Surprised by God Kindalee Pfremmer De Long, 2009-10-16 Scholars have long noted the prevalence of praise of God in Luke Acts This monograph offers the first comprehensive analysis of this important feature of Luke s narrative It focuses on twenty six scenes in which praise occurs studied in light of ancient Jewish and Greco Roman discourse about praise of deity and in comparison with how praise appears in the narratives of Tobit and Joseph and Aseneth The book argues that praise of God functions as a literary motif in all three narratives serving to mark important moments in each plot particularly in relation to the themes of healing conversion and revelation In Luke Acts specifically the plot presents the long expected visitation of God which arrives in the person of Jesus bringing glory to the people of Israel and revelation to the Gentiles The motif of praise of God aligns closely with the plot s structure communicating to the reader that varied and often surprising events in the story such as healings in Luke and conversions in Acts together comprise the plan of God The praise motif thus demonstrates the author s efforts to combine disparate source material into carefully constructed historiography

The Ongoing Feast Arthur A. Just, 1993. From the perspective of the Emmaus narrative in Luke 24, this study is a literary critical analysis of Jesus' table fellowship as an expression of the eschatological kingdom. The first time Jesus is recognized by faith as the crucified and now risen Messiah occurs at Emmaus through his teaching on the road and in the breaking of the bread. Emmaus is the transition between the meals of Jesus and early Christian meals, setting the pattern of Christian worship as one of word and meal.
