Ndegwah, 2020-01-15 This book can be summarized in one sentence that culture plays a determinant role in the way people perceive interpret and therefore respond to reality around them ideas events people and literature including sacred literature Thus when people encounter new reality they perceive and conceptualize it in accordance with their worldview which is shaped by their culture that is modeled to suit various geographical locations In order to understand why people around the world behave and act as they do they choose certain words in what they say and do certain things rather than others it is important to understand and appreciate this fact Failure to do so would make it very difficult to engage in any dealings with them secular or religious like doing business or evangelization This is what happened to the Pokot people whose worldview is predominantly communitarian and yet they were introduced to hermeneutics that are predominantly individualistic which is at loggerheads with their communal aspirations The manifestation of this reality is the interpretation of the Good Shepherd parable in the Gospel of John which the Pokot have understood and contextualized in line with their worldview against the intentions goals and disposition of their evangelizers *Interpreting Contemporary Christianity* Ogbu Kalu, Elaine Low, 2008-08-05 In this multidisciplinary interpretation of world Christianity and the changing shape of the global religious landscape scholars consider the complex dynamics shaping Christianity's recent expansion in all parts of the globe They view the explanations of homogenization or American cultural influence as being necessarily limited and point to the far more varied intersections of external influence and indigenous appropriation The geographical coverage and the voices from various corners of the globe exemplify the shift of Christianity's center of gravity away from the northern hemisphere New voices new methods and new perspectives emerge here Contributors Afe Adogame Edith L Blumhofer Joel Carpenter Paul Freston Anthony dela Fuente Jehu J Hanciles Brian M Howell Ogbu U Kalu Sebastian C H Kim Philomena Njeri Mwaura John Parratt Dana L Robert Brian Stanley Diane Stinton Feiya Tao Kevin Xiyi Yao **A Guide to Interpreting Scripture** Michael Kyomya, 2024-03-28 Quoting verses without regard to context can have serious consequences In *A Guide to Interpreting Scripture* Dr Michael Kyomya illustrates what scriptural interpretation is why it is important how to do it and the pitfalls to avoid Full of ways to enrich your personal study of the Bible this guide will equip you with the knowledge and instruction you need Interpreters at the United Nations. The New Faces of Christianity Philip Jenkins, 2006-09-01

Named one of the top religion books of 2002 by USA Today Philip Jenkins's phenomenally successful *The Next Christendom* permanently changed the way people think about the future of Christianity In that volume Jenkins called the world's attention to the little noticed fact that Christianity's center of gravity was moving inexorably southward to the point that Africa may soon be home to the world's largest Christian populations Now in this brilliant sequel Jenkins takes a much closer look at Christianity in the global South revealing what it is like and what it means for the future The faith of the South Jenkins finds is first and foremost a biblical faith Indeed in the global South many Christians identify powerfully with the world portrayed in the New Testament an agricultural world very much like their own marked by famine and plague poverty and exile until very recently a society of peasants farmers and small craftsmen In the global South as in the biblical world belief in spirits and witchcraft are commonplace and in many places such as Nigeria Indonesia and Sudan Christians are persecuted just as early Christians were Thus the Bible speaks to the global South with a vividness and authenticity simply unavailable to most believers in the industrialized North More important Jenkins shows that throughout the global South believers are reading the Bible with fresh eyes and coming away with new and sometimes startling interpretations Some of their conclusions are distinctly fundamentalist but Jenkins finds an intriguing paradox for they are also finding ideas in the Bible that are socially liberating especially with respect to women's rights Across Africa Asia and Latin America such Christians are social activists in the forefront of a wide range of liberation movements It's hard to overstate how interesting how eye opening how frequently surprising and sometimes disturbing Jenkins findings are Anyone interested in the implications of these trends for the major denominations for Muslim Christian conflict and for global politics will find *The New Faces of Christianity* provocative and incisive and indispensable

*New Orientations in Interpreting Studies and Interpreter Education* Binhua Wang, 2025-09-11 This book proposes a multidimensional model that revisits the epistemology of interpreting studies and the distinctive features of interpreting and outlines three new research orientations The first considers interpreting as immediate bilingual information processing the second considers interpreting as meaning mediation in cross lingual interpersonal communication and cross sociocultural interaction and the third looks at language pair specificity in interpreting The main research topics concepts and methods are covered and case studies and examples are provided The author also proposes a multicomposite framework of interpreter competence as the conceptual foundation of interpreter education in the AI era for which three major shifts are identified as necessary particularly the transition from interpreting skill training to interpreter competence development The research orientations discussed in this book are important as they shed new light on the nature and mechanism of interpreting open up new venues for interpreting studies and provide meaningful responses to new issues emerging from changes in the interpreting profession with the development of AI technologies This is essential reading for all engaged in teaching researching and studying interpreting and interpreting studies

**Local case studies in African land law** Robert Home,2011      *Religion and Social Reconstruction in Africa* Elias Kifon

Bongmba,2018-06-13 Religion has played a major role in both the division and unification of peoples and countries within Africa Its capacity to cause and to heal societal rifts has been well documented This book addresses this powerful societal force and explores the implications of a theology of reconstruction most notably articulated by Jesse Mugambi This way of thinking seeks to build on liberation theology aiming to encourage the rebuilding of African society on its own terms An international panel of contributors bring an interdisciplinary perspective to the issues around reconstructing the religious elements of African society Looking at issues of reconciliation postcolonialism and indigenous spirituality among others they show that Mugambi s cultural and theological insight has the potential to revolutionise the way people in Africa address this issue This is a fascinating exploration of the religious facets of African life As such it will be of great interest to scholars of religious studies theology and African studies      *Decolonization of Biblical Interpretation in Africa* S. O. Abogunrin,2005

*Handbook of the Language Industry* Gary Massey, Maureen Ehrensberger-Dow, Erik Angelone,2024-07-01 Digital transformation and demographic change are profoundly affecting the contexts in which the language industry operates the resources it deploys and the roles and skillsets of those it employs Driven by evolving digital resources and socio ethical demands the roles and responsibilities deriving from the proliferation of new and emerging profiles in the language industry are transcending the traditional bounds of core activities and competences associated with prototypical concepts of translation and interpreting This volume focuses on the realities in the language industry from the fresh perspective of current and emerging professional profiles and of the contexts and resources that condition and support them It traces the industry s evolution maps its current state and considers key aspects of its workplaces actors and practices In an age when artificial intelligence is challenging traditionally held views of human performance it addresses the issue of where and how human agents add value to the industry s processes and products with a detailed research based consideration of the activities competences roles responsibilities and tools that characterize the language industry of today and the near future
