radiculopathy: Causes and mimics of sciatica and low back nerve root disorders Robert James Trager,2015-07-22

Patients often present to health care clinics with complaints of sciatica or pain radiating from the back or buttock into the thigh or leg. Frequently the patient has a lumbar or sacral radiculopathy caused by a degenerative etiology; however, there are many possible causes for these symptoms. This text utilizes almost 600 references to fully explore the many causes of and mimics of radiculopathy of the lumbar and sacral spine. This book details the clinical features that help distinguish a degenerative etiology of lumbosacral radiculopathy from other categories such as vascular (e.g., aortic aneurysm), epidural hematoma, infection (e.g., spondylodiscitis), shingles, and tumor (e.g., spinal metastasis, schwannoma). Each section includes an estimation of the frequency of the condition as a cause or mimic of LSR, when possible, pathophysiological mechanisms that cause neurological deficit or pain, possible distinguishing clinical features, distinguishing imaging and/or laboratory tests, and examples of misdiagnoses or challenging cases. Summary lists are generated that include various historical and physical findings with a differential diagnosis of conditions to consider.

Orthopedic Physical Assessment, 7e, South Asia Edition-E-Book David J. Magee, 2021-04-26. Build your skills in the assessment of musculoskeletal pathology. *Orthopedic Physical Assessment* 7th Edition covers the principles of assessment for all of the body's structures and joints, including topics such as gait, posture, the head and face, amputees, primary care, and sports emergencies. The 7th edition offers updated evidence-based reliability and validity tables. Written by noted PT educators David J. Magee and Robert C. Manske, this reference uses a systematic evidence-based approach to prepare you for success in clinicals, board exams, and in rehabilitation practice. Over 2,500 full-color illustrations and photographs depict key concepts along with assessment techniques and special tests.
