pick of our coming generation they are the future Of our country If they are Wisely and soundly taught America will be great and happy if they are misguided and mistaught no power can save us What is the so called higher education of these United States You have taken it for the most part on faith It is Something which has come to be it is big and impressive and you are impressed Every year you pay a hundred million dollars of public funds to help maintain it and half that amount in tuition fees for your sons and daughters You take it for granted that this money is honestly and wisely used that the students are getting the best the highest education the money can buy Suppose I were to tell you that this educational machine has been stolen That a bandit crew have got hold Of it and have set it to work not for your benefit nor the benefit of your sons and daughters but for ends very far from these That our Six hundred thousand young people are being taught deliberately and Of set purpose not wisdom but

**Closed Minds?** Bruce Smith, Jeremy D. Mayer, A. Lee Fritschler, 2010-04-01 Contrary to popular belief the problem with U S higher education is not too much politics but too little Far from being bastions of liberal bias American universities have largely withdrawn from the world of politics So conclude Bruce L R Smith Jeremy Mayer and Lee Fritschler in this illuminating book *Closed Minds* draws on data from interviews focus groups and a new national survey by the authors as well as their decades of experience in higher education to paint the most comprehensive picture to date of campus political attitudes It finds that while liberals outnumber conservatives within faculty ranks even most conservatives believe that ideology has little impact on hiring and promotion Today's students are somewhat more conservative than their professors but few complain of political bias in the classroom Similarly a Pennsylvania legislative inquiry which the authors explore as a case study of conservative activism in higher education found that political bias was rare in the state's public colleges and universities Yet this ideological peace on campus has been purchased at a high price American universities are rarely hospitable to lively discussions of issues of public importance They largely shun serious political debate all but ignore what used to be called civics and take little interest in educating students to be effective citizens Smith Mayer and Fritschler contrast the current climate of disengagement with the original civic mission of American colleges and universities In concluding they suggest how universities can reclaim and strengthen their place in the nation's political and civic life
