Intersecting Pathways Modern Jewish Theologians In Conversation With Christianity:

Intersecting Pathways Marc Aaron Krell, 2003 Marc A Krell analyzes the theologies of four twentieth century Jewish thinkers Hans Joachim Schoeps Franz Rosenzweig Richard Rubenstein and Irving Greenberg who have constructed theologies based on their interaction with Christian thought and culture Their work reflects a common attempt to understand the impact of Christian culture on the historical events prior to and following the Holocaust and to reevaluate the relationship between the two religions in light of a history of theological anti Judaism and modern racial antisemitism

Healing the Schism Jennifer M. Rosner, 2021-07-28 The past and future of Jewish Christian dialogue The history of the relationship between Judaism and Christianity is storied and tragic However recent decades show promise as both parties reflect on their self definitions and mutual contingency and consider possible ways forward In *Healing the Schism* Jennifer M Rosner maps the new Jewish Christian encounter from its origins in the early twentieth century pioneers to its current representatives Rosner first traces the thought of Karl Barth and Frank Rosenzweig and brings them into conversation Rosner then outlines the reassessments and developments of post Holocaust theological architects that moved the dialogue forward and set the stage for today She considers the recent work of Messianic Jewish theologian Mark S Kinzer and concludes by envisioning future possibilities With clarity and rigor Rosner offers a robust perspective of Judaism and Christianity that is post supersessionist and theologically orthodox *Healing the Schism* is essential reading for understanding the perils and promise of Messianic Jewish identity and Jewish Christian theological conversation

Theology of Migration in the Abrahamic Religions E. Padilla, P. Phan, 2014-10-02 This book provides an indispensable voice in the scholarly conversation on migration It shows how migration has shaped and has been shaped by the three Abrahamic religions Judaism Christianity and Islam No theory of migration will be complete unless the theological insights of these religions are seriously taken into account

The Readers Guide to Judaism and Jewish Studies Sarah Imhoff, 2013

Jewish Scholarship on the Resurrection of Jesus David Mishkin, 2017-09-07 The Jewish study of Jesus has made enormous strides within the last two hundred years Virtually every aspect of the life of Jesus and related themes have been analyzed and discussed Jesus has been reclaimed as a fellow Jew by many although what this actually means remains a matter for discussion Ironically the one event in the life of Jesus that has received significantly less attention is the one that the New Testament proclaims as the most important of all his resurrection from the dead This book is the first attempt to document Jewish views of the resurrection of Jesus in history and modern scholarship

Soloveitchik's Children Daniel Ross Goodman, 2023-07-18 A close study of three of Soloveitchik's most influential disciples in Jewish thought and philosophy

The Apostle Paul in the Jewish Imagination Daniel R. Langton, 2010-03-22 *The Apostle Paul in the Jewish Imagination* is a pioneering multidisciplinary examination of Jewish perspectives on Paul of Tarsus Here the views of individual Jewish theologians religious leaders and biblical scholars of the last 150 years together with artistic literary philosophical and psychoanalytical

approaches are set alongside popular cultural attitudes Few Jews historically speaking have engaged with the first century Apostle to the Gentiles The modern period has witnessed a burgeoning interest in this topic however with treatments reflecting profound concerns about the nature of Jewish authenticity and the developing intercourse between Jews and Christians In exploring these issues Jewish commentators have presented Paul in a number of apparently contradictory ways The Apostle Paul in the Jewish Imagination represents an important contribution to Jewish cultural studies and to the study of Jewish Christian relations

Hasidism Incarnate Shaul Magid,2014-12-10 Hasidism Incarnate contends that much of modern Judaism in the West developed in reaction to Christianity and in defense of Judaism as a unique tradition Ironically enough this occurred even as modern Judaism increasingly dovetailed with Christianity with regard to its ethos aesthetics and attitude toward ritual and faith Shaul Magid argues that the Hasidic movement in Eastern Europe constitutes an alternative modernity one that opens a new window on Jewish theological history Unlike Judaism in German lands Hasidism did not develop under a Christian gaze and had no need to be apologetic of its positions Unburdened by an apologetic agenda at least toward Christianity it offered a particular reading of medieval Jewish Kabbalah filtered through a focus on the charismatic leader that resulted in a religious worldview that has much in common with Christianity It is not that Hasidic masters knew about Christianity rather the basic tenets of Christianity remained present albeit often in veiled form in much kabbalistic teaching that Hasidism took up in its portrayal of the charismatic figure of the zaddik whom it often described in supernatural terms

