Marinov,S. Marinova,2012-11-19 The internationalization of emerging economies has brought new perspectives to international business development Focusing on the extensive impact these emerging economies and firms have had this volume covers the strong players such as Brazil Russia India and China as well as dynamically developing economies such as Mexico and the Philippines The contributors review topics such as the role of institutions and resource dependency on outward foreign direct investment from emerging economies and the role of the global mindset and psychic distance on the performance of subsidiaries of firms originating from emerging economies It explores new horizons in international business development and addresses challenging perspectives *Managing in Developing Countries* Betty Jane Punnett,2017-09-13 This book considers management theories and approaches specifically in the context of developing countries In recent years international business scholarship has increased its focus on the developing world which represents 80 percent of the global population and has doubled its share of value added trade in the past two decades This text will help readers to manage successfully in this region by learning to assess apply and adapt established practices in developing countries Punnett begins by identifying the characteristics of the developing world Africa Asia the Caribbean India Latin America and the Middle East

and the companies therein to help students understand how the reality of these countries influences business and management. By tracking a fictional product through the internationalization process, students will navigate the challenges of operating an international company from a developing country base using a traditional model of management focused on planning, organizing, staffing, leading, and controlling. They will also gain insight into ethical considerations likely to arise, such as differential treatment based on personal characteristics and age dispersion. Cases, discussion questions, personal stories, and end-of-chapter exercises will help readers to grapple with issues and test their learning. Complete with chapter objectives and Lessons Learned boxes to facilitate understanding, *Managing in Developing Countries* is an excellent supplement for international business or international management students with a special interest in the developing world.

As a textbook, it covers most of the theories and concepts in the field, clearly explaining concepts and theories with practical application to the developing countries environment and can help students to understand how international finance concepts are applicable in the business world. The author believes that this book will meet the needs of students undertaking MBA courses in International Business and Trade and other professional courses such as CPA, CIMA, CFA, and ACCA. The presentation of this book is in a simple language which makes the reading interesting and enjoyable to both students and managers in this field.

Multinational Enterprise Management Strategies in Developing Countries Khan, Mohammad Ayub, 2016-05-16 In contemporary economies, businesses must consistently make strides to remain competitive and profitable at both national and international levels. Unlike in the developed world, corporations in developing nations face a different set of challenges for achieving growth. *Multinational Enterprise Management Strategies in Developing Countries* is an authoritative reference source for the latest scholarly research on diverse opportunities and obstacles facing multinational corporations in emerging economies. Highlighting innovative perspectives and real-world examples, this book is ideally designed for researchers, practitioners, upper-level students, and industry professionals interested in management approaches for achieving success in international corporations.

International Strategy of Emerging Market Firms Andrei Panibratov, 2017-03-16 Emerging economies are expected to be in the driver's seat of the global economy in the medium and long term. Large multinational corporations will account for much of this activity. In this textbook, Andrei Panibratov explains how emerging market firms accumulate and exploit market knowledge to develop competitive advantages whilst operating globally. Chapters dedicated to the key emerging economies—Brazil, Russia, India, and China (BRIC)—are enhanced by detailed case studies of large firms' activities. The book is divided into four parts focusing on the following: An outline of the relevant terminology and the context of the international strategy of emerging market firms, providing an introductory foundation for the whole book; A guide to the evolution of perspectives regarding international strategy designed to illustrate the changes and trends in the recent academic research on internationalization; A country-by-country illustration of the

