President and CEO In Search of Jewish Community Michael Brenner, Derek J. Penslar, 1999-01-22 A collection of essays interrogates the nature of Jewish identity in the time between two world wars The history of Jews in interwar Germany and Austria is often viewed either as the culmination of tremendous success in the economic and cultural realms and of individual assimilation and acculturation or as the beginning of the road that led to Auschwitz By contrast this volume demonstrates a re emerging sense of community within the German speaking Jewish population of these two countries in the two decades after World War I The fresh research presented here shows that while Jews may have experienced a deepening sense of impending crisis and economic decline a renewal of Jewish communal life took place during these years as new groupings sprang up including organizations for youth for rural Jews and for political groups such as Zionists and Bundists Several chapters consider the impact of economic and political crises on German Jewish family life Together these essays form a complex mosaic of German Jewry on the eve of its demise An excellent collection well written and cogently argued David N Myers **B'nai B'rith National Jewish Monthly** ,1926 **What We Now Know about Jewish Education** Roberta Louis Goodman, Paul A. Flexner, Linda Dale Bloomberg, 2008 When What We Know about Jewish Education was first published in 1992 Stuart Kelman recognized that knowledge and understanding would greatly enhance the ability of professionals and lay leaders to address the many challenges facing Jewish education With increased innovation the entry of new funders and the connection between Jewish education and the quality of Jewish life research and evaluation have become over the last two decades an integral part of decision making planning programming and funding American Jewish Year Book, 1996. ,1995 The Library owns the volumes of the American Jewish Yearbook from 1899 current **50 Ways to be Jewish** David J. subject deals with major world religions important non religious worldviews and ethics from a non confessional perspective Thus in the classroom individuals who identify with diverse religious and non religious worldviews with a different understanding of what religion could be and what it might mean to be religious are brought together The book examines questions raised in this pluralistic context What discourses of religion become hegemonic in the classroom How do these discourses affect the possibility of reaching the aim of Religious Education which concerns understanding and respect for different ways of thinking and living in a society characterized by diversity
