agriculture factors this work shows how cultural economic and political influences shaped British attitudes and policies When the entire potato crop failed in the fall of 1846 what began as an ecological disaster quickly became a political one Hampered by long standing prejudice and Anglo Irish tensions the British government s various attempts to deal with the humanitarian crisis were muddled by competing economic and social goals Among these was the idea that the Famine represented an opportunity to purge Ireland of fragmented land holding and potato dependency by encouraging an English type market driven agriculture Changes did occur but the government s imperial dreams eventually ran up against Irish realities