internationalization of BRIC economies and firms providing an overall picture of each country's global integration outward investments and strategies. The concepts and practices behind the strategies employed by different firms. Written by an established international business scholar, this book is essential reading for students of international strategy who wish to understand the importance of the emerging economies. *The Promises and Properties of Rapidly Growing Companies* Florian Becker-Ritterspach, Christoph Dörrenbächer, Matthias Tomenendal, 2022-08-24. The Promises and Properties of Rapidly Growing Companies contributes to contemporary thought on so-called gazelles, high-performing market players that create many jobs and promise strong welfare effects, a valuable resource for academics, managers, policy makers, and civil society actors. *Comparing High Technology Firms in Developed and Developing Countries: Cluster Growth Initiatives* Bas, Tomas Gabriel, 2012-05-31. Clusters are geographic concentrations of interconnected companies, specialized suppliers, service providers, and associated institutions in a particular field that are present in a nation or region. The development and upgrading of clusters is an important agenda for governments, companies, and other institutions. Cluster growth initiatives are an important new direction in economic policy, building on earlier efforts in macroeconomic stabilization, privatization, market opening, and cost reduction related to doing business. *Comparing High Technology Firms in Developed and Developing Countries: Cluster Growth Initiatives* is the leading source of information for readers interested in this field of study, as it promotes scientific discussion on policies and practice of cluster growth, as well as covers the emerging research topics which are going to define the future of the management of technology. Furthermore, this book demonstrates the effectiveness and efficiency of technology policy based on observations of differential growth rates of high technology firms in clusters and explores the factors that explain superior performance of high technology firms to contribute to the improvement of technology policy in both developed and developing countries. *Inclusive Businesses in Developing Economies* Rajagopal, Ramesh Behl, 2022-11-15. This book analyzes the emerging concepts and theories of inclusiveness in business by explaining corporate social responsibility, social learning, and value co-creation as critical elements to the success of firms. The authors explore the causes and effects and challenges associated with the management of inclusive businesses. Divided into six sections, this edited work includes twenty-one chapters that examine the inclusive business philosophy, the social dynamics of managing inclusive business, the role of trade and inclusive practices at work, before concluding with a discussion of how to drive hybrid growth in these types of organizations. Focusing on developing economies, this book portrays the varied corporate experiences in inclusive business designs and customer value propositions across the industries. It surveys the problems, possible solutions, and policy frameworks for integrating business as a resource to alleviate poverty and social and economic inequality. *The Process of Internationalization in Emerging SMEs and Emerging Economies* Hamid Etemad, 2013-01-01. This book, the fourth volume in the McGill International Entrepreneurship Series, brings together 27 top scholars to explore the structural complexities, evolving relations, and dynamic forces that are shaping a new system of multi-polar, multi-level

international business relations It examines entrepreneurial efforts and relations in different national and corporate cultures each embedded in and also constrained by country specific socio economic structures and each vying for consumer attentions in competitive global markets The new millennia has experienced much rapid change much of it implicit intangible and not covered by the headlines of the popular press The bipolar business system of the 20th century that prioritized the relationship between firms and consumers of developed countries is giving way to an emerging multi polar and multi level international system that considers consumers and companies in developing economies as well In this book scholars from around the world analyze the nascent architecture and relations in this quickly evolving system They explore the structural complexities evolving relations and dynamic forces that are shaping and re shaping the new system and examine entrepreneurial efforts and relations that cement its structure The chapters in this volume portray the operating conditions of firms across 14 emerging country environments and industries ranging from basic foods and information technology to complex business processes Students and professors of international business entrepreneurship marketing and management studies will find this volume an indispensable addition to the literature

De Gruyter Handbook of Business Families

Michael Carney, Marleen Dieleman, 2023-01-30 The management field increasingly recognizes that most firms in the world are family firms and that these entities operate differently from the non family firms on which most of our current management theories are based The De Gruyter Handbook of Business Families brings together work from leading academics who explore emerging research themes relevant to business families particularly drawing in new insights from adjacent disciplines that can advance the family business field The handbook challenges the traditional notion of the single firm single family that has characterized most early research on family business Recognizing that families may simultaneously own or control multiple businesses as well as substantial wealth beyond these firms in the form of financial and non financial assets this handbook focuses on business families rather than the narrower construct of family business The contributions in this handbook explore the relatively neglected dynamics between individuals with family ties that shape the interaction between family and business business families with multiple businesses how business families adopt formal rules and processes around their joint activities and the institutionalization of wealth and business families in society The De Gruyter Handbook of Business Families fills a gap in the family business research literature and is an essential reference work for researchers and graduate level students in the area of business families
