Eugen Rosenstock-Huessy, 1971 **Judaism Despite Christianity**, 2011 Interaction Between Judaism and Christianity in History, Religion, Art, and Literature Marcel Poorthuis, Joshua Jay Schwartz, Joseph Turner, 2009 This volume contains essays dealing with complex relationships between Judaism and Christianity taking a bold step assuming that no historical period can be excluded from the interactive process between Judaism and Christianity conscious or unconscious as either rejection or appropriation **Philosophical and Theological Writings** Franz Rosenzweig, 2000-01-01 This volume brings

together Rosenzweig's central essays on theology and philosophy including two works available for the first time in English the conclusion to Rosenzweig's book *Hegel and the State* and Rosenzweig's famous letter to Rudolph Ehrenberg known as the *Urzelle of the Star of Redemption* an essential work for understanding Rosenzweig's Weimar theology and philosophy and German idealism and the existential reaction of the period Additional selections are presented in new or revised translations Introduction and notes by Franks and Morgan set Rosenzweig's works in context and illuminate his role as one of the key thinkers of the period Judaism and Christianity in the Age of Constantine Jacob Neusner, 2008-09-15 With the conversion

of Constantine in 312 Christianity began a period of political and cultural dominance that it would enjoy until the twentieth century Jacob Neusner contradicts the prevailing view that following Christianity's ascendancy Judaism continued to evolve in isolation He argues that because of the political need to defend its claims to religious authenticity Judaism was forced to review itself in the context of a triumphant Christianity The definition of issues long discussed in Judaism the meaning of history the coming of the Messiah and the political identity of Israel became of immediate and urgent concern to both parties What emerged was a polemical dialogue between Christian and Jewish teachers that was unprecedented In a close analysis of texts by the Christian theologians Eusebius Aphrahat and Chrysostom on one hand and of the central Jewish works the Talmud of the Land of Israel the Genesis Rabbah and the Leviticus Rabbah on the other Neusner finds that both religious groups turned to the same corpus of Hebrew scripture to examine the same fundamental issues Eusebius and Genesis Rabbah both address the issue of history Chrysostom and the Talmud the issue of the Messiah and Aphrahat and Leviticus Rabbah the issue of Israel As Neusner demonstrates the conclusions drawn shaped the dialogue between the two religions for the rest of their shared history in the West     The Weimar Moment Leonard V. Kaplan, Rudy Koshar, 2012-01-26 The Weimar Moment's evocative assault on closure and political reaction its offering of democracy against the politics of narrow self interest cloaked in nationalist appeals to Volk and community or as would be the case in Nazi Germany race cannot but appeal to us today This appeal its historical grounding and content its complexities and tensions its variegated expressions across the networks of power and thought is the essential context of the present volume whose basic premise is unhappiness with Hegel's remark that we learn no more from history than we cannot learn from it The challenge of the papers in this volume is to provide the material to confront the present effectively drawing from what we can and do understand

*Idolatry and Representation* Leora Batnitzky, 2009-07-06 Although Franz Rosenzweig is arguably the most important Jewish philosopher of the twentieth century his thought remains little understood Here Leora Batnitzky argues that Rosenzweig's redirection of German Jewish ethical monotheism anticipates and challenges contemporary trends in religious studies ethics philosophy anthropology theology and biblical studies This text which captures the hermeneutical movement of Rosenzweig's corpus is the first to consider the full import of the cultural criticism articulated in his writings on the modern meanings of art language ethics and national identity In the process the book solves significant conundrums about Rosenzweig's relation to German idealism to other major Jewish thinkers to Jewish political life and to Christianity and brings Rosenzweig into conversation with key contemporary thinkers Drawing on Rosenzweig's view that Judaism's ban on idolatry is the crucial intellectual and spiritual resource available to respond to the social implications of human finitude Batnitzky interrogates idolatry as a modern possibility Her analysis speaks not only to the question of Judaism's relationship to modernity and vice versa but also to the generic question of the present's relationship to the past a subject of great importance to anyone contemplating the modern statuses of religious tradition reason science and historical inquiry By way

of Rosenzweig Batnitzky argues that contemporary philosophers and ethicists must relearn their approaches to religious traditions and texts to address today's central ethical problems     *A Short History of Judaism* Jacob Neusner,1992 One of the world's experts on classical Jewish history and literature offers an authoritative interpretation of the three major periods of Jewish history from the time of the Bible up to the present What emerges is a captivating account of the life forming nature of a dynamic religion in vastly differing historical contexts Glossary maps illustrations photographs     *Judaism and World Religions* A. Brill,2012-02-14 Provides the first extensive collection of traditional and academic Jewish approaches to the religions of the world focusing on those Jewish thinkers that actually encounter the other world religions that is it moves beyond the theory of inclusive exclusive pluralistic categories and looks at Judaism's interactions with other faiths     *The Blackwell Companion to Judaism* Jacob Neusner,Alan Avery-Peck,2008-04-15 This Companion explores the history doctrines divisions and contemporary condition of Judaism Surveys those issues most relevant to Judaic life today ethics feminism politics and constructive theology Explores the definition of Judaism and its formative history Makes sense of the diverse data of an ancient and enduring faith     *Eusebius, Christianity and Judaism* Gohei Hata,Harold W. Attridge,2022-10-04 Eusebius of Caesarea lived at a crucial turning point in the history of the Christian church He was an important witness to the polemical and apologetic attitudes that characterized much early Christian literature The most voluminous writer of the early fourth century he was also the first comprehensive historian of his community seeking a philosophy to explain the whole course of history from the beginning to his own time This volume places Eusebius work in proper perspective The contributors all recognized specialists in early Christianity shed light on the person and circumstances of Eusebius himself This collection of essays focuses on elements of the story that Eusebius tells the story of the early church its relationship to Judaism or its confrontation with the Roman Empire and explores gaps left by Eusebius The writers offer a cross section of current scholarly methods in the study of early Christianity and Judaism     **The Cross and the Star** Wayne Cristaudo,Frances Huessey,2009-05-27 Eugen Rosenstock Huessey a Christian convert and a social philosophy scholar had an intense conversation with the Jewish thinker Franz Rosenzweig in 1913 This Leipzig Conversation shattered Rosenzweig's understanding of the meaning of religion but it also propelled him to embrace his innate Jewish faith Three years later they engaged in a correspondence that has emerged as an historic stunning dialogue on Jewish Christian thinking Rosenzweig went on to write *The Star of Redemption* a classic work of modern Jewish philosophical theology and to become one of the most important and influential figures of twentieth century German Jewry Rosenstock Huessey took a different path writing his *Sociology* which pointed the social sciences in a new direction based on speech thinking and an enormous rich body of work covering grammar and society revolutions Church history and industrial law teaching generations of European and American university students and putting his faith into action This is the first major collection of essays on these two close friends new thinking Their dialogue mirrored Nietzsche's anti transcendent reading of Judaism and Christianity as well as his

