Thomas, 1990

*California Gothic: The Dark Side of the Dream* Charles L. Crow, 2024-01-16 California Gothic explores the California dream and its dark inversion as a nightmare as illustrated in fiction poetry and film California began as a literary invention a magic island in a Spanish romance before conquistadors first visited the land From early days to the present the California dream of happiness in a land of new beginnings has been maintained by suppression of disturbing realities above all the destruction of native peoples and by events and facts such as the tragedy of the Donner Party the persistence of poverty and crime in the golden land disturbing crimes such as the Black Dahlia and pandemics and ecological disaster This book explores a rich Gothic tradition that exposes the repressed past and imagines the fates awaiting a failed California

Nightmares in the Long Nineteenth Century Frances Clemente, Greta Colombani, 2025-04-11 From Johann Heinrich Füssli's 1781 oil painting *The Nightmare* which was to become the iconic image of a newly emergent sensibility to the first psychoanalytic studies culminating in *On the Nightmare* by Ernest Jones first published in 1911 the long nineteenth century was characterised by a pervasive fascination with nightmares both as frightening dreams and in their personified form evil spirits or monstrous creatures This volume investigates the extensive and multifaceted presence of nightmares in the literature and culture of this period from a cross disciplinary and cross national perspective shedding new light on the remarkably widespread nature of the nineteenth century interest in nightmares as well as on common threads and features that inform and animate it Its contributions by scholars from different fields reveal how nineteenth century representations of nightmare across and beyond Europe explored fundamental questions about the limits of consciousness and reason the complex interplay of body and mind the elusive boundaries between self and other and the dread of alterity giving voice to deep rooted fears and anxieties in a period when these notions were undergoing radical rethinking Dreams and atrocity Emily-Rose Baker, Diane Otsuka, 2023-03-07 This volume explores the relationship between oneiric and historical episodes of atrocity as depicted in transnational twentieth and twenty first century art film literature and theatre Examining the political and aesthetic power harnessed by dreams in increasingly dark times it takes as its starting point the overlooked significance granted to the oneiric beyond Freudian psychoanalysis By reading the oneiric within variously known cultural texts including Holocaust fiction world cinema Bronx theatre surrealist art and two collections of wartime dream transcriptions the volume also offers a renewed perspective on modern and contemporary trauma In so doing it demonstrates the relevance of the

oneiric beyond the interpretative framework of psychoanalysis as an aesthetic and political tool with which to alert us and respond to the violence of our contemporary world      The Future of the Nineteenth-Century Dream-Child Amy Billone, 2016-06-10 This book investigates the reappearance of the 19th century dream child from the Golden Age of Children's Literature both in the Harry Potter series and in other works that have reached unprecedented levels of popular success today Discussing Harry Potter as a reincarnation of Lewis Carroll's Alice and J M Barrie's Peter Pan Billone goes on to examine the recent resurrection of Alice in Tim Burton's Alice and of Peter Pan in Michael Jackson and in James Bond Visiting trends that have emerged since the Harry Potter series ended the book studies revisions of the dream child in texts and films that have inspired mass fandom in the twenty first century Stephenie Meyer's Twilight E L James's 50 Shades of Grey and Suzanne Collins's The Hunger Games The volume argues that the 21st century desire to achieve dream states in relationship to eternal youth results from the way that dreams provide a means of realizing the fantastic yet alarming possibility of escaping from time This current identification with the dream child stems from the threat of political unrest and economic and environmental collapse as well as from the simultaneous technophilia and technophobia of a culture immersed in the breathless revolution of the digital age This book not only explores how the dream child from the past has returned to reflect misgivings about imagined dystopian futures but also reveals how the rebirth of the dream child opens up possibilities for new narratives where happy endings remain viable against all odds It will appeal to scholars in a wide variety of fields including Childhood Studies Children's YA Literature Cinema Studies Cultural Studies Cyberculture Gender Studies Queer Studies Gothic Studies New Media and Popular Culture      **Lacan and Romanticism** Daniela Garofalo, David Sigler, 2019-03-25 Draws from the work of Jacques Lacan to provide innovative readings of Romantic literature in the long nineteenth century Lacan and Romanticism uses the work of psychoanalyst Jacques Lacan to deliver progressive readings of Romanticism by examining canonical Romantic authors such as William Wordsworth Mary Shelley John Keats and Jane Austen as well as lesser known writers such as the graveyard poets and Sarah Scott The contributors develop innovative approaches to Lacanian literary studies focusing on neglected or emergent areas of Lacan's thought and approaching Lacan's best known work in unexpected ways The essay topics include the visible and seeable war the death drive nonhuman sexualities sublimation loss and mourning utopia capitalism fantasy and topology and they range from the mid eighteenth through the early decades of the nineteenth centuries The book reveals new ways of thinking about art and literature with psychoanalytic theory and suggests how theoretical approaches can contribute meaningfully to literary studies in general Reading this book may well entice the Romanticist who isn't already engaged in psychoanalytic theory to do so and the Lacanian scholar who may have concluded erroneously that Lacan's last word on Romanticism was his criticism of some well known lines from the Immortality ode to reconsider the value of returning to Romantic literature and visual culture Guinn Batten author of The Orphaned Imagination Melancholy and Commodity Culture in English Romanticism      **Dream and**

