Intervention At Abadan:

Intervention at Abadan James Cable, 1991-06-18 In 1951 Britain's major overseas asset was Iranian oil discovered produced and exported by a British company This book relates how Britain planned to use force in order to retain control of the world's largest oil refinery at Abadan

Challenging Retrenchment Tore T. Petersen, 2010 This collection of essays examines the British and American experience in the Middle East from 1950 to 1980 The book compares British and American foreign policy in the Far East and the Persian Gulf explaining that the Anglo American relationship was far from harmonious Both powers tried to manipulate the other to its own advantage While Washington was clearly the stronger power London was never reduced to subservience The book looks at the often neglected role of Egypt's King Farouk arguing that Egypt was forced to contend with Britain's imperial power which could at a few hours notice overwhelm or undermine Egypt's supposed sovereign institutions At the same time however London was unwilling or unable to prevent Gamal Abdul Nasser and his revolutionary officers from seizing power in 1952 While London perhaps mishandled the transfer of power in Egypt the book points out how the British managed the transition from being the dominant power in Jordan to preserving a substantial influence by inviting American participation in securing regime legitimacy In the end American dollars supported the Hashemite regime while British influence remained just as British officials had wished Challenging Retrenchment argues that by the mid 1970s there was an Anglo American understanding that the Northern Gulf was America's responsibility and that the southern Gulf was Britain's The book also looks at how intelligence and clandestine operations were used and abused by the British in pursuit of their strategic interests first somewhat unsuccessfully in Yemen in the 1960s but with more tangible success in Oman in the 1970s

Decolonisation and the British Empire, 1775-1997 George Boyce, 1999-09-20 This book combines an analysis of the ideas and policies that governed the British experience of decolonization It shows how the British perhaps more correctly the English political tradition with its emphasis on experience over abstract theory was integral to the way in which the empire was regarded as being transformed rather than lost This was a significant aspect of the relatively painless British loss of empire It places the process of decolonization in its wider context tracing the twentieth century domestic and international conditions that hastened decolonization and through a close analysis of not only the policy choices but also the language of British imperialism it throws new light on the British way of managing both the expansion and contraction of empire

The Coup Ervand Abrahamian, 2013-11-05 An absorbing account of the CIA's 1953 coup in Iran essential reading for anyone concerned about Iran's role in the world today Harper's Magazine In August 1953 the Central Intelligence Agency orchestrated the swift overthrow of Iran's democratically elected leader and installed Muhammad Reza Shah Pahlavi in his place When the 1979 Iranian Revolution deposed the shah and replaced his puppet government with a radical Islamic republic under Ayatollah Ruhollah Khomeini the shift reverberated throughout the Middle East and the world casting a long dark shadow

over United States Iran relations that extends to the present day In this authoritative new history of the coup and its aftermath noted Iran scholar Ervand Abrahamian uncovers little known documents that challenge conventional interpretations and sheds new light on how the American role in the coup influenced diplomatic relations between the two countries past and present Drawing from the hitherto closed archives of British Petroleum the Foreign Office and the US State Department as well as from Iranian memoirs and published interviews Abrahamian s riveting account of this key historical event will change America s understanding of a crucial turning point in modern United States Iranian relations A Choice Outstanding Academic Title Not only is this book important because of its presentation of history It is also important because it might be predicting the future Counterpunch Subtle lucid and well proportioned The Spectator A valuable corrective to previous work and an important contribution to Iranian history American Historical Review *The Role of Amphibious Warfare in British Defense Policy* I. Speller,2001-08-03 This book breaks new ground as the first full account of the role of amphibious warfare in British strategy between VE Day and the Anglo French assault on Suez in 1956 Ian Speller analyses the development of postwar strategic planning and the manner in which this influenced the nature of Britain s armed forces in the 1940s and 1950s By detailing the development of equipment doctrine and the role of the Royal Marines he sheds new light on the military response to a succession of overseas crises **Complex Effects of International Relations** Ofer Israeli,2020-11-01 In this comprehensive and unique theory practice study Ofer Israeli examines complex effects of international relations relating to various indirect intended and unintended consequences of intentional human action These effects may be desirable or undesirable overt or covert anticipated or surprising foreseeable but unanticipated and anticipated but simultaneously neglected or discounted Israeli focuses on six case studies from the Middle East analyzing the unexpected and accidental results of interventions in this region by the United States the United Kingdom and other Western powers during the Cold War From this research he develops a complex causal mechanism or practical tool that countries may use to implement foreign policy with the goal of reducing the number of conflicts and wars globally especially in the Middle East *Backbench Debate within the Conservative Party and its Influence on British Foreign Policy, 1948-57* S. Onslow,1997-03-17 This book examines Conservative backbench debate on European integration and British relations in the Middle East between 1948 and 1957 In seeking to compare the impact of a loose affiliation of Conservative MPs an organized faction of longstanding and an ad hoc pressure group the text concentrates upon the Europeanists the Suez Group and the Anti Suez Group and considers their attempts to influence British foreign policy using interviews with former parliamentarians and contemporary sources published and unpublished **Fighting With Allies** Robin Renwick,2016-10-06 It was Winston Churchill who in his speech at Fulton Missouri advocated a special relationship between the British Commonwealth and the United States the continuance of intimate relationships between our military advisers leading to the common study of potential dangers Through the eyes of Churchill Roosevelt and their successors Robin