attack on idealism But their dialogue also resurrected the redemptive cores of these faiths as sources for the rejuvenation of human society This book brings to publication three essays by Rosenstock Huessey on Nietzsche and a translation of a chapter from his Sociology clarifying the post Nietzschean approach of the new thinking The Cross and the Star a 50 year span of significant scholarship vivifies the reasons for Rosenzweig s and Rosenstock Huessey s influence on faith and society and why their respective thought speaks directly and enduringly to the global human challenges of our time Judaism and Its Social

Gilman,2014-11-01 Islam Christianity and Judaism share several common features including their historical origins in the prophet Abraham their belief in a single divine being and their modern global expanse Yet it is the seeming closeness of these Abrahamic religions that draws attention to the real or imagined differences between them This volume examines Abrahamic cultures as minority groups in societies which may be majority Muslim Christian or Jewish or self consciously secular The focus is on the relationships between these religious identities in global Diaspora where all of them are confronted with claims about national and individual difference The case studies range from colonial Hong Kong and Victorian London to today s San Francisco and rural India Each study shows how complex such relationships can be and how important it is to situate them in the cultural ethnic and historical context of their world The chapters explore ritual practice conversion colonization immigration and cultural representations of the differences between the Abrahamic religions An important theme is how the complex patterns of interaction among these religions embrace collaboration as well as conflict even in the modern Middle East This work by authors from several academic disciplines on a topic of crucial importance will be of interest to scholars of history theology sociology and cultural studies as well as to the general reader interested in how minority groups have interacted and coexisted This is a groundbreaking collection of original learned and cutting edge essays on various aspects of the three major monotheistic religions in modern times The subjects of the essays range across the globe from Hong Kong and South Asia to Victorian Britain and Weimar Germany and teach us to see each tradition and all three traditions together in new and original ways A distinctive contribution Steven T Katz Boston University Judaism Christianity and Islam is remarkable for bringing together accessible scholarly essays each with keen insight exploring the diverse Abrahamic cultures and their complex interactions As the human landscape of Europe continues to evolve this superb series of engagements with the past and present is an indispensable guide Michael Berkowitz University College London Gilman remains an unparalleled expert at identifying cutting edge interdisciplinary research The essays in this superb volume provide urgently needed comparative and theoretical examinations of the constructed natures of Christianity Islam and Judaism and the complex and challenging relationships they engender Lisa Silverman University of Wisconsin Milwaukee

*Jewish-Christian Difference and Modern Jewish Identity* Shalom Goldman,2015-06-09 This book is an exploration of what would seem to be a simple question but is actually the object of a profound quest who is a Jew This is a deeply complex issue

both within Judaism and in interactions between Jews and Christians Jewish Christian Difference and Modern Jewish Identity Seven Twentieth Century Converts contends that in the twentieth century the Jewish Christian relationship has changed to the extent that definitions of Jewish identity were reshaped The stories of the seven influential and creative converts that are related in this book indicate that the borders dividing the Jewish and Christian faiths are for many more fluid and permeable than ever before     **Jewish-Christian Dialogue** David Novak,1992-04-02 Many studies written about the Jewish Christian relationship are primarily historical overviews that focus on the Jewish background of Christianity the separation of Christianity from Judaism or the medieval disputations between the two faiths This book is one of the first studies to examine the relationship from a philosophical and theological viewpoint Carefully drawing on Jewish classical sources Novak argues that there is actual justification for the new relationship between Judaism and Christianity from within Jewish religious tradition He demonstrates that this new relationship is possible between religiously committed Jews and Christians without the two major impediments to dialogue triumphalism and relativism One of the very few books on this topic written by a Jewish theologian who speaks specifically to modern Christian concerns it will provide the groundwork for a more serious development of Jewish Christian dialogue in our day     **Uncommon Friendships** William Young,2010-01-01 Uncommon Friendships explores the often overlooked dynamic of interreligious friendships considering their significance for how we think about contemporary religious thought By exploring the dynamics of three relationships between important religious thinkers Franz Rosenzweig and Eugen Rosenstock Huessy Emmanuel Levinas and Maurice Blanchot and Julia Kristeva and Catherine Clement this study demonstrates the ways such friendships enable innovation and transformation within religious traditions For each pair of thinkers the sustained engagement and disagreement between them becomes central to their religious and philosophical development helping them to respond effectively and creatively to issues and problems facing their communities and societies Through a rereading of their work Young shows how such friendships can help us rethink religion aesthetics education and politics as well as friendship itself
