Idea Of Prostitution:

The Sexual Life of Our Time in Its Relations to Modern Civilization Iwan Bloch, 1909 *The Sexual Life of Our Time in Its Relations to Modern Civilization* Iwan Bloch, 2021-04-22 The author s aim in writing this book was to write a complete Encyclop dia on the sexual sciences and it will probably be acknowledged by all who study its pages that the author has accomplished his intention in a very scholarly manner and in such form as to be of great value to the professions for whom this translation is intended The subject is no doubt one which appeals to and affects the interests of all adult persons but the publishers have after very serious and careful consideration come to the conclusion that the sale of the English translation of the book shall be limited to members of the legal and medical professions To both these professions it is essential that a knowledge of the science of Sex and the various causes for the existence of abnormalities should be ascertained so that they may be guided in the future in their investigations into and the practice of attempts to mitigate the evil which undoubtedly exists and to bring about a more healthy class of beings It is the first time that the subject has been so carefully and fully gone into in the English language and it is believed that the very exhaustive examination which the author has made into the matter and the various cases to which he has called attention will be of considerable use to the medical practitioner and also to the lawyer in criminal and quasi criminal matters and probably in matrimonial disputes and cases of insanity

The Sexual Life of Our Time in Its Relation to Modern Civilization Iwan Bloch, 1914

Criminalising the Client Josefina Erikson, 2017-06-09 In 1998 Sweden was the first country in the world to criminalise the purchase of sexual services but not the sale of sex The law represented a new prostitution regime that problematised power relations in prostitution as inherently gendered and hierarchical and made the male buyers of sexual services responsible for the act of prostitution The Swedish case is critically important to the study of gendered institutional change and has been of empirical interest and global debate Using the feminist institutionalism approach to the analysis this study offers new insights to the Swedish case and provides a new analytical framework for micro level analysis of institutional change that addresses the struggle for meaning institutionalization of new gendered ideas and the strategic actions of feminist actors

Street-Level Workers as Institutional Entrepreneurs Olivia Mettang,2022-11-14 Introducing the institutional logics perspective to street level analysis this book examines how street level workers deal with the institutional logics that guide their organization whether they follow or challenge them While doing so the book develops a theoretical framework to study street level workers institutional agency within organizations from different institutional backgrounds The book conceptualizes street level workers as institutional entrepreneurs and presents an original process model to capture deinstitutionalization efforts in street level discourse This ordinal model accounts for embedded agency and institutional entrepreneurship as well as for more gradual moves towards deinstitutionalization through the hybridization of institutional logics The author tests the model empirically using interview data and discusses how street level workers diverge from the institutional logic of their organization in almost two thirds of their statements indicating a tendency towards institutional entrepreneurship The book finally combines two literature strands institutionalism and implementation research showing how street level workers may be perceived as institutional entrepreneurs This book will appeal to students scholars and researchers of political science public policy public administration and organizational studies as well as to practitioners and policy makers interested in a better understanding of institutional entrepreneurs street work and the institutional logics perspective
