Constitutional Politics in Canada and the United States Stephen L. Newman, 2012-02-01 The Canadian constitutional reforms of 1982 which included a Charter of Rights and Freedoms analogous to the American Bill of Rights brought about a convergence with American constitutional law As in the U S Canadian courts have shown themselves highly protective of individual rights and they have not been shy about assuming a leading and sometimes controversial political role in striking down legislation In clear and easy to understand language the contributors not only chart but also explore the reasons for areas of similarity and difference in the constitutional politics of Canada and the United States **The Right To Parody** Amy Lai, 2019-01-03 In The Right to Parody Comparative Analysis of Free and Fair Speech Amy Lai examines the

right to parody as a natural right in free speech and copyright proposes a legal definition of parody that respects the interests of rights holders and accommodates the public's right to free expression and describes mechanisms to ensure that parody will best serve this purpose. Combining philosophical inquiry with robust legal analysis, the book draws upon examples from the United States, Canada, the United Kingdom, France, and Hong Kong. While it caters to scholars in intellectual property and constitutional law as well as free speech advocates, it is written in a non-specialist language designed to appeal to any reader interested in how the boom in online parodies and memes relates to free speech and copyright.

Interpreting Censorship in Canada Allan C. Hutchinson, Klaus Petersen, 1999. Socially organized activity cannot occur without censorship. Going beyond ideological arguments, this collection of essays explores the extent of censorship in Canada today, the forms censorship takes, and the interests it serves.

The Oxford Handbook of Canadian Literature Cynthia Conchita Sugars, 2016. The Oxford Handbook of Canadian Literature provides a broad-ranging introduction to some of the key critical fields, genres, and periods in Canadian literary studies. The essays in this volume, written by prominent theorists in the field, reflect the plurality of critical perspectives, regional and historical specializations, and theoretical positions that constitute the field of Canadian literary criticism across a range of genres and historical periods. The volume provides a dynamic introduction to current areas of critical interest, including:

1. attention to the links between the literary and the public sphere, encompassing such topics as neoliberalism, trauma, and memory; citizenship, material culture, literary prizes, disability studies, literature and history, digital cultures, globalization studies, and environmentalism or ecocriticism;
2. interest in Indigenous literatures and settler-Indigenous relations;
3. attention to multiple diasporic and postcolonial contexts within Canada;
4. interest in the institutionalization of Canadian literature as a discipline;
5. a turn towards book history and literary history, with a renewed interest in early Canadian literature;
6. a growing interest in articulating the affective character of the literary, including an interest in affect theory, mourning, melancholy, haunting, memory, and autobiography.

The book represents a diverse array of interests, from the revival of early Canadian writing to the continued interest in Indigenous, regional, and diasporic traditions to more recent discussions of globalization, market forces, and neoliberalism. It includes a distinct section dedicated to Indigenous literatures and traditions, as well as a section that reflects on the discipline of Canadian literature as a whole.

Dilemmas of Free Expression Emmett Macfarlane, 2021-11-01. Free expression is under threat. The Empire of Mind Michael Strangelove, 2005-12-15 Where many critics see the Internet as an instrument of corporate hegemony Michael Strangelove sees something else an alternative space inhabited by communities dedicated to anarchic freedom culture jamming alternative journalism and resistance to authoritarian forms of consumer capitalism and globalization In The Empire of Mind Dr Strangelove the scholar Canadian Business referred to as the acknowledged dean of Internet entrepreneurs and Wired called the Canadian guru of Internet advertising presents the compelling argument that the Internet and new digital communication technology actually undermine the power of capital producing an alternative symbolic economy Strangelove contends that the Internet breaks with the capitalist logic of commodification and that while television produces a passive consumer audience Internet audiences are more active creative and subversive Writers activists and artists on the Internet undermine commercial media and its management of consumer behaviour a behaviour that is challenged by the Web s tendency toward the disintegration of intellectual property rights Case studies describe the invention of new meaning given to cultural and consumer icons like Barbie and McDonald s and explore how novel modes of online news production alter the representation of the world as it is produced by the mainstream corporate press In the

course of exploring new media The Empire of Mind also makes apparent that digital piracy will not be eliminated The Internet community effectively converts private property into public thereby presenting serious obstacles for the management of consumer behaviour and significantly eroding brand value Much to the dismay of the corporate sector online communities are disinterested in the ethics of private property In fact the entire philosophical framework on which capitalism is based is threatened by these alternative means of cultural production

analyses the origins publishing lists and philosophies of the university presses The university presses are often associated with anti apartheid publishing and the promotion of academic freedom but this work reveals both greater complicity and complexity Elizabeth le Roux demonstrates that the university presses cannot be considered oppositional because they did not resist censorship and because they operated within the constraints of the higher education system but their publishing strategies became more liberal over time
