Environmentalism Unbound Robert Gottlieb, 2002-08-02 A call for a broadened environmental movement that addresses issues of everyday life In Environmentalism Unbound Robert Gottlieb proposes a new strategy for social and environmental change that involves reframing and linking the movements for environmental justice and pollution prevention According to Gottlieb the environmental movement's narrow conception of environment has isolated it from vital issues of everyday life such as workplace safety healthy communities and food security that are often viewed separately as industrial community or agricultural concerns This fragmented approach prevents an awareness of how these issues are also environmental issues After tracing a history of environmental perspectives on land and resources city and countryside and work and industry Gottlieb focuses on three compelling examples of this new approach to social and environmental change The first involves a small industry dry cleaning and the debate over pollution prevention approaches the second involves a set of products janitorial cleaning supplies that may be hazardous to workers and the third explores the obstacles and opportunities presented by community or regional approaches to food supply in the face of an increasingly globalized food system Better Health for Our Children: Background papers United States. Select Panel for the Promotion of Child Health, 1981 Departments of Labor and Health, Education, and Welfare Appropriations for 1971 United States. Congress. House. Appropriations, 1970 Quick Bibliography Series, 1976 Social Change and the Empowerment of the Poor Mark Edward Braun, 2001-01-01 Social Change and the Empowerment of the Poor provides insight into the local impact of a variety of federal programs funded by the Economic Opportunity Act of 1964 Specifically Mark Edward Braun s dramatic social history examines seven anti poverty programs Community Action Programs CAPs started in Milwaukee in the 1960s Braun's research confirms that unlike most other cities Milwaukee's deteriorating urban neighborhoods were transformed by these initiatives CAPs successfully empowered Milwaukee s poor made public officials and institutions more accountable to the needs of the poor reformed punitive legislation created new community based organizations expanded social services for people of color and challenged elites This book provides an excellent framework for future studies that will

add to the current scholarly interest in the long term results of CAPs Braun simultaneously dispels the myth that CAPs were a categorical failure and brings a provocative new voice to urban studies social activism policy studies and political science

