Blum, 2015-09-21 Zen and the Unspeakable God reevaluates how we study mystical experience Forsaking the prescriptive epistemological box that has constrained the conversation for decades ensuring that methodology has overshadowed subject matter Jason Blum proposes a new interpretive approach one that begins with a mystic's own beliefs about the nature of mystical experience Blum brings this approach to bear on the experiential accounts of three mystical exemplars Meister Eckhart Ibn al Arabi and Hui neng Through close readings of their texts he uncovers the mystics own fundamental assumptions about transcendence and harnesses these as interpretive guides to their experiences The predominant theory first path to interpretation has led to the misunderstanding and misrepresentation of individual mystical experiences and fostered specious conclusions about cross cultural comparability among them Blum's hermeneutic invites the scholarly community to begin thinking about mystical experience in a new way through the mystics eyes Zen and the Unspeakable God offers a sampling of the provocative results of this technique and an explanation of its implications for theories of consciousness and our contemporary understanding of the nature of mystical experience

**Intimacy** María Elisa Molina, Carlos Cornejo, Giuseppina Marsico, Jaan Valsiner, 2022-04-01 The concept of intimacy puts forth important challenges to contemporary cultural psychology Intimacy refers to a felt experience of interiority that although is intuitively comprehensible does not have rigorously defined limits Intimacy can refer to a content an object a person ownership or even a part of one s own body A potentially problematic issue for cultural psychology is that acknowledging intimacy seems to bound the Self to areas disjointed from the social sphere In a globalized world we witness a developmental process where social life becomes sectioned where people are involved in an identity search by foregrounding certain social roles With this backdrop in mind people redefine and rebuild their intimacy spaces and the ways they roam from these to the public and collective realm Exploring the current historical situation leads us to consider intimacy as culture in the making certainly in the way it manifests itself but particularly in how we approach and understand it The lived experienced dimension of intimacy becomes truly important since it casts new light on what we mean by intimacy in different spheres of the self s life as well as life with others
