In *Your Dog Can Talk*, speech pathologist and New York Times bestselling author Christina Hunger helps dog owners teach their pets to speak by using button communication, a method that allows dogs to give voice to their daily thoughts, requests, and feelings by pawing buttons that activate prerecorded words. For the first time in history, we have a window into our dogs' minds and can hear firsthand how they're experiencing the environment we share with them. When we know exactly what our pets need and are thinking about, we can better care for them, strengthen our bond, and create a relationship grounded in mutual respect and communication. *Your Dog Can Talk* is an indispensable resource for long-time dog owners, new puppy parents, and everyone in between. Using the methods she developed with her own dog Stella, Hunger shows readers how to create an easy-to-implement speech training plan for their beloved pups. Filled with simple explanations, realistic goals for owners, and step-by-step instructions, as well as helpful anecdotes from Hunger's own experiences working with thousands of dogs, *Your Dog Can Talk* makes button communication more understandable and accessible than ever before.

Making Smart Cities More Playable Anton Nijholt, 2019-07-23 This book explores the ways in which the broad range of technologies that make up the smart city infrastructure can be harnessed to incorporate more playfulness into the day-to-day activities that take place within smart cities, making them not only more efficient but also more enjoyable for the people who live and work within their confines. The book addresses various topics that will be of interest to playable cities stakeholders, including human-computer interaction and game designer communities, computer scientists researching sensor and actuator technology in public spaces, urban designers, and hopefully urban policymakers. Allison, 2019-06-04 Desire is both of and beyond the everyday. In an ad for running shoes, for example, the figure of a man jogging at dawn on the Serengeti Plain both evokes a fantasy of escape and invokes a disciplinary norm to stay fit. The bottom line for the ad, of course, is to create a desire to consume the promise being that with the purchase of these shoes, the consumer can realize yet also transcend the daily exhortation to perform. To say this differently, there is something both real and phantasmic about desire. Yet this notion seems contradictory. Isn't there a difference between the desire to be fit, for example, which is realizable, realistic, and in these senses real, and the desire to escape routine, everydayness, which for most of us is inescapable most of the time? But is exercise real or phantasmic? Certainly not everyone works out, and even those who make exercise a part of their reality may do so in order to pursue a fantasy about themselves. And are escapes from daily routines phantasmic or real? An escape from the everyday is far more realizable for some people than even fitness. But here too, what is fantasy blends into and becomes indistinguishable from the real. A vacation away from work may be a means of ensuring a higher level of work performance when one returns. **Neana and her Magical Adventures** Ida

To protect himself, Vlad does his best to avoid any real connection, but old habits die hard, and they find themselves entangled once more. The last time Geo left him, Vlad almost failed to put the pieces back together. However close they get this time, it won't change the fact: Geo has to return to his life in another country.