Renwick traces the development of the Anglo American relationship since the desperate summer of 1940 and the part it played in shaping the post war world Detecting once again a whiff of the 1930s in the air he concludes that as one of the ties that binds Europe and North America the relationship remains an important one and not only to Britain and the United States There are many on both sides of the Atlantic who will think that the world would have been poorer without it Its future will depend on learning the lessons of military overstretch in Iraq and Afghanistan and resolving the mismatch between Britain s desire to play a role in world affairs and the resources allocated to doing so *Rolling the Iron Dice* Scot

Macdonald,2000-07-30 Does history provide lessons for foreign policy makers today Macdonald combines cognitive psychology theories about analogical reasoning international relations theories about military intervention and original archival research to analyze the role of historical information in foreign policy decision making He looks at the role of historical analogies in Anglo American decision making during foreign policy crises involving the possible use of force in regional contingencies during a crucial period in the 1950s when the West faced an emerging Soviet threat This study analyzes the influence of situational and individual variables in a comparison of more than ten leaders from two nations facing four different crises *Rolling the Iron Dice* describes the often significant effect of historical analogies on perceptions of the adversary and of allies time constraints policy options and risks as well as the justification of policy in four crises the 1950 Korean invasion the 1951 53 Iranian oil nationalization incident the 1956 Suez crisis and the 1958 crisis in Lebanon and Jordan Contrary to both the slippery slope and the escalation models of military intervention Macdonald argues that leaders decide extremely early in a crisis often on the basis of an historical analogy but also based on perceptions of the rationality of an adversary whether to use military force Their decision does not change unless the adversary capitulates to every demand

Oil, Nationalism and British Policy in Iran Jack Taylor,2023-12-28 As new nations were formed from the declining British Empire a murky world of diplomats oil executives and spies were determined to maintain London s grip on Iran and its strategic oil reserves Directed from Whitehall by successive governments this book explores the complexities and ambiguities of British policy in Iran and demonstrates its centrality to post war imperial reorientation Situating Iran within Britain s informal empire Jack Taylor demonstrates that Clement Attlee s Labour Government saw Iranian oil as critical to the construction of a domestic New Jerusalem and used coercion propaganda and espionage to preserve their control over it In doing so they were forced to confront not only the emerging Cold War but local resistance expressed through diverse forms including trade unionism Soviet inspired Marxism and popular nationalism *Oil Nationalism and British Policy in Iran* offers new insight into the scale of British interference in Iran and its ultimate failure It reveals that as London s policy floundered the United States independently took steps to safeguard their own regional economic and security interests Although British actors were critical in the operation to depose Prime Minister Mohammad Mossadegh following his government s nationalisation of the oil industry they were ultimately unable to sustain their informal empire in Iran **Mohammad**

