Telling Silence Charles E. Scott, 2023-11-01 In *Telling Silence* Charles E. Scott speaks of silence often indirectly in such ways as to create occasions in which people might become more aware of silence in their experiences of themselves and the world around them The core question of the book is how can people be aware of silence without turning it into a thing and losing it Lack of awareness of silence is lack of awareness of a major dimension of lives both human and nonhuman Attunements with silence enable attunements with being alive in the fragility that invests even the strengths of living beings *Telling Silence* performs this attunement in descriptive accounts and instances of non reflective awareness awareness that does not deliberate or ponder In twenty three fragments poems stories and ways of thinking and speaking are brought together to intensify intimations of silence telling of itself

Interpretation of International Investment Treaties Tarcisio Gazzini, 2016-11-03

This book offers a systematic study of the interpretation of investment related treaties primarily bilateral investment treaties the Energy Charter Treaty Chapter XI NAFTA as well as relevant parts of Free Trade Agreements The importance of interpretation in international law cannot be overstated and indeed most treaty claims adjudicated before investment arbitral tribunals have raised and continue to raise crucial and often complex issues of interpretation The interpretation of investment treaties is governed by the Vienna Convention on the Law of Treaties VCLT The disputes relating to these treaties however are rather peculiar as they place multinational companies or natural person in opposition to sovereign governments Fundamental questions dealt with in the study include Are investment treaties a special category of treaty for the purpose of interpretation How have the rules on interpretation contained in the VCLT been applied in investment disputes What are the main problems encountered in investment related disputes To what extent are the VCLT rules suited to the interpretation of investment treaties Have tribunals developed new techniques concerning treaty interpretation Are these techniques consistent with the VCLT How can problems relating to interpretation be solved or minimised How creative have arbitral tribunals been in interpreting investment treaties Are States capable of keeping effective control over interpretation

Treaty Interpretation, 2008-06-19

This book explains the rules for interpretation of treaties and gives examples of their application in national and international jurisdictions The rules of treaty interpretation codified in the Vienna Convention on the Law of Treaties now apply to virtually all treaties which may be encountered in an international context and also within national legal systems where treaties have an impact on a large and growing range of matters The rules of treaty interpretation differ somewhat from typical rules for interpreting legal instruments and legislation within national legal systems Lawyers and also some administrators diplomats and officials at international organisations are increasingly likely to encounter issues of treaty interpretation which require not only knowledge of the relevant rules of interpretation but also how these rules have been and are to be applied in practice Now that the codified rules of treaty interpretation have been in force for some twenty five years there is a considerable body of case law on their application This case law combined with the history and analysis of the rules of treaty interpretation provides a basis for understanding this most important task in the application of treaties internationally and within national systems of law Any lawyer who ever has to consider international matters and increasingly any lawyer whose work involves domestic legislation with any international connection is at risk nowadays of encountering a treaty provision which requires interpretation whether the treaty provision is explicitly in issue or is the source of the relevant domestic legislation This book provides a

guide to interpreting treaties properly in accordance with the modern rules Orthodoxies and Heterodoxies in Early Modern German Culture Randolph Conrad Head, Daniel Eric Christensen, 2007 Interdisciplinary essays on early modern Germany that address orthodoxy and its challenges in religion politics and the arts Confronting the transformation of normative canons after the Reformation the essays investigate authority and knowledge in an era of shifting cultural foundations

International Investment Law and the Right to Regulate Lone Wandahl Mouyal, 2016-03-10 The book considers the ways in which the international

investment law regime intersects with the human rights regime and the potential for clashes between the two legal orders. Within the human rights regime states may be obligated to regulate including a duty to adopt regulation aiming at improving social standards and conditions of living for their population. Yet states are increasingly confronted with the consequences of such regulation in investment disputes where investors seek to challenge regulatory interferences for example in expropriation claims. Regulatory measures may for instance interfere with the investment by imposing conditions on investors or negatively affecting the value of the investment. As a consequence investors increasingly seek to challenge regulatory measures in international investment arbitration on the basis of a bilateral investment treaty. This book sets out the nature and the scope of the right to regulate in current international investment law. The book examines bilateral investment treaties and ICSID arbitrations looking at the indicative parameters that are granted weight in practice in expropriation claims delimiting compensable from non compensable regulation. The book places the potential clash between the right to regulate and international investment law within a theoretical framework which describes the stability flexibility dilemma currently inherent within international law. Lone Wandahl Mouyal goes on to set out methods which could be employed by both BIT negotiators and adjudicators of investment disputes allowing states to exercise their right to regulate while at the same time providing investors with legal certainty. The book serves as a valuable tool an added perspective for academics as well as for practitioners dealing with aspects of international investment law.

