Levittown LostLenny,2014-06-12 This novel starts at the very beginning in New York City when the Nilsson family moves all of their possessions to a brand new housing development on Long Island Then the novel shifts a few years ahead to our hero s first experiences in kindergarten in a rented room of an old Protestant Church As the novel moves on our hero continues his grade school education through sixth grade in a formal building where Lester is constantly confronted with other children his age some become close friends some are bullies and others mold his life as our hero interacts with him Not all the scenes in the story are school related Many deal in other areas where a child s imagination and a parent s involvement can turn a simple act like losing a rubber boot down a street drain into an interesting dilemma Often these situations involve people from other walks of life policeman construction people strangers Levittown was written to entertain the reader and I have purposely kept the pace of the plot moving so the reader will not dwell on one thing for too long However I hope that the reader will agree with me and our hero that Levittown was and I hope is still a child s paradise

The Eudaimonic Turn James O. Pawelski,D. J. Moores,2013 In much of the critical discourse of the seventies eighties and nineties scholars employed suspicion in order to reveal a given text s complicity with various undesirable ideologies and or psychopathologies Construed as such interpretive practice was often intended to demystify texts and authors by demonstrating in them the presence of false consciousness bourgeois values patriarchy orientalism heterosexism imperialist attitudes and or various neuroses complexes and lacks While it proved to be of vital importance in literary studies suspicious hermeneutics often compelled scholars to interpret eudaimonia or well being variously conceived in pathologized terms At the end of the twentieth century however literary scholars began to see the limitations of suspicion conceived primarily as the discernment of latent realities beneath manifest illusions In the last decade often termed the post theory era there was a radical shift in focus as scholars began to recognize the inapplicability of suspicion as a critical framework for discussions of eudaimonic experiences seeking out several alternative forms of critique most of which can be

called despite their differences a hermeneutics of affirmation In such alternative reading strategies scholars were able to explore configurations of eudaimonia not by dismissing them as bad politics or psychopathology but in complex ways that have resulted in a new eudaimonic turn a trans disciplinary phenomenon that has also enriched several other disciplines The Eudaimonic Turn builds on such work offering a collection of essays intended to bolster the burgeoning critical framework in the fields of English Comparative Literature and Cultural Studies by stimulating discussions of well being in the post theory moment The volume consists of several examinations of literary and theoretical configurations of the following determinants of human subjectivity and the role these play in facilitating well being values race ethics morality aesthetics class ideology culture economics language gender spirituality sexuality nature and the body Many of the authors compelling refute negativity bias and pathologized interpretations of eudaimonic experiences or conceptual models as they appear in literary texts or critical theories Some authors examine the eudaimonic outcomes of suffering marginalization hybridity oppression and or tragedy while others analyze the positive effects of positive affect Still others analyze the aesthetic response and or the reading process in inquiries into the role of language use and its impact on well being or they explore the complexities of strength resilience and other positive character traits in the face of struggle suffering and othering