Mosaddeq and the 1953 Coup in Iran Mark J. Gasiorowski, Malcolm Byrne, 2004-05-01 Mohammad Mosaddeq is widely regarded as the leading champion of secular democracy and resistance to foreign domination in Iran's modern history. Mosaddeq became prime minister of Iran in May 1951 and promptly nationalized its British controlled oil industry initiating a bitter confrontation between Iran and Britain that increasingly undermined Mosaddeq's position. He was finally overthrown in August 1953 in a coup d'état organized and led by the U.S. Central Intelligence Agency along with British intelligence. This coup initiated a twenty-five year period of growing dictatorship in Iran leaving many Iranians resentful of the U.S. legacies that still haunt relations between the two countries today. This book examines the turbulent political climate that prevailed in Iran during Mosaddeq's tenure, the confrontation between Iran and Britain for control over Iran's oil, the strategic considerations that led U.S. officials to intervene, and the details of the coup itself. Based on exhaustive research by leading academic experts in the field, this is the most authoritative account of the tragic events that led to the overthrow of Mosaddeq. With the recent declassification of CIA and other documents regarding the events of 1953 in Iran, there is an opportunity for new in-depth analysis into not only the coup d'état itself but also the events that led up to it.

The Secret War for the Middle East Youssef Aboul-Enein, 2013-10-15 It can be argued that the Middle East during the World War II has been regarded as that conflict's most overlooked theater of operations. Though the threat of direct Axis invasion never materialized beyond the Egyptian Western Desert with Rommel's Afrika Korps, this did not limit the Axis from probing the Middle East and cultivating potential collaborators and sympathizers. These actions left an indelible mark in the socio-political evolution of the modern states of the Middle East. This book explores the infusion of the political language of anti-Semitism, nationalism, fascism, and Marxism that were among the ideological byproducts of Axis and Allied intervention in the Arab world. The status of British dominated Middle East was tailor made for exploitation by Axis intelligence and propaganda. German and Italian intelligence efforts fueled anti-British resentments; their influence shaped the course of Arab nationalist sentiments throughout the Middle East. A relevant parallel to the pan-Arab cause was Hitler's attempt to bring ethnic Germans into the fold of a greater German state. In theory, as the Sudeten German stood on par with the Carpathian German, so too, according to doctrinal theory, did the Yemeni stand in union with the Syrian in the imagination of those espousing pan-Arabism. As historic evidence demonstrates, this very commonality proved to be a major factor in the development of relations between Arab and Fascist leaders. The Arab nationalist movement amounted to nothing more than a shapeless, fragmented counter-position to British imperialism imported to the Arab East via Berlin for Nazi aspirations.

Machineries of Oil Katayoun Shafiee, 2023-08-15 The emergence of the international oil corporation as a political actor in the twentieth century, seen in BP's infrastructure and information arrangements in Iran. In the early twentieth century, international oil corporations emerged as a new kind of political actor. The development of the world oil industry argues Katayoun Shafiee was one of the era's largest political projects of techno-economic development. In this book, Shafiee maps the machinery of oil operations in the

Anglo Iranian oil industry between 1901 and 1954 tracking the organizational work involved in moving oil through a variety of technical legal scientific and administrative networks She shows that in a series of disagreements the British controlled Anglo Iranian Oil Company AIOC which later became BP relied on various forms of information management to transform political disputes into techno economic calculation guaranteeing the company complete control over profits labor and production regimes She argues that the building of alliances and connections that constituted Anglo Iranian oil s infrastructure reconfigured local politics of oil regions and examines how these arrangements in turn shaped the emergence of both nation state and transnational oil corporation Drawing on her extensive archival and field research in Iran Shafiee investigates the surprising ways in which nature technology and politics came together in battles over mineral rights standardizing petroleum expertise formulas for calculating profits production rates and labor the Persianization of employees nationalism and oil nationalization and the long distance machinery of an international corporation Her account shows that the politics of oil cannot be understood in isolation from its technical dimensions The open access edition of this book was made possible by generous funding from Knowledge Unlatched

[Superpower Intervention in the Middle East \(Routledge Revivals\)](#) Peter Mangold,2013-10-14 Strategically placed on the global chess board as well as controlling vast oil resources the Middle East was one of the main theatres of Cold War In the 1950s the Soviet Union had taken advantage of Arab Nationalists disillusion with British and French Imperialism along with the emerging Arab Israeli conflict to establish relations with Egypt Syria and Iraq The United States responded by moving in to shore up the Western position Confrontation was inevitable Superpower Intervention in the Middle East was written in 1978 when this confrontation was at its height The book s main theme focuses on how the superpowers became competitively involved in local Middle East conflicts over which they could exercise only limited control and the risks of nuclear confrontation of the kind which occurred at the end of the 1973 Arab Israeli war The threat to Western oil supplies is also examined This is a fascinating work of great relevance to scholars and students of Middle Eastern history and political diplomacy as well as those with an interest in the relationship between the Western superpowers and this volatile region