Visions and Revisions Bryoni Trezise, Caroline Wake, 2014-02-28. In 1983 US president Ronald Reagan told the Israeli Prime Minister that he as a photographer during World War II had documented the atrocities of the concentration camps on film. The story was later exposed as a fraud as it was revealed that Reagan had resided in Hollywood during the entire war. Does this mean that Reagan was simply an amoral liar or that he established a connection to the Holocaust that can be said to have evolved from the intersection between real and reel? *Visions and Revisions: Performance Memory Trauma* brings the fields of performance studies and trauma studies together in conversation in order to investigate how these two fields both envision and revision one another in relation to crucial themes such as trauma, testimony, witness and spectatorship. According to Peggy Phelan, a leading performance studies scholar, performance provides a unique model for witnessing events that are both unbearably real and beyond reason, its ability to grasp traumatic events like the Holocaust. While Reagan's claim is obviously both paradoxical and problematic, it opens up a space in which the potential insights that performance studies and trauma studies might bring to one another become particularly visible. The first half of the anthology focuses on issues of spectatorship, specifically its ethics and the possibility of witnessing. The second half widens the discussion to include memory, more broadly shifting the emphasis from sight to site and particularly to site specific works and the embodied encounters they model, enable and enact. The contributors here fill a critical gap, raising questions about how popular and mediatized performances that memorialize trauma might be viewed through performance theory. They also look at how performance studies might shift its focus from

the visual to the sensorial and material and in doing so they offer a fresh perspective on both performance and trauma studies Writing from different disciplinary vantages and drawing on multiple case studies from South Africa the former Soviet Union Lebanon and Thailand among others the contributors decolonize trauma studies and make us question how and where our own eyes and bodies are positioned as we revision the scenes before us Contributors Laurie Beth Clark Helena Grehan Geraldine Harris Chris Hudson Petra Kupperts Adrian Lahoud Sam Spurr Christine Stoddard Bryoni Trezise Maria Tumarkin Caroline Wake Editors Bryoni Trezise is a lecturer in theatre and performance studies at the University of New South Wales where Caroline Wake is a Post doctoral Fellow in the Centre for Modernism Studies in Australia

Towards an Atlas of the History of Interpreting Lucía Ruiz Rosendo, Jesús Baigorri-Jalón, 2023-02-22 The aspiration of an Atlas is to cover the whole world by compiling cartographical material representing territories from across the five continents This book intends to contribute to that ideally comprehensive yet always unfinished Atlas with pieces gathered from all of the Earth's regions However its focus is not so much of a geographical nature although maps and geographical reflections are not absent in its pages but of a historical analytical one As such the Atlas engages in the historical analysis of interpreters of both language and cultures in multiple interpreting settings and places including in zones which are less frequently studied in specialized literature in different historical periods and at various scales All the interpreters described in the book share the ability to speak two or more languages and to use them as vehicles otherwise their individual socio professional statuses vary so much that there is no similarity between a Venetian dragoman in Istanbul and a prisoner of war or between a locally recruited interpreter and a missionary Each contributor has approached the specific spatial and temporal dimensions of their subject as perceived through their different methodological lenses This multifaceted perspective which is expected to provide fertile soil for future interdisciplinary research has been possible thanks to a balanced combination of scholars from History and from Translation and Interpreting Studies

Trans Historical Greta LaFleur, Masha Raskolnikov, Anna Klosowska, 2021-11-15 Trans Historical explores the plurality of gender experiences that flourished before the modern era from Late Antiquity to the eighteenth century across a broad geographic range from Spain to Poland and Byzantium to Boston Refuting arguments that transgender people experiences and identities were non-existent or even impossible prior to the twentieth century this volume focuses on archives literary texts trial transcripts documents and artifacts that denaturalize gender as a category The volume historicizes the many different social lives of sexual differentiation exploring what gender might have been before modern medicine the anatomical sciences and the sedimentation of gender difference into its putatively binary form The volume's multidisciplinary group of contributors consider how individuals communities and states understood and enacted gender as a social experience distinct from the assignment of sex at birth Alongside historical questions about the meaning of sexual differentiation Trans Historical also offers a series of diverse meditations on how scholars of the medieval and early modern periods might approach gender nonconformity before the nineteenth century

