Internationalization Of United States Franchizing Systems:

The Internationalization of US Franchising Systems Ilan Alon, 2014-06-03 This book reviews both the environmental and organizational factors of international franchising but focuses on the latter because environmental factors can not adequately explain why some franchisers within a particular industry internationalize This study finds that organizational factors such as the size age growth rate pricing strategies and the geographical dispersion of the firm collectively affect the franchising firm's decision to internationalize However the individual variables are different in significance and magnitude for the retailing hotel and motel and professional business service industries Service Franchising Ilan Alon, 2006-03-14 Service Franchising succinctly extracts from observations about international franchising from both the scholarly and trade literature The work adds insights gleaned through extensive research and the experiences of the author As a result the book advances the body of knowledge on international franchising for the academic community In addition to being a breakthrough text for researchers in business and economics the book also contains guidance for franchisors and franchisees in their efforts to achieve success in the global marketplace Ilan Alon has made major contributions to the understanding of franchising both through his own research and his compiling and study of the work of other leading researchers Alon pioneered research into the internationalization of franchising with his published studies from Asia Europe Latin America and other parts of the world U.S. National Study on Trade in Services, 1984 *New Developments in Franchising* United States.
