**Modern Chinese Foodways**

Jia-Chen Fu,Michelle T. King,Jakob A. Klein,2025-03-04 An edited collection that explores the multifaceted experiences of Chinese culinary modernity both within and outside of mainland China from the mid 19th century to present *Modern Chinese Foodways* defines some of the major processes by which Chinese food and foodways have become modern with a focus on the period from the mid nineteenth to the twenty first century The editors Jia Chen Fu Michelle T King and Jakob A Klein highlight four prominent areas of change commodification of food production the scientization of expertise and the development of new food technologies the creation of new culinary identities based on gender ethnicity and nation and the circuits of migration taking place since the nineteenth century This collection argues that Chinese food and foodways are very much modern not a given in the face of the chorus of voices that insists on emphasizing its ancient roots in ways that both recall the experiences of other cultures as well as in ways unique to China s own historical trajectory The book combines incisive original scholarship by thirteen leading voices in the field with editorial essays on the past and future of Chinese food studies to frame the field of inquiry for the next generation of Chinese food studies scholars Demonstrating the significance of modern Chinese foodways to the phenomenon of culinary modernity writ large which is still largely shaped by Euro American perspectives and priorities *Modern Chinese Foodways* is the first book of its kind **Resilient Kitchens**

**Chow Chop Suey** Anne Mendelson, 2016-11-29 Chinese food first became popular in America under the shadow of violence against Chinese aliens, a despised racial minority ineligible for United States citizenship. The founding of late nineteenth century chop suey restaurants that pitched an altered version of Cantonese cuisine to white patrons despite a virulently anti-Chinese climate is one of several pivotal events in Anne Mendelson's thoughtful history of American Chinese food. *Chow Chop Suey* uses cooking to trace different stages of the Chinese community's footing in the larger white society. Mendelson begins with the arrival of men from the poorest district of Canton Province during the Gold Rush. She describes the formation of American Chinatowns and examines the curious racial dynamic underlying the purposeful invention of hybridized Chinese-American food, historically prepared by Cantonese descended cooks for whites incapable of grasping Chinese culinary principles. Mendelson then follows the eventual abolition of anti-Chinese immigration laws and the many demographic changes that transformed the face of Chinese cooking in America during and after the Cold War. Mendelson concludes with the post 1965 arrival of Chinese immigrants from Taiwan, Southeast Asia, and many regions of mainland China. As she shows, they have immeasurably enriched Chinese cooking in America but tend to form comparatively self-sufficient enclaves in which they, unlike their predecessors, are not dependent on cooking for a white clientele.