Brill's Companion to Sophocles Andreas Markantonatos, 2015-03-20 Brill's Companion to Sophocles offers 32 specially commissioned essays from leading international scholars which give critical examinations of the progress and direction of numerous wide ranging debates about various aspects of Sophoclean drama Each chapter offers an authoritative and state of the art survey of current thinking and research in a particular subject area as well as covering a wide variety of thematic angles Recent advances in scholarship have raised new questions about Sophocles and Greek tragedy and have overturned some long standing assumptions Besides presenting a comprehensive and authoritative guide to understanding Sophocles this companion provides scholars and students with compelling fresh perspectives upon a broad range of issues in the field of Sophoclean studies

Shakespeare and Feminist Theory Marianne Novy, 2017-09-21 Are Shakespeare's plays dramatizations of patriarchy or representations of assertive and eloquent women Or are they sometimes both And is it relevant and if so how that his women were first played by boys This book shows how many kinds of feminist theory help analyze the dynamics of Shakespeare's plays Both feminist theory and the plays deal with issues such as likeness and difference between the sexes the complexity of relationships between women the liberating possibilities of desire what marriage means and how much women can remake it how women can use and expand their culture's ideas of motherhood and of women's work and how women can have power through language This lively exploration of these and related issues is an ideal introduction to the field of feminist readings of Shakespeare

Concealed Silences and Inaudible Voices in Political Thinking Michael Freeden, 2022 This book investigates silence as a normal ubiquitous and indispensable element of political thinking theory and language It explores the diverse dimensions in which silences mould the different core features of the political as a highly flexible power resource both enabling and constraining major social practices traditions and currents

Ideology, Ethics and Policy Development in Public Service Interpreting and Translation Carmen Valero-Garcés, Rebecca Tipton, 2017-03-08 This edited collection brings together new research on public service interpreting and translation PSIT with a focus on ideology ethics and policy development The contributions provide fresh theoretical and empirical perspectives on the inconsistencies in translation and interpreting provision observed in different geographical contexts and the often reported tensions between prescribed approaches to ethics and practitioner experience The discussions are set against the backdrop of developments in rights based discourses on language support services and the professionalisation of the field drawing attention to how stakeholders and interpreting practitioners navigate the realities of

service in the context of shifting ideological landscapes Particular innovations in the collection include theorisations about policy and practice that draw on political science applied ethics and paradigms of trauma informed care The volume also presents research on settings that have received limited attention to date such as prison and charitable services for survivors of violence and trauma **'The Bird Who Sang the Trisagion' of Isaac of Antioch** Robert A. Kitchen, Glenn

Peers, 2024-07-15 This book provides close historical theological and cultural analyses of an important but neglected Late Antique writer Isaac of Antioch who was active during the second half of the fifth century This book is the first English language monograph on this key figure and also includes the first translation without the Syriac of this compelling metrical homily into English which has at its heart the public pronouncement by a parrot of theological truths The authors situate this remarkable text in the wider fields of performance studies animal studies and media studies all areas that can illuminate essential meanings and implications of the homily Treaty Interpretation by the WTO Appellate Body Isabelle Van Damme, 2009 This book analyzes how the Appellate Body uses particular principles of general international law in interpreting the WTO covered agreements It deals equally with general international law and WTO law The aim is to explain how the Appellate Body interprets and applies customary international law on treaty interpretation in dealing with the WTO covered agreements The main concern is to analyze the judicial reasoning and ways of justifying judicial decision making In particular it answers the question of how the Appellate Body explains its reading of WTO treaty language It is argued that the Appellate Body has interpreted the WTO covered agreements in a contextual and effective manner an approach that corresponds with general international law The character of the WTO covered agreements has nevertheless confronted the Appellate Body with some questions of interpretation that were until recently unexplored or neglected by other courts and tribunals In that sense the Appellate Body has contributed to the development of general international law on treaty interpretation or at least to its practice WTO law is primarily treaty law but increasingly soft law and broader themes and values from other disciplines such as governance variable geometry and legitimacy are introduced and discussed Customary international law with the exception of the principles of treaty interpretation and general principles of law are often seen as excluded entirely An ancillary theme of this proposed monograph is the extent to which customary international law and general principles of law have penetrated WTO law through the technique of treaty interpretation