Covenant and World Religions Alon Goshen-Gottstein,2023-06-06 Finalist for The Rabbi Sacks Book Prize 2023 A new paradigm for relations between religions one of acceptance and collaboration requires not only a willingness to move beyond a tradition of hostility and competition but also significant theological rethinking Within Jewish Orthodoxy there have been very few voices that have advanced and justified a vision of other faiths in this light to this day the reigning paradigm is one of practical collaboration while avoiding theologically based engagement or reflection Two of the most important Orthodox Jewish voices advocating change have been those of Irving Yitz Greenberg and Jonathan Sacks This book presents the theological moral and social views of these two leading rabbis It focuses on the significance of covenant for both and how they adapt this concept to enable the development of a Jewish view of other religions In considering how they may have influenced each other it also studies the limitations and internal contradictions that characterize their work as they attempt to point the way forward in a spirit of dialogue to continuing theological reflection on Judaism s approach to world religions

Modern Judaism and Historical Consciousness Andreas Gotzmann,Christian Wiese,2007 Written by leading authors in their respective fields this first comprehensive handbook on the relationship between modern Judaism and historical thinking contributes to a differentiated interpretation of Jewish historiography and its interaction with other academic disciplines since the Enlightenment

The Philosophy of Emil Fackenheim Kenneth Hart Green,2020-10-08 Traces Fackenheim s early concern with revelation and how it shifted to his later focus on the

Holocaust post 1967 **Hindu Christian Faqir** Timothy Dobe, 2015 Hindu Christian Faqir compares two colonial Indian holy men the Hindu Rama Tirtha and the Christian Sundar Singh Challenging ideas about modern Hinduism indigenous Christianity and sainthood the study focuses on the vernacular ascetic idioms that both men creatively drew upon to appeal to transnational audiences and pursue religious perfection Yitz Greenberg and Modern Orthodoxy Adam Ferziger, Miri Freud-Kandel, Steven Bayme, 2019-09-24 Sixteen scholars from around the globe gathered at the Oxford Centre for Hebrew and Jewish Studies in the bucolic Yarnton Manor in the Oxfordshire countryside in June 2014 for the first now annual Oxford Summer Institute on Modern and Contemporary Judaism The current volume is the fruit of this encounter The goal of the event was to facilitate in depth engagement with the thought of Rabbi Dr Irving Yitz Greenberg concentrating particularly on the historical ramifications of his theological and public stances Consideration was given to his lifelong and complex encounter with the Modern Orthodox stream of American Judaism and the extent to which his teachings functioned as the road not taken This auspicious gathering was most certainly characterized by deep appreciation for Greenberg s original outlook which is predicated on his profound dedication to God Torah the Jewish people and humanity But this was by no means gratuitous homage or naive esteem On the contrary those in attendance understood that the most genuine form of admiration for a thinker and leader of his stature especially one who continues to produce path breaking writings and speak out publicly is to examine rigorously and critically his ideas and legacy We are confident that the creative process that was nurtured has resulted in a substantive contribution to research on the religious historical and social trajectories of contemporary Judaism and similarly will engender fresh thinking on crucial theological and ideological postures that will ultimately enrich Jewish life This volume offers readers a critical engagement with the trenchant and candid efforts of one of the most thoughtful and earnest voices to emerge from within American Orthodoxy to address the theological and moral concerns that characterize our times *The Contemplative Foundations of Classical Daoism* Harold D. Roth, 2021-05-01 In *The Contemplative Foundations of Classical Daoism* Harold D Roth explores the origins and nature of the Daoist tradition arguing that its creators and innovators were not abstract philosophers but rather mystics engaged in self exploration and self cultivation which in turn provided the insights embodied in such famed works as the Daodejing and Zhuangzi In this compilation of essays and chapters representing nearly thirty years of scholarship Roth examines the historical and intellectual origins of Daoism and demonstrates how this distinctive philosophy emerged directly from practices that were essentially contemplative in nature In the first part of the book Roth applies text critical methods to derive the hidden contemplative dimensions of classical Daoism In the second part he applies a contemplative hermeneutic to explore the relationship between contemplative practices and classical Daoist philosophy and in so doing brings early Daoist writings into conversation with contemporary contemplative studies To this he adds an introduction in which he reflects on the arc and influence on the field of early Chinese thought of this rich vein of scholarship and an afterword in which he applies both

