Birch, 2014-04-08 English L2 Reading Getting to the Bottom Second Edition remains a comprehensive myth debunking examination of how L1 features orthographic system phonology morphology can influence English L2 reading at the bottom of the reading process It provides a thorough but very accessible linguistic psycholinguistic examination of the lowest levels of the reading process It is both theoretical and practical The goal is to balance or supplement not replace top down approaches and methodologies with effective low level options for teaching English reading Core linguistic and psycholinguistic concepts are presented within the context of their application to teaching The text clearly explains the strategies that readers of other languages develop in response to their own writing systems Chinese Japanese Arabic Hebrew other alphabets or transparent Roman alphabetic systems contrasted with an explanation of the strategies that English readers develop in response to the opaque orthography of English and explicates

how other low level processing strategies for L1 morphology and word formation may aid or hinder processing in English L2 reading acquisition A complete balanced reading ideology should be big enough to embrace all reading theories and practices In particular it should be able to accommodate those researchers and teachers who find that attention to the details of language can also help students learn to read better Many ESL EFL teachers are interested in supplementing their successful whole language methods with bottom up reading strategies but aren't sure how to do it This book fills that gap

Changes in the Second Edition updated content in each chapter and clearer organization for the student to make the text more reader friendly expansion in Chapter 2 on alphabets writing systems and a brief history of written English and spelling extended discussion in Chapter 3 of the cognition of written language and reading transfer addition of phonemic vocal subvocal and articulatory development and L2 reading processing in Chapter 4 as well as instructional activities and strategies for teaching these skills to L2 readers elaboration of graphs and graphemes in Chapter 5 including discussion of developing graphemic knowledge processing strategies and their instructional application and new sections on reading speed pattern recognition and word recognition development of the probabilistic section in Chapter 6 particularly the probabilities in context of L2 reading updated information on the topic of brain activation studies and new treatment of the topic of reading fluency added in responses to requests from many readers of the first edition

Intended for ESL EFL reading researchers teacher trainers and teachers and as a text for MATESOL students most chapters contain practical suggestions that teachers can incorporate into whole language methods to teach beginning or intermediate ESL EFL reading letters pronunciation smart phonics morphemes and vocabulary acquisition in a more balanced way Pre reading discussion and study questions are provided to stimulate interest and enhance comprehension End of chapter exercises help readers apply the concepts

Bolt,2003-12-11 Peter Bolt explores the impact of Mark's Gospel on its early readers in the first century Graeco Roman world His book focuses upon the thirteen characters in Mark who come to Jesus for healing or exorcism and using analytical tools of narrative and reader response criticism explores their crucial role in the communication of the Gospel Bolt suggests that early readers of Mark would be persuaded that Jesus' dealings with the suppliants show him casting back the shadow of death and that this in itself is preparatory for Jesus' final defeat of death in resurrection Enlisting a variety of ancient literary and non literary sources in an attempt to illuminate this first century world this book gives special attention to illness magic and the Roman imperial system This is a different approach to Mark which attempts to break the impasse between narrative and historical studies and will appeal to scholars and students alike [A Postcolonial Reading of Mark's Story of Jesus](#) Simon Samuel,2007-04-18 This unique contribution to Markan studies reads Mark's story of Jesus from a postcolonial perspective It proposes that Mark need not necessarily be treated in an oversimplified polarity as an anti or pro colonial discourse Instead it may be treated as a postcolonial discourse i.e. as a hybrid discourse that accommodates and disrupts both the native Jewish and the Roman colonial discourses of power It shows that Mark accommodates itself into a strategic third space in between the variegated native Jewish and the Roman colonial discourses in order to enunciate its own voice As an ambivalent and hybrid discourse it mimics and mocks accommodates and disrupts both the Jewish as well as the Roman colonial voices The portrait of Jesus in Mark which Samuel shows to be encoding also the portrait of a community exhibits a colonial postcolonial conundrum which can neither be damned as pro nor be praised as anti colonial in nature Instead the portrait of Jesus in Mark may be appreciated as a strategic essentialist and transcultural hybrid in which the claims of difference and the desire for transculturality are both contradictorily present and visible In showing such a portrait

and invoking a complex discursive strategy Mark as the discourse of a subject community is not alone or unique in the Graeco Roman world A number of discourses historical creative novelistic and apocalyptic of the subject Greek and Jewish communities in the eastern Mediterranean under the imperium of Rome from the second century BCE to the end of the first century CE exhibit very similar postcolonial traits which one may add to be not far from the postcolonial traits of a number of postcolonial creative writings and cultural discourses of the colonial subject and the dominated post colonial communities of our time
