Travel and Imagination Garth Lean, Russell Staiff, 2016-02-24 The imagination has long been associated with travel and tourism from the seventeenth century when the showman and his peepshow box would take the village crowd to places cities and lands through the power of stories to today when we rely on a different range of boxes to whisk us away on our imaginative travels the television the cinema and the computer Even simply the notion of travel it would seem gives us license to daydream The imagination thus becomes a key concept that blurs the boundaries between our everyday lives and the idea of travel Yet despite what appears to be a close and comfortable link there is an absence of scholarly material looking at travel and the imagination Bringing together geographers sociologists cultural researchers philosophers anthropologists visual researchers archaeologists heritage researchers literary scholars and creative writers this edited collection explores the socio cultural phenomenon of imagination and travel The volume reflects upon imagination in the context of many forms of physical and non physical travel inviting scholars to explore this fascinating yet complex area of inquiry in all of its wonderful colour slipperiness mystery and intrigue The book intends to provide a catalyst for thinking discussion research and writing with the vision of generating a canon of scholarship on travel and the imagination that is currently absent from the literature

Suffering Time: Philosophical, Kabbalistic, and Hasidic Reflections on Temporality Elliot R. Wolfson, 2021-05-25 No one theory of time is pursued in these essays but a major theme that threads them together is Wolfson's signature idea of the timeswerve as a linear circularity or a circular linearity expressions that are meant to avoid the conventional split between the two temporal modalities of the line and the circle The conception of time elicited by Wolfson from a host of philosophical and mystical sources both Jewish and non Jewish buttresses the contention that it is precisely structural invariability that engenders interpretive variation This hermeneutical axiom is justified in turn by the presumption regarding the cadence of time as the constant return of what has always been what is yet to be The telling of time wells forth from the time of telling One cannot speak of the being of time consequently except from the standpoint of the time of being nor of the time of being except from the standpoint of the being of time

Reading at the Limits of Poetic Form Jacob McGuinn, 2024-05-15 Pushing the boundaries of critical reading and the role of objects in literature How does literary objecthood contend with the challenge of writing objects that emerge at an extreme limit of material presence Jacob McGuinn delves into the ways literature writes this indeterminate presence in the context of pre and post 68 Paris a vital moment in the history of criticism The works of poet Paul Celan philosopher Theodor Adorno and writer Maurice Blanchot highlight how the complexities of reading such a dematerialized object are part of the indeterminacy of material itself Indeterminate objects glass snow walls screens are subjects Celan describes as existing in meridian space while for Adorno and Blanchot criticism not only responds to this indeterminacy but also takes it as its condition Reading at the Limits of Poetic Form Dematerialization in Adorno Blanchot and Celan shows how these readings simultaneously limit the object of criticism and outline alternative ways of thinking that lie between the models of critical formalism and historicism ultimately revealing the possible materiality of literature in unrealized history incomplete politics and nondetermining thinking

Jewish Philosophy and Western Culture Victor J. Seidler, 2007-11-28 This is one of the first textbooks to try to set the entire discipline of Jewish philosophy in its proper cultural and historical contexts In so doing it introduces the vibrant Jewish philosophical tradition to students while also making a significant contribution to inter religious dialogue Victor J Seidler argues that the dominant Platonic tradition in the West has led to a form of cultural ethics which asserts false superiority in its relationships with others He offers a critical reappraisal of the philosophical underpinnings of this western Christian culture which for so long has viewed Judaism with

hostility Examining the work of seminal Jewish thinkers such as Philo Buber Mendelsohn Herman Cohen Leo Baeck Levinas Rosenzweig and others the author argues for a code of ethics which prioritises particular and personal moral responsibility rather than the impersonal and universal emphases of the Greek tradition His provocative and original overview of Jewish philosophy uncovers a vital and neglected tradition of thought which works against the likelihood of a Holocaust recurring

Critiques of Theology Yotam Hotam,2023-09-01 Argues that the modern practice of critique emerged out of religious traditions and can in many ways be traced back to them It seems hard to imagine a concept more significant to modern thought than critique Critique involved distancing oneself from religious explanations and theological argumentation and came to represent the essence of secular consciousness s potential to deliver modernity s promise of human progress through rational inquiry and scientific development Critiques of Theology debunks this common understanding Based on a novel reading of previously less discussed writings by Sigmund Freud Walter Benjamin Theodor Adorno and Hannah Arendt the book shows how the practice of critique emerged out of religious traditions and can in many ways be traced back to them This study points to a persistent misreading of critique and demonstrates that it does not come from outside of religion to build a new world of ideas on the contrary it redeploys those already present within its theological constellations Trauma and Literature J. Roger Kurtz,2018-03-15 As a concept trauma has attracted a great deal of interest in literary studies A key term in psychoanalytic approaches to literary study trauma theory represents a critical approach that enables new modes of reading and of listening It is a leading concept of our time applicable to individuals cultures and nations This book traces how trauma theory has come to constitute a discrete but influential approach within literary criticism in recent decades It offers an overview of the genesis and growth of literary trauma theory recording the evolution of the concept of trauma in relation to literary studies In twenty one essays covering the origins development and applications of trauma in literary studies Trauma and Literature addresses the relevance and impact this concept has in the field
