Faces Of Internationalism Public Opinion And American Foreign Policy

Philip Everts, Pierangelo Isernia

Faces Of Internationalism Public Opinion And American Foreign Policy:

Faces of Internationalism Eugene R. Wittkopf, 1990 In *Faces of Internationalism* Eugene R Wittkopf examines the changing nature of public attitudes toward American foreign policy in the post Vietnam era and the role that public opinion plays in the American foreign policymaking process Drawing on new data four mass and four elite opinion surveys undertaken by the Chicago Council of Foreign Relations from 1974 to 1986 combined with sophisticated analysis techniques Wittkopf offers a pathbreaking study that addresses the central question of the relationship of a democracy to its foreign policy The breakdown of the consensus approach to American foreign policy after the Cold War years has become the subject of much analysis This study contributes to revisionist scholarship by describing the beliefs and preferences that have emerged in the wake of this breakdown Wittkopf counters traditional views by demonstrating the persistence of U S public opinion defined by two dominant and distinct attitudes in the post Vietnam war years cooperative and militant internationalism The author explores the nature of these two faces of internationalism focusing on the extent to which elites and masses share similar opinions and the political and sociodemographic correlates of belief systems Wittkopf also offers an original examination of the relationship between beliefs and preferences

Public Opinion and American Foreign Policy Ole R. Holsti, 1996 Explores the role of public opinion in the conduct of foreign relations

Public Opinion and American Foreign Policy, Revised Edition Ole Rudolf Holsti, 2009-06-25 Thoroughly revised edition of an essential text incorporating a wealth of new material on American foreign policy since 9 11 The second edition of this concise masterwork includes vast amounts of new material on American foreign policy in the post 9 11 era including the war in Iraq Holsti explores the poorly understood role of public opinion in international affairs looking at Americans capacity to make informed judgments about issues far removed from their personal experience Impressively comprehensive and current an excellent revision of a book by the 1 authority on the topic This new edition will remain at the forefront for consultation and textbook adoption on the topic for years to come Bruce Russett Yale University I thought the first edition was the best single treatment of the subject so apparently did the student who borrowed my copy and this is a worthy successor The new edition almost flawlessly accomplishes the goal Holsti sets for himself an update of his landmark book in light of emerging research and the dramatically changed state of the world that confronts U S foreign policy Randy Siverson University of California Davis For those who are curious about the impact of 9 11 on American public opinion for serious students of the relationship between foreign policy and public opinion for anyone who wants to understand contemporary American opinion about the United States place in the world and for citizens tired of conventional wisdom about a difficult and important subject Holsti s study is not only interesting and topical it is essential Maxine Isaacs Kennedy School of Government Harvard University In an age of almost weekly polling on foreign policy Holsti s insights are indispensable He delivers double tour de force in this new edition providing his own current and historical research along with a comprehensive synthesis of the existing literature His

analysis of the relationships between public opinion and foreign policy since 9 11 will prove particularly valuable for students and scholars alike Richard Eichenberg Tufts University Holsti combines a vast knowledge of political history and a mastery of the relevant scholarship with up to date empirical data to address the question of what role the general public can play in shaping foreign policy This revised edition is a remarkable achievement Shoon Murray School of International Service American University *The US Public and American Foreign Policy* Andrew Johnstone, Helen Laville, 2010-06-10 Though often overlooked public opinion has always played a significant role in the development and promotion of US foreign policy and this work seeks to comprehensively assess the impact and nature of that opinion through a collection of historical and contemporary essays The volume evaluates the role of organizations and movements that look to represent public opinion and assesses the nature of their relationship with the government The contributors utilize a number of different approaches to examine this impact including polling data assessments of the role of the media and the wider consideration of ideas and ideology moving on to examine the specific role played by the public in the policy making and policy promotion process Engaging with new questions as well as approaching old questions from a new angle the work argues that whilst the roles change and the extent of influence varies the power of the public to both initiate and constrain foreign policy clearly exists and should not be underestimated This work will be of great interest to all those with an interest in American foreign policy American politics and American history *American Foreign Policy Since the Vietnam War* Richard A Melanson, 2019-07-23 A revealing look at presidential politics and foreign policy making from the aftermath of Vietnam to the NATO intervention in Kosovo The book illuminates the relationship between presidents domestic and foreign policy priorities and the key role of public opinion in constraining presidential initiatives particularly the ability of a president to use military force overseas In case studies ranging from the invasion of Grenada through the Gulf War and the dilemmas of Somalia Haiti Bosnia and Kosovo Melanson provides compelling portraits of presidents Nixon Carter Reagan Bush and Clinton and their different efforts to forge a foreign policy consensus *American Foreign Policy and Political Ambition* James Lee Ray, 2013-08-20 In his eagerly awaited second edition of *American Foreign Policy and Political Ambition* James Ray revisits his deceptively simple premise that the highest priority of leaders is to stay in power Looking at how political ambition and domestic pressures impact foreign policymaking is the key to understanding how and why foreign policy decisions are made The text begins by using this analytic approach to look at the history of foreign policymaking and then examines how various parties inside and outside government influence decision making In a unique third section the book takes a regional approach not only covering trends other books tend to miss but giving students the opportunity to think comprehensively about how issues intersect around the globe from human security and democratization to globalization and pollution Guided by input from adopters and reviewers Ray has thoroughly re organized the book and streamlined some coverage to better consolidate the historical institutional regional and topical chapters and focus the thematic lens of the book Ray has also brought the book