**Literary Creation in Womens Writings in the Eighteenth and Nineteenth Centuries** Isabelle Hervouet, Anne Rouhette, 2021-06-15 This edited collection deals with dream as a literary trope and as a source of creativity in women's writings. It gathers essays spanning a time period from the end of the seventeenth century to the mid nineteenth century with a strong focus on the Romantic period and particularly on Mary Shelley's *Frankenstein* in which dreams are at the heart of the writing process but also constitute the diegetic substance of the narrative. The contributions re-examine the oneiric facets of the novel and develop fresh perspectives on dreams and dreaming in Mary Shelley's fiction and on other female authors: Anne Finch, Ann Radcliffe, Emily and Charlotte Brontë and a few others re-appraising the textuality of dreams and their link to women's creativity and creation as a whole.

**Sigmund Freud's The Interpretation of Dreams** Laura Marcus, 2024-06-04 Freud's *The Interpretation of Dreams* published in 1900 has been one of the most influential texts of the modern era, fundamentally changing the ways in which people have thought about their waking lives as well as their dreams. This book more than any other in Freud's massive oeuvre has shaped a vast amount of work in linguistics and semiotics, literary studies, film theory, psychology, philosophical hermeneutics and the history of ideas. This influence is reflected in the editor's introduction which includes a substantial discussion of the theory and practice of representation and the six essays specially commissioned for this volume. The contributors are renowned for their knowledge of Freudian theory and for their interdisciplinary expertise in a wide range of fields. They examine, for example, the relationship of Freud's text to theories of interpretation, autobiography and literary production. The book as a whole gives a clear sense both of the context of Freud's text and of its influence throughout the twentieth century. This volume is an ideal introduction to Freud's work for students and teachers of English and other literatures, philosophy and social and cultural studies as well as the wider audience concerned with psychoanalysis and its cultural ramifications.

*Lectures on American literature* Justin Quinn, 2011-10-01 The first edition of this book published in 2002 aimed to complete the study material for our students of American literature. The third edition strives to emphasize this aspect while expanding and deepening the general overview as well as including other important movements and authors. The exposition of the 20th century underwent major changes; the scholars added new texts while supplementing the older ones to comply with the development of critical and academic approaches. The book is written to the point and in comprehensible language corresponding with the ambition to present and explain the development of one of the most interesting world literatures to university students.

*Disruptive Women of Literature* Eleanore Gardner, 2024-07-08 This book critically examines the literary antiheroine in contemporary Gothic and

crime thriller novels Gardner explores a broad range of texts to understand the antiheroine's fluidity, her liminal and abject existence and what these suggest about cultural anxieties surrounding transgressive women     *Horace Walpole* R.W.

