Europe Meets

America Gaia Caramellino,2016-08-17 An analysis of the New York professional milieu between the Wall Street Crash of 1929 and the aftermath of WWII reveals an unexpected scenario in which diverse branches of technical culture and professional and institutional spheres often overlap and initiatives in the field of architecture are characterised by tensions between designers and technicians which pave the way for issues of architects' autonomy responsibility and social roles in the New Deal From an initial portrayal of William Lescaze 1896-1969 as an unconventional figure straddling two continents this book challenges a long established interpretation that sees Lescaze exclusively as promoter of the International Style canons in the United States Moving beyond it this book focuses on the role that the Swiss architect played in defining the main features of New York social housing and in the evolution that marks the encounter between European modernity and an American federal scene still profoundly tied to local conventions From an initially difficult status as an migrant to his involvement in decisional processes and bureaucratic organisations Lescaze's professional progress coincides with the gradual acceptance of European forms and models which little by little became part of the institutional language related to

public housing which would remain prevalent in New York City until the end of WWII Drawing from yet unpublished archival sources pertaining to two fields housing and architecture which have traditionally been separate in American historiography this book sheds light on many crucial issues in a branch of architecture that is particularly relevant today **A Companion to the Great Western Schism (1378-1417)** ,2009-09-30 The division of the Church or Schism that took place between 1378 and 1417 had no precedent in Christianity No conclave since the twelfth century had acted as had those in April and September 1378 electing two concurrent popes This crisis was neither an issue of the authority claimed by the pope and the Holy Roman Emperor nor an issue of authority and liturgy The Great Western Schism was unique because it forced upon Christianity a rethinking of the traditional medieval mental frame It raised question of personality authority human fallibility ecclesiastical jurisdiction and taxation and in the end responsibility in holding power and authority This collection presents the broadest range of experiences center and periphery clerical and lay male and female Christian and Muslim Theology including exegesis of Scripture diplomacy French literature reform art and finance all receive attention **The European Avant-Garde - A Hundred Years Later** ,2024-01-08 The title of this book The European Avant Garde A Hundred Years Later implies the European avant garde took place a century ago that it is a thing of the past However it does not aim to consolidate this position but to question it It addresses temporality as the central dimension related to the notion of the avant garde The book brings forth original revisions of the theories of the avant garde the works of the avant garde the idea of the avant garde as being the vanguard the leading force of change It addresses the returning of the avant garde during the twentieth century and today [The International Style: the Arts in Europe Around 1400, Etc](#) Walters Art Gallery (Baltimore, Md.),1962 **Central and Eastern European Art Since 1950 (World of Art)** Maja Fowkes,Reuben Fowkes,2020-04-14 A groundbreaking introduction to the contemporary art of central and Eastern Europe this wide ranging study explores painting sculpture photography performance and conceptual work In this pathbreaking new history Maja and Reuben Fowkes introduce outstanding artworks and major figures from across central and Eastern Europe to reveal the movements theories and styles that have shaped artistic practice since 1950 They emphasize the particularly rich and varied art scenes of Poland Czechoslovakia Hungary and Yugoslavia extending their gaze at intervals to East Germany Romania the Baltic states and the rest of the Balkans This generously illustrated overview explores the richness of this region s artists singular contribution to recent art history Tracing art historical changes from 1950 to now the authors examine the repercussions of political events on artistic life notably the uprisings in Hungary and Czechoslovakia the Solidarity movement in Poland and the collapse of the communist bloc But their primary interest is in the experimental art of the neo avant garde that resisted official agendas and engaged with global currents such as performance art video multimedia and net art Central and Eastern European Art Since 1950 is a comprehensive transnational survey of the major movements of art from this region