fully up to date addressing the latest events in American foreign policy including the wars in Afghanistan and Iraq the killing of Bin Laden the WikiLeaks scandal and its aftermath the impact of social media on foreign policy and world affairs nuclear proliferation developments in U S Russian relations climate change and more

The Politics of United States Foreign Policy James M. Scott, Jerel A. Rosati, 2023-07-31 A comprehensive and engaging look at the players processes and politics that drive U S decisions and involvement in foreign policy

American Foreign Policy and Process James M. McCormick, 2023-11-02 Explores the values and beliefs that have shaped American foreign policy and its key decision makers across presidential administrations

Public Opinion and the International Use of Force Philip Everts, Pierangelo Isernia, 2003-12-16 Recent years have witnessed a growing interest in the relationship between public opinion and foreign policy in Western democracies This international board of contributors examine the ways in which the connection between public opinion and the use of military force has developed since the end of the Cold War In doing so it also addresses the crucial and topical question of whether and to what extent a democratic foreign policy is possible

Right and Wronged in International Relations Brian C. Rathbun, 2023-08-10 Brian Rathbun argues against the prevailing wisdom on morality in international relations both the commonly held belief that foreign affairs is an amoral realm and the opposing concept that norms have gradually civilized an unethical world By focusing on how states respond to being wronged rather than when they do right Rathbun shows that morality is and always has been virtually everywhere in international relations in the perception of threat the persistence of conflict the judgment of domestic audiences and the articulation of expansionist goals The inescapability of our moral impulses owes to their evolutionary origins in helping individuals solve recurrent problems in their anarchic environment Through archival case studies of German foreign policy the analysis of enormous corpora of text and surveys of Russian Chinese and American publics this book reorients how we think about the role of morality in international relations

The Politics of War Jean-Christophe Boucher, Kim Richard Nossal, 2017-10-15 When the Canadian government committed forces to join the military mission in Afghanistan following the terrorist attacks of September 11 2001 little did it foresee that this decision would involve Canada in a war riven country for over a decade The Politics of War explores how as the mission became increasingly unpopular Canadian politicians across the political spectrum began to use it to score points against their opponents This was politics with a vengeance Through historical analysis of the public record and interviews with officials Jean Christophe Boucher and Kim Richard Nossal show how the Canadian government sought to frame the engagement in Afghanistan as a mission rather than what it was a war They examine the efforts of successive governments to convince Canadians of the rightness of Canada s engagement the parliamentary politics that resulted from the increasing politicization of the mission and the impact of public opinion on Canada s involvement This contribution to the field of Canadian foreign policy demonstrates how much of Canada s war in Afghanistan was shaped by the vagaries of domestic politics and political gamesmanship

Routledge Handbook of American Foreign Policy Steven W.

Hook, Christopher M. Jones, 2012-04-23 No nation has maintained such an immense stature in world politics as the United States has since the Cold War's end. In the wake of the 9/11 attacks prompting the global war on terrorism and the U.S. invasion of Afghanistan and Iraq along with American economic and soft power primacy, there has been increased interest in and scrutiny of American foreign policy. The Routledge Handbook of American Foreign Policy brings together leading experts in the field to examine current trends in the way scholars study the history and theories of American conduct in the world, analysis of state and non-state actors and their tools in conducting policy, and the dynamics of a variety of pressing transnational challenges facing the United States. This volume provides a systematic overview of all aspects of American foreign policy and drives the agenda for further cutting-edge research. Contributors bring analytic depth and breadth to both the ways in which this subject is approached and the substance of policy formulation and process. The Handbook is an invaluable resource to students, researchers, scholars, and journalists trying to make sense of the broader debates in international relations.