Ketton-Cremer, 2025-05-01 *Horace Walpole* 1964 was widely acclaimed when it first appeared as the best life of Walpole yet written. It is scholarly and thorough and since then there is no reason to believe that it has been displaced     **The**

**Routledge Companion to Death and Literature** W. Michelle Wang, Daniel Jernigan, Neil Murphy, 2020-12-07 *The Routledge Companion to Death and Literature* seeks to understand the ways in which literature has engaged deeply with the ever-evolving relationship humanity has with its ultimate demise. It is the most comprehensive collection in this growing field of study and includes essays by Brian McHale, Catherine Belling, Ronald Schleifer, Helen Swift and Ira Nadel, as well as the work of a generation of younger scholars from around the globe who bring valuable transnational insights. Encompassing a diverse range of mediums and genres including biography and autobiography, documentary, drama, elegy, film, the novel and graphic novel, opera, picturebooks, poetry, television and more, the contributors offer a dynamic mix of approaches that range from expansive perspectives on particular periods and genres to extended analyses of select case studies. Essays are included from every major Western period including Classical, Middle Ages, Renaissance and so on, right up to the contemporary. This collection provides a telling demonstration of the myriad ways that humanity has learned to live with the inevitability of death, where life with itself might mean any number of things from consoling to memorializing to rationalizing to fending off to evading and perhaps most compellingly of all to escaping. Engagingly written and drawing on examples from around the world, this volume is indispensable to both students and scholars working in the fields of medical humanities, thanatology, death studies, life writing, Victorian studies, modernist studies, narrative, contemporary fiction, popular culture and more.

**The Gothic Revival** Kenneth Clark, 1929 The Great War, The Waste Land and the Modernist Long Poem Oliver Tearle, 2019-03-07 The Great War The Waste Land and the Modernist Long Poem explores how cultural responses to the trauma of the First World War found expression in the form of the modernist long poem Beginning with T S Eliot's The Waste Land Oliver Tearle reads that most famous example of the genre in comparison with lesser known long poems such as Hope Mirrlees's Paris A Poem Richard Aldington's A Fool in the Forest and Nancy Cunard's Parallax As well as presenting a new history of this neglected genre the book examines the ways in which the modernist long poem represented the seminal literary form for grappling with the crises of European modernity in the wake of World War I

**Commerce of Taste** Barry Magrill, 2012-04-24 In the late nineteenth century the circulation of pattern books featuring medieval church architecture in England facilitated an unprecedented spread of Gothic revival churches in Canada Engaging several themes around the spread of print culture religion and settlement A Commerce of Taste details the business of church building Drawing upon formal architectural analysis and cultural theory Barry Magrill shows how pattern books offer a unique way of studying the relationships between taste ideology privilege social change and economics Taste was a concept used to legitimize British and to an extent Anglican privilege while other denominations resisted their aesthetic edicts Pattern books eventually lost control of the exclusivity associated with taste as advances in printing technology and transatlantic shipping brought more books into the marketplace and readerships expanded beyond the professional classes By the early twentieth century taste had become diluted the architect had lost his heroic status and architectural distinctions among denominations were less apparent Drawing together the history of church building and the broader patterns of Canadian social and historical development A Commerce of Taste presents an alternative perspective on the spread of religious monuments in Canada by looking squarely at pattern books as sources of social conflict around the issue of taste

**Screening the Gothic** Lisa Hopkins, 2010-01-01 Filmmakers have long been drawn to the Gothic with its eerie settings and promise of horror lurking beneath the surface Moreover the Gothic allows filmmakers to hold a mirror up to their own age and reveal society's deepest fears Franco Zeffirelli's Jane Eyre Francis Ford Coppola's Bram Stoker's Dracula and Kenneth Branagh's Hamlet are just a few examples of film adaptations of literary Gothic texts In this ground breaking study Lisa Hopkins explores how the Gothic has been deployed in these and other contemporary films and comes to some surprising conclusions For instance in a brilliant chapter on films geared to children Hopkins finds that horror resides not in the trolls wizards and goblins that abound in Harry Potter but in the heart of the family Screening the Gothic offers a radical new way of understanding the relationship between film and the Gothic as it surveys a wide range of films many of which have received scant critical attention Its central claim is that paradoxically those texts whose affiliations with the Gothic were the clearest became the least Gothic when filmed Thus Hopkins surprises readers by revealing Gothic elements in films such as Sense and Sensibility

and Mansfield Park as well as exploring more obviously Gothic films like The Mummy and The Fellowship of the Ring Written in an accessible and engaging manner Screening the Gothic will be of interest to film lovers as well as students and scholars
