IJER Vol 2-N4 International Journal of Educational Reform, 1993-10-01 The mission of the International Journal of Educational Reform IJER is to keep readers up to date with worldwide

developments in education reform by providing scholarly information and practical analysis from recognized international authorities. As the only peer reviewed scholarly publication that combines authors' voices without regard for the political affiliations, perspectives or research methodologies, IJER provides readers with a balanced view of all sides of the political and educational mainstream. To this end, IJER includes but is not limited to inquiry based and opinion pieces on developments in such areas as policy administration, curriculum, instruction, law and research. IJER should thus be of interest to professional educators with decision making roles and policymakers at all levels, since it provides a broad based conversation between and among policymakers, practitioners and academicians about reform goals, objectives and methods for success throughout the world. Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked. IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes. Finally, it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U S and the world.