interpretive methods to the vexing question of the authorship of the Inner Chapters of the Zhuangzi The Contemplative Foundations of Classical Daoism brings to fruition the cumulative investigations and observations of a leading figure in the emerging field of contemplative studies as they pertain to a core component of early Chinese thought Strange and Gaudy Fruit Jeff Nicoll, 2023-05-09 The history of Christianity includes many doctrines adopted and actions taken to meet immediate problems but which had unintended consequences they are bad fruit Matt 7 15 20 The oldest is antisemitism which arose from the competition of the early church with early Judaism It was built into the New Testament and was developed by the church fathers Having learned to dehumanize it was easy to apply the same techniques to other groups the church became complicit with enslavement misogyny and other forms of oppression One response to the bad fruit is to reject religion in the manner of Christopher Hitchens However the dogmas are part of our culture even if in secular form If the roots of marginalization are not understood they cannot be eliminated This work uses a range of critics and defenders of traditional Western Christianity to identify poisonous fruits and detoxify them The critical voices do not create a consensus Nevertheless a core can be perceived what Erasmus called the few truths Grounded in the religious tradition they can be shared with secular people as a basis for an ethical merciful and respectful society Although the history of Christianity is bloody there are ways to go forward *Ecologies of Resonance in Christian Musicking* Mark Porter, 2020-09-04 *Ecologies of Resonance in Christian Musicking* Rexplores a diverse range of Christian musical activity through the conceptual lens of resonance a concept rooted in the physical vibrational and sonic realm that carries with it an expansive ability to simultaneously describe personal social and spiritual realities In this book Mark Porter proposes that attention to patterns of back and forth interaction that exist in and alongside sonic activity can help to understand the dynamics of religious musicking in new ways and at the same time can provide a means for bringing diverse traditions into conversation The book focuses on different questions arising out of human experience in the moment of worship What happens if we take the entry point of a human being experiencing certain patterns of more than sonic interaction with the world around them as a focus for exploration What different ecologies of interaction can be encountered What kinds of patterns can be traced through different Christian worshipping environments And how do these operate across multiple dimensions of experience Chapters covering ascetic sounding noisy congregations and Internet live streaming among others serve to highlight the diverse ecologies of resonance that surround Christian musicking suggesting the potential to develop new perspectives on devotional musical activity that focus not primarily on compositions or theological ideals but on changing patterns of interaction across multiple dimensions between individuals spaces communities and God **Jewish Liturgical Reasoning** Steven Kepnes, 2007-11 *Jewish Liturgical Reasoning* is an articulation of the philosophical ethical and theological reasoning of synagogue liturgies The book uses insights from modern Jewish philosophy together with contemporary hermeneutics semiotics and postliberal theology to develop new terms of discourse and a new sensibility for Jewish philosophy in the twenty first century **Challenging**

Colonial Discourse Christian Wiese, 2005-01-01 On the basis of postcolonial theory this study shows how Jewish scholars in the controversies about the essence of Judaism and Christianity at the beginning of the 20th century challenged the intellectual hegemony of Liberal Protestantism in Germany By carefully examining the impact of the political circumstances the loss of relevance of political liberalism the spreading of antisemitism and the crisis of Jewish identity in an age of contested emancipation and assimilation on the theological discourse it provides a critical analysis of anti Jewish implications of Protestant theology in the 19th and 20th centuries and discusses the function of Jewish polemics against Protestant distortions of Jewish history religion and culture Furthermore it develops important guidelines for a contemporary interdisciplinary relationship between Jewish Studies and Christian theology *Judaism and the Visual Image* Melissa Raphael, 2009-02-19 The widespread assumption that Jewish religious tradition is mediated through words not pictures has left Jewish art with no significant role to play in Jewish theology and ethics Judaism and the Visual Image argues for a Jewish theology of image that among other things helps us re read the creation story in Genesis 1 and to question why images of Jewish women as religious subjects appear to be doubly suppressed by the Second Commandment when images of observant male Jews have become legitimate even iconic representations of Jewish holiness Raphael further suggests that devout beholding of images of the Holocaust is a corrective to post Holocaust theologies of divine absence from suffering that are infused by a sub theological aesthetic of the sublime Raphael concludes by proposing that the relationship between God and Israel composes itself into a unitary dance or moving image by which each generation participates in a processive revelation that is itself the ultimate work of Jewish art *Schleiermacher on Religion and the Natural Order* Andrew Dole, 2010 Friedrich Schleiermacher 1768 1834 is best known as the father of liberal Protestant theology largely on the strength of his massive work of systematic theology *The Christian Faith* In this book Andrew Dole presents a new account of Schleiermacher's theory of religion Dole argues that Schleiermacher integrates the individualistic side of religion with a set of claims about its social dynamics and that this takes place within a broader understanding of all events in the world as the product of a universal law governed causal nexus
