Revolutions in the Western World 1775-1825 Jeremy Black,2017-07-12 Considering what has been described as an Age of Revolutions Black assesses a formative period in world history by examining the North American European Haitian and Latin American Revolutions Causes courses and consequences are all clarified in the articles selected and an introduction charts the major themes

The Anatomy of Revolution Revisited Bailey Stone,2014 This study aims to update a classic of comparative revolutionary analysis Crane Brinton s 1938 study *The Anatomy of Revolution* It invokes the latest research and theoretical writing in history political science and political sociology to compare and contrast in their successive phases the English Revolution of 1640 60 the French Revolution of 1789 99 and the Russian Revolution of 1917 29 This book intends to do what no other comparative analysis of revolutionary change has yet adequately done It not only progresses beyond Marxian socioeconomic class analysis and early revisionist stresses on short term accidental factors involved in revolutionary causation and process it also finds ways to reconcile state centered structuralist accounts of the three major European revolutions with postmodernist explanations of those upheavals that play up the centrality of human agency revolutionary discourse mentalities ideology and political culture

Regenerative Politics Emma Planinc,2024-07-09 Critics of liberal democracy from both the left and right view rights not as protectors of freedom but as impediments to self determination and call for radically regenerative political alternatives Liberals respond to these challenges by reasserting that universal rights are self evident intentionally foreclosing the possibility of remaking the political order *Regenerative Politics* makes a bold intervention into this fraught landscape arguing that the survival of rights depends on abandoning their claims to self evidence Emma Planinc argues that liberal democracies must open themselves up to a regenerative politics that accepts all claims against political convention as self determinative including those that desire the rejection of rights or the overturning of liberal democracies themselves Bringing together scholarship on race democracy liberalism fascism and the far right with an intellectual history of the Enlightenment and the French Revolution and a novel account of human nature *Regenerative Politics* offers a new political theory for the revitalization of politics Planinc shows that liberal democracies can arm themselves against extreme challenges by remaining perpetually open to the reconstitution of rights restoring the capacity for human beings to determine themselves in the world

Revolutionary Justice in Paris, 1789-1790 Barry M. Shapiro,2002-10-03 This book examines how France s revolutionary authorities handled political opposition in the year following the fall of the Bastille Though demands for more severe treatment of the enemies of the new regime were frequently and loudly expressed and though portents and warning signs of the coming unwillingness to tolerate opposition were hardly lacking political justice in

1789-90 was in fact characterized by a remarkable degree of indulgence and forbearance. Through an investigation of the judicial affairs which attracted the most public attention in Paris during this period, this study seeks to identify the factors which produced a temporary victory for policies of mildness and restraint.

Communism and Nationalism Roman Szporluk, 1991. This study examines the relationship between the two dominant ideologies which emerged in the 19th century: Karl Marx's communism and Friedrich List's theory of nationalism. List was the first economist to be studied seriously by Marx. Three years before publication of the Communist Manifesto, Karl Marx began work on a critique of a movement that was gaining popularity as a challenge to capitalism: nationalism, as put forth by the German economist Friedrich List. Long regarded as a major cultural and political force in 19th-century Europe, nationalism was in fact to become directly involved in the conflict between capitalism and socialism, offering an appealing alternative to capitalism's New World Order: the doctrine of Free Trade and socialism's call for a worldwide unification of the workers against the bourgeoisie. In this original new work, Professor Szporluk offers a major reinterpretation of Marxism's historical development, one that recognises nationalism as the third contender on the battlefield where Marxism met capitalism. A bold new interpretation of Marx's intellectual biography shows how the history of Marx and Marxism is to a great extent the story of their confrontation with nationalism before 1848.

Alexis de Tocqueville and American Intellectuals Matthew J. Mancini, 2006. Comprehensive in its chronology, the work it discusses, and the commentators it critically examines, *Alexis de Tocqueville and American Intellectuals* tells the surprising story of Tocqueville's reception in American thought and culture from the time of his 1831 visit to the United States to the turn of the twenty-first century.

Cultural History and Postmodernity Mark Poster, 1997. In a series of incisive readings of signature historical works, Mark Poster charts the move from social history to new practices of cultural history that are drawing strength from poststructuralist interpretive strategies and raising issues found in feminist and postcolonialist discourse. In the process, he sets forth an outline for a postmodern historiography that can negotiate the contested terrain between the ambiguities of discourse and the pull of the real. As Poster provides close readings of leading historians and theorists such as Lawrence Stone, Francois Furet, Michel de Certeau, and Michel Foucault, key themes animate his work: the often irreducible difference between past and present; the relationship of writing and representation to power and domination; the dissolving distinctions between high and low culture, production and consumption, and reality and fiction; and most important, a new perspective on human agency and the construction of political subjects.

The Reluctant Modernism of Hannah Arendt Seyla Benhabib, 2003. Interpreting the work of one of the most influential thinkers of the 20th century, *The Reluctant Modernism of Hannah Arendt* rereads Arendt's political philosophy in light of newly gained insights into the historico-cultural background of her work. Arguing against the standard interpretation of Hannah Arendt as an anti-modernist lover of the Greek polis, author Seyla Benhabib contends that Arendt's thought emerges out of a double legacy: German Existenz philosophy, particularly the thought of Martin Heidegger, and her experiences as a German Jewess in

the age of totalitarianism This important volume reconsiders Arendt s theory of modernity her concept of the public sphere her distinction between the social and the political her theory of totalitarianism and her critique of the modern nation state including her life long involvement with Jewish and Israeli politics Experiences of War in Europe and the Americas, 1792-1815 Mark Lawrence,2021-07-20 This work seeks to offer a new way of viewing the French Wars of 1792 1815 Most studies of this period offer international political and military analyses using the French Revolution and Napoleon as the prime mover But this book focuses on military and civilian responses to French Revolutionary and Napoleonic wars throughout the rest of Europe and the Americas It shows how the unprecedented mobilization of this era forged a generation of soldiers and civilians sharing a common experience of suffering bequeathing the West with a new veteran sensibility Using a range of sources especially memoirs this book reveals the adventure and suffering confronting ordinary soldiers campaigning in Europe and the Americas and the burdens imposed on civilians enduring rising and falling empires across the West It also reveals how the wars liberated slaves serfs and common people through revolutions and insurgencies **1848** Peter H. Wilson,2017-05-15 Europe was swept by a wave of revolution in 1848 that had repercussions stretching well beyond the Continent Governments fell in quick succession or conceded significant reforms before being rolled back by conservative reaction Though widely perceived as a failure the revolution ended the vestiges of feudalism broadened civil society and strengthened the state prior to the rapid industrialisation and urbanisation of the latter part of the nineteenth century This volume brings together essays from leading specialists on the international dimension national experiences political mobilisation reaction and legacy
