Kagan,1999-04-14 In the 1830s Russia was facing a crisis The army was poorly organized the administration was underdeveloped inefficient and corrupt and the state was too poor to bear the strain This crisis was the principal driving force behind Russia s reforms of the 1830s and Nicholas policies can only be understood within the context of that crisis Within this context Frederick Kagan s The Military Reforms of Nicholas I examines Nicholas fundamental reorganization of the Russian military administration from 1832 1836 bringing about the birth of the modern Russian army

Randall,2008-10-01 In the early 1930s Soviet authorities launched a campaign to create socialist retailing and also endorsed Soviet consumerism How did the Stalinist regime reconcile retailing and consumption with socialism This book examines the discourses that the Stalinist regime s new approach to retailing and consumption engendered Civil-Military Conflict in Imperial Russia, 1881-1914 William C. Local Politics in Communist Countries Daniel N. Nelson,2021-11-21 There are many reasons why it is important to study local politics political culture government political process in Communist party states As in all politics local politics in Communist party states are the political articulation of the local community This is the political arena where policies concerning local issues are formulated by the officials This is where the officials are approached by citizens with their particular demands This is where citizens articulate their preferences aspirations and values through political participation And this is where officials both elected and appointed are recruited In this volume Daniel N Nelson has assembled a team of international scholars to consider local politics in Communist party states including the U S S R China Poland Yugoslavia and Romania Together they explore how local social and political forces are articulated in the national and party organizations

they also reveal how the study of comparative local politics provides vitality for the study of national politics Rather than treating local communities as receivers and translators of national inputs the contributors demonstrate that the local dimension and national politics mutually influence one another and illuminate the social reality in communist societies

Includes entries for maps and atlases Revolution and Civil War in North Russia Alistair S. Wright,2025-05-15 Revolution and Civil War in North Russia shines a much needed light on the establishment and consolidation of Bolshevik power on the civil war periphery and examines the Allied anti Bolshevik military and home fronts from a previously uncharted perspective Expanding our understanding of the Russian civil war this book provides the first detailed archival based study in English to analyse the two neighbouring regions of Karelia and Murmansk Despite not being far from the revolutionary capital Petrograd both territories resisted the establishment of Bolshevik power longer than many others and so this study offers novel insights into the complexities of the struggle that eventually led to communist rule Alistair S Wright reflects on how both Karelia and Murmansk relied on food being imported comparing how this problem was dealt with by the two independent local governments Wright shows for the first time how providing Murmansk with food supplies was a key feature of Allied intervention during the conflict part of an informative analysis of Bolshevik and Allied food supply policies to be found throughout the book Russian Orthodoxy Under the Old Regime Robert Lewis Nichols,Theofanis George Stavrou,1978 Russian Orthodoxy under the Old Regime was first published in 1978 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions In this book which is especially suitable for course use eleven scholars examine one of the most important institutions of imperial Russia the Orthodox church in the two centuries before the Russian revolution The material is arranged in two sections the first devoted to Orthodoxy s role in Russian social and cultural life and the second dealing with the church s relationship to the tsarist regime **National Library of Medicine Catalog** National Library of Medicine (U.S.),1960 **Guide to Microforms in Print** ,2002 The Soviet Union's Agricultural Biowarfare Programme Anthony Rimmington,2021-06-18 This book focuses upon the secret agricultural biological warfare programme codenamed Ekologiya which was pursued by the Soviet Union from 1958 through to the collapse of the USSR in 1991 It was the largest offensive agricultural biowarfare project the world has ever seen and Soviet anti crop and anti livestock weapons had the capability to inflict enormous damage on Western agriculture Beginning in the early 1970s there was a new focus within the Soviet agricultural biowarfare programme on molecular biology and the development of genetically modified agents A key characteristic of the Ekologiya project was the creation of mobilization production facilities These ostensibly civil manufacturing plants incorporated capacity for production of biowarfare agents in wartime emergency During the 1990s 2000s the counter proliferation efforts undertaken by the US and UK played a major role in preventing the transfer of

Ekologiya scientists technologies and pathogens to Iran and other countries of potential proliferation concern Anthony Rimmington is a former Senior Research Fellow at Birmingham University s Centre for Russian European and Eurasian Studies UK He has published widely on the civil life sciences sector in the post Soviet states and on the Soviet Union s offensive biological warfare programme including Stalin s Secret Weapon The Origins of Soviet Biological Warfare

Thinking Russia's History Environmentally Catherine Evtuhov, Julia Lajus, David Moon, 2023-07-14 Historians of Russia were relative latecomers to the field of environmental history Yet in the past decade the exploration of Russian environmental history has burgeoned Thinking Russia s History Environmentally showcases collaboration amongst an international set of scholars who focus on the contribution that the study of Russian environments makes to the global environmental field Through discerning analysis of natural resources the environment as a factor in historical processes such as industrialization and more recent human animal interactions this volume challenges stereotypes of Russian history and in so doing highlights the unexpected importance of Russian environments across a time frame well beyond the ecological catastrophes of the Soviet period

Justice, Crime, and Citizenship in Eurasia Erica Marat, Lauren A. McCarthy, 2022-08-18 What role does law play in post communist societies This book examines the law as a social institution in Eurasia exploring how it is shaped in everyday interactions between state and society organisations and individuals and between law enforcement and other government entities It bridges the gap between theoretically rich work on law in action and the empirical reality of Eurasia The contributions in this volume include research on policing the legal profession public attitudes towards law regime support and oppositional mobilisation crime policy and property rights among others The studies shift away from the common perception that in Eurasia the law exists only as a tool for the state to enforce order and suppress dissent Instead they show through empirical analyses that citizens evade use reinterpret and shape the law even in authoritarian contexts sometimes containing state violence and challenging the regime and other times reinforcing state capture from below The chapters in this book were originally published as a special issue of the journal Europe Asia Studies
