Women in the History of Science Hannah Wills, Sadie Harrison, Erika Lynn Jones, Farrah Lawrence-Mackey, Rebecca Martin, 2023-03-06 Women in the History of Science brings together primary sources that highlight women s involvement in scientific knowledge production around the world Drawing on texts images and objects each primary source is accompanied by an explanatory text questions to prompt discussion and a bibliography to aid further research Arranged by time period covering 1200 BCE to the twenty first century and across 12 inclusive and far reaching themes this book is an invaluable companion to students and lecturers alike in exploring women s history in the fields of science technology mathematics

medicine and culture While women are too often excluded from traditional narratives of the history of science this book centres on the voices and experiences of women across a range of domains of knowledge By questioning our understanding of what science is where it happens and who produces scientific knowledge this book is an aid to liberating the curriculum Mary Hays (1759?1843) Gina Luria Walker, 2020-06-30 Mary Hays reformist novelist within schools and universities and innovative thinker has been waiting two hundred years to be judged in a fair scholarly and comprehensive way During her lifetime and long after her role in the ongoing reformist debates in England at the end of the eighteenth century intensified by the French Revolution served as a lightening rod for opponents who attacked her controversial stance on women s intellectual competence and human rights The author s intellectual history of Hays finally makes the case for her importance as an innovator She was a feminist thinker who advanced notions of tolerance that included women an educator who broke new ground for female autodidacts a philosophical commentator who translated Enlightenment ideas for a burgeoning female audience a Dissenting historiographer who reinvented female biography and a writer of deliberately experimental fiction including the roman clef Memoirs of Emma Courtney The author approaches Hays from several disciplinary perspectives historical biographical literary critical theological and political to elucidate the multiple ways in which Hays contributed and responded to and influenced and was influenced by the most significant issues and figures of her **The Informed Air** Muriel Spark, 2013-04-15 Now in paperback here are the sparkling essays of Muriel Spark the time writer of the best sentences in English The New Yorker A fantastic essayist the inimitable Muriel Spark addresses here the writing life cats favorite writers the Bront s T S Eliot Robert Burns Mary Shelley love Piero della Francesca life in wartime London and in glamorous Hollywood on the Tiber 1960s Rome faith and parties on her first New Year's Eve as a baby sipping her mother's sherry I always loved a party No one was as fearless and original TLS as Muriel Spark who believed that art is an act of daring Here she glides from the mysteries of Job's sufferings to Dame Edith Sitwell's cocktail advice about how to handle a nasty publisher My dear she said you must acquire a pair of lorgnettes make an occasion to see that man again focus the glasses on him and sit looking at him through them as if he was an insect Just look and look Writing the Modern Family Roberta Garrett, 2021-01-29 Although a large body of work has emerged which addresses neoliberal representations of the family in other cultural forms such as parenting advice programmes little has been written specifically on the family and contemporary literature This book examines the growing body of autobiographical and fictional writing on family and parenting issues in Anglo American culture from the late 1990s to the present day The book looks closely at six distinct genres which have arisen during this time frame the misery memoir the mum s lit popular novel the maternal confessional dads lit the dysfunctional domestic novel and the family noir Writing the Modern Family will examine the way these burgeoning areas of British and American writing respond to a neoliberal public discourse in which a parenting deficit rather than economic and structural disadvantage is responsible for increasing inequality in child welfare and achievement In

evaluating these forms and their relationship to neoliberal culture the book will also consider the complex interrelationship between these genres Weeping Britannia Thomas Dixon, 2015-09-10 There is a persistent myth about the British that we are a nation of stoics with stiff upper lips repressed emotions and inactive lachrymal glands Weeping Britannia the first history of crying in Britain comprehensively debunks this myth Far from being a persistent element in the national character the notion of the British stiff upper lip was in fact the product of a relatively brief and militaristic period of our past from about 1870 to 1945 In earlier times we were a nation of proficient sometimes virtuosic moral weepers To illustrate this perhaps surprising fact Thomas Dixon charts six centuries of weeping Britons and theories about them from the medieval mystic Margery Kempe in the early fifteenth century to Paul Gascoigne's famous tears in the semi finals of the 1990 World Cup In between the book includes the tears of some of the most influential figures in British history from Oliver Cromwell to Margaret Thatcher not forgetting George III Queen Victoria Charles Darwin and Winston Churchill along the way But the history of weeping in Britain is not simply one of famous tear stained individuals These tearful micro histories all contribute to a bigger picture of changing emotional ideas and styles over the centuries touching on many other fascinating areas of our history For instance the book also investigates the histories of painting literature theatre music and the cinema to discover how and why people have been moved to tears by the arts from the sentimental paintings and novels of the eighteenth century and the romantic music of the nineteenth to Hollywood weepies expressionist art and pop music in the twentieth century Weeping Britannia is simultaneously a museum of tears and a philosophical handbook using history to shed new light on the changing nature of Britishness over time as well as the ever shifting ways in which we express and understand our emotional lives The story that emerges is one in which a previously rich religious and cultural history of producing and interpreting tears was almost completely erased by the rise of a stoical and repressed British empire in the late nineteenth century Those forgotten philosophies of tears and feeling can now be rediscovered In the process readers might perhaps come to view their own tears in a different light as something more than mere emotional incontinence The British National Bibliography Arthur James Wells, 1993 Women and Journalism Deborah Chambers, Linda Steiner, Carole Fleming, 2004 Women and Journalism offers a rich and comprehensive analysis of the roles status and experiences of women journalists in the United States and Britain Drawing on a variety of sources and dealing with a host of women journalists ranging from nineteenth century pioneers to Martha Gellhorn Kate Adie and Veronica Guerin the authors investigate the challenges women have faced in their struggle to establish reputations as professionals This book provides an account of the gendered structuring of journalism in print radio and television and speculates about women s still emerging role in online journalism Their accomplishments as war correspondents are tracked to the present including a study of the role they played post September 11th **Anthony Burgess** Roger Lewis, 2025-06-25 Interviewer On what occasions do you lie Anthony Burgess When I write when I speak when I sleep He was the last great modernist Novelist composer librettist essayist

semanticist translator critic Anthony Burgess s versatility and erudition found expression in more than fifty books and dozens of musical compositions from operas choral works and song cycles to symphonies and concertos Here now is a kaleidoscope of a book the culmination of twenty years of writing and research about a man who remains best known for A Clockwork Orange the source of Stanley Kubrick's ground breaking mind bending and prescient film Tracking Burgess from Manchester to Malaya to Malta to Monte Carlo Roger Lewis assesses Burgess's struggles and uncovers the web of truth and illusion about the writer's famous antic disposition Burgess the author argues was just as much a literary confidence man and prankster as a consummate wordsmith Outrageously funny honest and touching Anthony Burgess explores the divisions that characterize its irascible subject and his darkly comic bleakly beautiful world of fiction Small Press, 1995 New Books on Women and Feminism ,1992 Books in Print .1991 Literature and the Monarchy Ewa Panecka, 2014-03-25 This book examines the Laureateship as an exponent of complex relations between literature and the Monarchy and defines the nature and mode of existence of laureate poetry in England from the Restoration up to the present day With the Monarchy seen as a long lasting foundation of Englishness the institution of Poet Laureateship provides a symbolic component of national identity an official link between literature culture and the Monarchy The Bookseller .1974 **Annual Report** Anti-slavery Society for the Protection of Human Rights, 1966 CBC Times Canadian Broadcasting Corporation, 1957