Anchors Against Change Shoon Murray, 2002 Explores the impact of the end of the cold war on the opinions of American elites on foreign policy.

The Making of US Foreign Policy John Dumbrell, David M. Barrett, 1997 Fully revised and updated, this new edition analyses the relationship between the process and substance of US foreign policy since the mid 1960s.

Understanding War and Peace Dan Reiter, 2023-07-20 Undergraduate multi-author textbook by leading conflict scholars focusing on the roots of global conflicts and the various means used to resolve them.

American foreign policy Mohsen M. Saleh, Ishtiaq Hossain, 2011-09-28 This is a 422 pages edited volume prepared by a group of prominent scholars from US, UK, Malaysia, UAE, and Lebanon. It discusses the domestic settings of American foreign policy and analyzes its impact on issues considered vital to the Muslim world, adhering to the strict academic standards and measures. The first part of this book explains the complex foreign policy making system in the United States and assesses the role of Christian evangelicalism, neoconservatism, the media, the pro-Israel lobby, and the role of Muslim groups. The second part of the book discusses the characteristics of the American foreign policy. It presents a historical analysis of the most important issues that had an immense impact on the American foreign policy. It also analyses the impact of the US political economy on its foreign policy and asserts the need for a paradigm shift in American foreign policy. The third part of the book provides an in-depth analysis of American policy towards the most sensitive issues in the Islamic World: the Palestinian cause, Iraq invasion and occupation, Iran's nuclear issue, and Afghanistan. It also discusses the president Obama's foreign policy. The importance of this study is that it analyzes American foreign policy from the view of scholars who are mostly from the Islamic world, yet they well know the US closely through their academic background or by living and studying and teaching there. Thus, they present their objective view as they see it rather than presenting the views of American think tanks. It is a must-read book for those interested in understanding American foreign policy toward the Muslim world and specialists and students of Political Science and International Relations.

The U.S. and the Two Koreas Tong Whan Park, 1998 Presents

Public Opinion and International Intervention Richard Sobel, Peter A. Furia, Bethany Barratt, 2012-05 The role of public opinion in nations decisions to join or withdraw from the war in Iraq *Journal of Romanian Studies* Raluca Coman, Ioana Radu, 2021-10-20 The biannual peer reviewed Journal of Romanian Studies jointly developed by The Society for Romanian Studies and ibidem Press examines critical issues in Romanian studies linking work in that field to wider theoretical debates and issues of current relevance and serving as a forum for junior and senior scholars The journal also presents articles that connect Romania and Moldova comparatively with other states and their ethnic majorities and minorities and with other groups by investigating the challenges of migration and globalization and the impact of the European Union Issue No 6 is a Special Issue on Communication guest edited by Raluca Radu and Ioana Coman It contains contributions by Radu Silaghi Dumitrescu Lucian Vasile Szabo Alla Rosca Marius Dragomir Dumitri a Holdi Cristina Lupu Manuela Preoteasa Marian Voicu Antonio Momoc Onoriu Col cel Tibori Szabo Zoltan Andrei Richter Paolo Mancini Anca incan Roland Clark Dana Domsodi R Chris Davis

Crucible of Beliefs Dan Reiter, 2019-05-15 How do foreign policymakers learn from history When do states enter alliances Why have some small powers chosen to enter alliances whereas others have stayed neutral In *Crucible of Beliefs* Dan Reiter uses work in social psychology and organization theory to build a formative events model of learning in international politics History does inform the decisions of policymakers he suggests but it is history of a specific sort based on firsthand experience in major events such as wars Tested against balance of threat theory the leading realist explanation of alliance behavior Reiter s formative events model of learning emerges as a far better predictor of states decisions *Crucible of Beliefs* shows that contrary to balance of threat theory state leaders ignore the level of international threat and focus instead on avoiding past mistakes and repeating past successes A serious blow to realism these findings demonstrate that to understand the dynamics of world politics it is essential to know how leaders learn from history
