EC Competition and Telecommunications Law Christian Koenig, Andreas Bartosch, 2009-03-27 This new volume updates the groundbreaking analysis of its first edition in 2002 when the EC common regulatory framework for electronic communications networks and services had just entered into force So much has changed in the intervening years that that this new edition bears little resemblance to its predecessor with every chapter either extensively altered or entirely new It remains however the most detailed and comprehensive overview available of the application of the EC Treaty's competition rules in the markets for telecommunications and audiovisual media and of the applicable regulatory framework In thirteen chapters each contributed by one or more noted legal authorities in the field the second edition of *EC Competition and Telecommunications Law* covers the full range of EC telecommunications law across all major areas of both institutional and substantive law both on the international and EC levels including the following State aid the merger control regulation justification for sector specific regulation in EC competition law network access authorizations and privileges and mobile telephony Relevant EC media and communications law and relevant aspects of EC competition law are dealt with in detail While some chapters focus on competition law others deal primarily with sector specific regulation There is practical guidance throughout on procedural matters alongside analysis of the substantive provisions Well known in its first edition this thoroughly revised and updated version continue to be vital reading for practitioners in particular those specializing in European competition law and for company and in house lawyers who are seeking advice on how European law affects their business As a detailed analysis of the basic legislative and regulatory framework of European telecommunications law it will be an invaluable reference work for lawyers judges regulators and policymakers in all the EC Member States as well as for students and teachers of European law

Subsequent chapters are devoted to the various issues that have given rise to the growth of this discipline including arms control economic and social development specific provisions contained in the outer space treaties and how they relate to practical matters such as dispute resolution private sector growth and commercialization in space activities international cooperative programmes particularly those developed under the auspices of the United Nations and recent developments and future issues facing the space faring community The book is an excellent source for further research in the field of space law It is a must for students and practitioners and those interested in international organizations Global Sales and Contract Law Ingeborg Schwenzer,Pascal Hachem,Christopher Kee,2012-01-26 Although the 1980 United Nations Convention on Contracts for the International Sale of Goods CISG is one of the most successful international conventions to date it remains the case that those involved in the international sale of goods must refer to a multitude of laws Indeed the CISG itself does not cover all issues relating to international sales contracts so it must necessarily be supplemented by domestic law Global Sales and Contract Law provides a truly comparative analysis of domestic laws in over sixty countries so as to deliver a global view of domestic and international sales law The book reports on the real practice of sales law taking into account present day problems Complex questions on the obligations under a sales contract the ways in which these are established as well as the remedies following the breach of obligations are all discussed By addressing regional uniform projects like OHADA and comparing differences in domestic legal approach where the CISG would not apply the work goes beyond existing commentaries which tend to focus only on the CISG The analysis has been based on an unprecedented survey drawn from the world s top fifty companies as well as international traders lawyers advising international traders arbitral institutions arbitrators and law schools This work encompasses all aspects of a sale of goods transaction and takes a wide view of sale by including general contract law The book gives practitioners invaluable insight into judicial trends and possible solutions in different legal systems whether preparing for litigation or drafting an international contract Global Sales and Contract Law is the most comprehensive and thorough compilation of legal analysis in the field of the sale of goods and is a reliable source for any practitioner dealing in international commerce *The Amendment of the Constitutive Instruments of the United Nations and Specialized Agencies* Ralph Zacklin,2005-11-01 The amendment of international treaties raises problems which are closely linked to the issue of stability and development in the international juridical order The author of the present work successfully relates these problems which are of crucial importance in all juridical systems to the more particular problems connected with the constitutions of international organizations of universal scope As the effectiveness and continuity of international organizations depend to no small extent on their ability to adapt themselves constantly to a rapidly evolving world the necessary flexibility must be ensured by provisions included in the constitutions of the organizations The juridical tool used to meet these needs is an amendment clause incorporated in the constitutive instrument The above mentioned text from the Foreword by Paul Guggenheim written in 1967 is still as valid today in the light of the reform proposals emerging

from the work of the High Level Panel and the Report of the Secretary General In Larger Freedom which are currently the subject of intense negotiations around the Charter of the United Nations and in particular Articles 108 and 109 This reprinted edition will be of great value to those involved in the reform negotiations as well as to those studying international organizations