A Companion to Lyndon B. Johnson Mitchell B. Lerner, 2012-02-13 This companion offers an overview of Lyndon B Johnson's life presidency and legacy as well as a detailed look at the central arguments and scholarly debates from his term in office Explores the legacy of Johnson and the historical significance of his years as president Covers the full range of topics from the social and civil rights reforms of the Great Society to the increased American involvement in Vietnam Incorporates the dramatic new evidence that has come to light through the release of around 8 000 phone conversations and meetings that Johnson secretly recorded as President American Poverty in a New Era of Reform Harrell R. Rodgers, 2015-01-28 This new edition of American Poverty in a New Era of Reform provides a comprehensive examination of the extent causes effects and costs of American poverty nearly ten years after the passage of the Personal Responsibility and Work Opportunity Reconciliation Act PRWORA in 1996 The author includes the most current available demographic budget evaluation and program data to evaluate the impact of this sweeping legislation on federal and state policies as well as on poverty populations This revised edition takes into account the economic slowdown that took place in 2001 through 2003 It examines the state decisions about how to implement PRWORA and how changes have affected the poverty population and overall welfare system The author identifies the positive implications of welfare reform along with problems that must be addressed New features for this edition include an appendix of Internet sources a state by state tables of poverty rates of Southern Politics Leslie Dunbar, 2021-11-21 As a leader of the Southern Regional Council in the early 1960s and later as executive director of the Field Foundation Leslie Dunbar's advocacy and behind the scenes organizing made him one of the most significant but least recognized people in the civil rights movement His essays and speeches often helped set the agenda They also continue to offer a prophetic voice in our struggle to create a more humane and fully integrated America The Shame of Southern Politics gathers for the first time fourteen of Dunbar's essays and speeches on the courage and values of the southern civil rights movement Dunbar's selected writings ranging from the classic 1961 essay The Annealing of the South to a post September 11th meditation give eloquent voice to the best of America's liberal tradition A new essay entitled 1968 offers Dunbar's unique take on that transformational year Sweet Charity? Janet Poppendieck, 1999-08-01 In this era of eroding commitment to government sponsored welfare programs voluntarism and private charity have become the popular optimistic solutions to poverty and hunger The resurgence of charity has to be a good thing doesn t it No says sociologist Janet Poppendieck not when stopgap charitable efforts replace consistent public policy and poverty continues to grow In Sweet Charity Poppendieck travels the country to work in soup kitchens and gleaning centers reporting from the frontlines of America's hunger relief programs to assess the effectiveness of these homegrown efforts. We hear from the clients who receive meals too small to feed their families from the enthusiastic volunteers and from the directors who wonder if their successful programs are in some way perpetuating the problem they are struggling to solve Hailed as the most significant book on hunger to appear in decades Sweet Charity shows how the drive to end poverty has taken a wrong turn with thousands of well meaning volunteers on board Pesticides And Politics Christopher J. Bosso, 2010-11-23 Winner of the 1988 Policy Studies Organization Book Award Among the more dramatic changes brought by World War II was the widespread introduction of new synthetic chemical pesticides products welcomed as technological answers to a whole host of agricultural problems. The dangers posed by these products were often ignored in the rush to get them onto the market Federal policy primarily reflected the interests of those promoting the new technologies. The risks associated with pesticides as yet ill understood continued to be played down during the 1950s despite their sudden emergence as a public problem as a result of health scares and fish and wildlife deaths following massive pest eradication campaigns These events together with the publication of Rachel Carson's Silent Spring spawned the environmental movement of the 1960s Dramatic changes came in the early 1970s as environmental values permeated the institutions and dynamics of American politics Such changes produced new priorities and in part a redirection in federal policy on chemical pesticides The National Environmental Policy Act the creation of the Environmental Protection Agency congressional reforms and broad popular support opened opportunities for those seeking to alter pesticides policy But by the mid 1980s after more than a decade of conflict that policy is in limbo caught between powerful environmental economic and political forces How did this happen Pesticides and Politics traces the long battle over control of pesticides through an analytical framework that is at the same time historical comparative and theoretical Christopher J Bosso's account analyzes the responses to this complex problem by commercial interests government the media and the public and shows how the issue evolved over forty years of technological and political change Bosso s research leads to a number of insights about the U S structure of governance It shows how the system itself determines who gains access to decision making and who is excluded and how conflicts are redefined as the range of interests attached to them grows Bosso concludes that for fundamental institutional reasons as well as political ones federal pesticides policy lies stalled and impotent in the mid 1980s Relying heavily on government documents the sizable literature on environmental politics and interviews with relevant policy actors Pesticides and Politics will enlighten students of the public policy process and also be useful in courses in policy making and policy analysis The State of **Conservation** Joshua Nygren, 2025-01-07 You Must Be from the North Kimberly K. Little, 2009-10-20 You must be from the North was a common derogatory reaction to the activities of white women throughout the South well meaning wives and mothers who joined together to improve schools or local sanitation but found their efforts decried as more troublesome civil rights agitation You Must Be from the North Southern White Women in the Memphis Civil Rights Movement focuses on a generation of white women in Memphis Tennessee born between the two World Wars and typically omitted from the history of the civil rights movement The women for the most part did not jeopardize their lives by participating alongside black

activists in sit ins and freedom rides Instead they began their journey into civil rights activism as a result of their commitment to traditional female roles through such organizations as the Junior League What originated as a way to do charitable work however evolved into more substantive political action While involvement with groups devoted to feeding school children and expanding Bible study sessions seemed benign these white women s growing awareness of racial disparities in Memphis and elsewhere caused them to question the South's hierarchies in ways many of their peers did not Ultimately they found themselves challenging segregation more directly found themselves ostracized as a result and discovered they were often distrusted by a justifiably suspicious black community Their newly discovered commitment to civil rights contributed to the success of the city's sanitation workers strike of 1968 Dr Martin Luther King Jr's death during the strike resonated so deeply that for many of these women it became a defining moment In the long term these women proved to be a persistent and progressive influence upon the attitudes of the white population of Memphis and particularly on the city s elite **Politics of Southern Equality** Frederick M. Wirt, 2017-07-12 This path breaking text deals with the effects of federal civil rights legislation on the behavior and attitudes of the inhabitants of a single county in Mississippi Panola County These effects are examined in the three civil rights areas of voting education and economic opportunities By using this smaller example Frederick M Wirt s broader interest is to show how legislation can be used to effect social change on a large scale The need to substitute empirical knowledge for abstract speculation motivates Wirt s study Wirt restricts his study to one county but with conclusions on comparative studies that illumine the emerging political sociology of the South The author sketches the historical setting of Panola County emphasizing on the demographic economic and political developments in recent decades He then examines what has actually happened in race relations as an effect of civil rights laws affecting votes schools and jobs Wirt utilizes documentary material from federal state and county sources local newspapers and records from business and other groups But his closer understanding comes from personal interviews Because federal law is the dynamic factor setting the social system in movement the author explains the interactions between public opinion the President and the Congress which in the end resulted in the laws on votes schools and jobs He also deals with the differing machinery of sanctions and enforcement Law has a huge effect on social change and Wirt draws from his empirical study a systematic inclusive statement of the factors affecting compliance with law in conditions of conventional biases