Intervention, Ethnic Conflict and State-Building in Iraq Michael Rear,2008 This examination of the 1991 uprisings in Iraq demonstrates how external intervention by the UN and other actors in ethnic conflicts has contributed to the problems with democratization experienced in the post Saddam era

Veiled Power Doreen Lustig,2020-05-27 Veiled Power conducts a thorough historical study of the relationship between international law and business corporations It chronicles the emergence of the contemporary legal architecture for corporations in international law between 1886 and 1981 Doreen Lustig traces the relationship between two legal veils the sovereign veil of the state and the corporate veil of the company The interplay between these two veils constitutes the conceptual framework this book offers for the legal analysis of corporations in international law By weaving together five in depth case studies Firestone in Liberia the Industrialist Trials at Nuremberg the Anglo Iranian Oil Company

Barcelona Traction and the emergence of the international investment law regime a variety of contexts are covered including international criminal law human rights natural resources and the multinational corporation as a subject of regulatory concern Together these case studies offer a multifaceted account of the history of corporations in international law over time The book seeks to demonstrate the facilitative role of international law in shaping and limiting the scope of responsibility of the private business corporation from the late nineteenth century and throughout the twentieth century Ultimately Lustig suggests that contrary to the prevailing belief that international law failed to adequately regulate private corporations there is a history of close engagement between the two that allowed corporations to exert influence under a variety of legal regimes while obscuring their agency

British Missions around the Gulf, 1575-2005 Hugh Arbuthnott, Terence Clark, Richard Muir, 2008-07-17 Recent events have once again focused international attention on the volatile politics of the Gulf region This new book by three former British ambassadors all with long service in the region demonstrates the importance of the Gulf for Britain from the days of Elizabeth I to the present It tells the story through the life and works of the British diplomats and consuls and the missions in which they worked of Britain's involvement first for trade and later for strategic purposes in the four key regional states of Iran Iraq Kuwait and Oman With wit and insight the book traces the origins of today's problems from the Ottoman and Persian empires to the 1991 Gulf War and its aftermath Those who know the region will find this a refreshing new slant on an old story while those new to the subject will enjoy the mixture of politics and personalities ably described and analysed

The Struggle for Iran David S. Painter, Gregory Brew, 2022-12-06 Beginning with the nationalization of the Iranian oil industry in spring 1951 and ending with its reversal following the overthrow of Prime Minister Mohammad Mosaddeq in August 1953 the Iranian oil crisis was a crucial turning point in the global Cold War The nationalization challenged Great Britain's preeminence in the Middle East and threatened Western oil concessions everywhere Fearing the loss of Iran and possibly the entire Middle East and its oil to communist control the United States and Great Britain played a key role in the ouster of Mosaddeq a constitutional nationalist opposed to communism and Western imperialism U S intervention helped entrench monarchical power and the reversal of Iran's nationalization confirmed the dominance of Western corporations over the resources of the Global South for the next twenty years Drawing on years of research in American British and Iranian sources David S Painter and Gregory Brew provide a concise and accessible account of Cold War competition Anglo American imperialism covert intervention the political economy of global oil and Iran's struggle against autocratic government The Struggle for Iran dispels myths and misconceptions that have hindered understanding this pivotal chapter in the history of the post World War II world

Labor Unions and Autocracy in Iran Habib Ladjevardi, 1985-11-01 Ladjevardi follows the rise and ebb of political development in Iran from 1906 to the recent past by looking at one aspect of political growth the emergence of labor unions Presenting a history of the labor movement in Iran he begins with the genesis of the movement from 1906 to 1921 and then

looks at the state of labor unions under Reza Shah from 1925 to 1941 During the 1940s polarization between the unions and the government increased as did Soviet and British influence on the unions From 1946 to 1953 Iran saw the rise and fall of government controlled unions and after 1953 workers without unions After years of frustration and countless examples of contradiction between words and deeds the workers and most of the politically aware populace became cynical about constitutional government parliamentary elections the promises of the ruling elite and the friendship of the Western powers Ladjevardi s account of the labor movement in Iran leaves little doubt as to why the workers turned against them all the monarchy Western democracy and the West itself *The Middle East, Abstracts and Index* ,1995
