Juba This Juba That 1st Edition:

Moses Mendelssohn Alexander Altmann, 1984-03-01 Alexander Altmann's acclaimed wide ranging biography of Moses Mendelssohn 1729-96 was first published in 1973 but its stature as the definitive biography remains unquestioned. In fact there has been no subsequent attempt at an intellectual biography of this towering and unusual figure: no other Jew so deeply rooted in the Jewish tradition was at the same time so much a part of the intellectual life of the German Enlightenment in the second half of the eighteenth century. As such, Moses Mendelssohn came to be recognized as the inaugurator of a new phase in Jewish history: all modern Jews today are in his debt. Altmann presents Moses Mendelssohn in strictly biographical terms. He does not attempt to assess his significance with the hindsight of historical perspective nor to trace his image in subsequent generations but rather to observe his life from the period within which it was set. Altmann has written an absorbing and compelling narrative that makes a whole epoch come alive with great drama. For Mendelssohn's life was a kaleidoscope of the European intellectual scene: Jewish and non-Jewish. As both a prominent philosopher and a believing Jew, Mendelssohn became a spokesman for the Jews and Judaism; he was one of the rare figures who became the symbol of an era. Through Altmann's skilful use of hitherto unpublished archival material, the reader is introduced to the vast array of people: men of letters, artists, politicians, scientists, philosophers and theologians with whom Mendelssohn was in contact and sometimes in conflict. What was Mendelssohn's Judaism like? To what extent did the disparate worlds of Judaism and modern Enlightenment jostle each other in his mind and to what degree could he harmonize them? These questions are not easily answered and it is only in the aggregate of a multitude of accounts of experiences, reactions and statements on his part that the answer is to be found. Alexander Altmann's analysis of this wealth of material is extraordinary in its discernment, subtlety and clarity of expression. This masterly work will be of interest not only to those who are concerned with Jewish intellectual history but also to those interested in eighteenth century cultural and social history, philosophy and theology, literary criticism, aesthetics and the other areas of intellectual activity in ferment at that time. The general reader will also find much of contemporary relevance in Mendelssohn's life: not only because of his exemplary devotion to reason and tolerance but also because of his lifelong struggle with the basic dilemma of the Jew in the modern world: the attraction of assimilation versus the singularity of Jewish life and the preservation of Jewish identity versus integration in the wider society. [American Aberdeen-Angus Herd Book](#) American Angus Association, 1904 [Encyclopædia Americana](#) Francis Lieber, 1851 [Strabo's Geography](#) Strabo, 2024-06-11. Written in the first century AD, Strabo's *Geographica* tells us just about everything one could know about the ancient world of his day. We find instructions on how to tame elephants, information on the production of asphalt, how saffron is collected, the treatment of the aged, the practice of yoga, the lineage of obscure eastern dynasties, religious festivals, prostitution, volcanic activity, to name but a few of the topics his great work expounds upon. From his home in what is now Turkey, Strabo travelled around the Mediterranean describing the locations he visited and those he passed.

through Some of the information in his great work is derived from his own travels but most of it is the product of his reading and research So it is not merely a travelogue or guidebook but rather an intellectual journey through ancient places and the literature of antiquity which implicitly asks Who are we and Where do we come from His answer involves a detailed description of the first century world he thought his readers should know In this new modern translation of the complete work translator Sarah Pothecary renders Strabo's *Geographica* as an invaluable resource for anyone interested in how the world today came into being The main obstacle for readers has always been how to approach what at first sight is a daunting work of 300 000 words Even when translated from ancient Greek into English Strabo's narrative has come across as sprawling and difficult to navigate Ancient names for modern places used by Strabo sound naturally unfamiliar to contemporary readers making it seem as if the world he describes is remote from our own in terms of place as well as time Pothecary's translation addresses these problems by orientating the reader within the twenty first century world As she progresses through the narrative the reader will be able to locate where he is in the modern world as well as in the ancient world By doing so this book mimics what Strabo was doing two thousand years ago relating the rapidly changing present of his readers to their own ancient past The questions of identity and origin that underlie his work are as relevant today as two thousand years ago It is time Pothecary argues the modern world got to know Strabo better *Encyclopaedia Americana*

Moses Mendelssohn and the Religious Enlightenment David Sorkin,2012-08-27 Moses Mendelssohn 1729 1786 was the premier Jewish thinker of his day and one of the best known figures of the German Enlightenment earning the sobriquet the Socrates of Berlin He was thoroughly involved in the central issue of Enlightenment religious thinking the inevitable conflict between reason and revelation in an age contending with individual rights and religious toleration He did not aspire to a comprehensive philosophy of Judaism since he thought human reason was limited but he did see Judaism as compatible with toleration and rights David Sorkin offers a close study of Mendelssohn s complete writings treating the German and the often neglected Hebrew writings as a single corpus and arguing that Mendelssohn s two spheres of endeavour were entirely consistent
