Barbarians and Civilization in International Relations Mark B. Salter, 2002-09-20 The terrorist attacks in New York and Washington have led to popular conceptions of Muslims as terrorists Some commentators have harked back to the Clash of Civilizations argument outlined by Samuel Huntington which argued that after the collapse of the Cold War culture would become the main axis of conflict for civilisational alliances Mark Salter takes issue with Huntington's theory and explains how the terms of his argument are part of an imperialist discourse that casts other civilisations as essentially barbarian Although many commentators have engaged with Huntington's claims few have pursued the political implications of his argument *Barbarians and Civilisation* offers a decisive exploration of the colonial rhetoric inherent in current political discourse Charting the usefulness of concepts of culture and identity for understanding world politics Salter brilliantly illustrates the benefits and the limitations of the civilised barbarian dichotomy in international relations

Foundations of the American Century Inderjeet Parmar,2012-04-03 Inderjeet Parmar reveals the complex interrelations shared mindsets and collaborative efforts of influential public and private organizations in the building of American hegemony Focusing on the involvement of the Ford Rockefeller and Carnegie foundations in U S foreign affairs Parmar traces the transformation of America from an isolationist nation into the world s only superpower all in the name of benevolent stewardship Parmar begins in the 1920s with the establishment of these foundations and their system of top down elitist scientific giving which focused more on managing social political and economic change than on solving modern society s structural problems Consulting rare documents and other archival materials he recounts how the American intellectuals academics and policy makers affiliated with these organizations institutionalized such elitism which then bled into the machinery of U S foreign policy and became regarded as the essence of modernity America hoped to replace Britain in the role of global hegemon and created the necessary political ideological military and institutional capacity to do so yet far from being objective the Ford Rockefeller and Carnegie foundations often advanced U S interests at the expense of other nations Incorporating case studies of American philanthropy in Nigeria Chile and Indonesia Parmar boldly exposes the knowledge networks underwriting American dominance in the twentieth century
