Good God Green Theology And The Value Of Creation:

Good God Jonathan Clatworthy, 1997 *Global Dictionary of Theology* William A. Dyrness, Veli-Matti Kärkkäinen, 2009-10-25 Theological dictionaries are foundational to any theological library But until now there has been no Global Dictionary of Theology a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The Global Dictionary of Theology is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the Global Dictionary of Theology is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus a distinctive feature of the Global Dictionary of Theology is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli Matti Kärkkäinen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and reveals new panoramas of theological perspective and inquiry Here is a new launching point for doing theology in today's global context **Christianity and Ecological Theology** E. M. Conradie, 2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa *Early Ecotheology and Joseph Sittler* Panu Pihkala, 2017 When did Christians begin to address environmental questions What can be learned from these pioneering thinkers This study reveals that between 1910 and 1954 many theologians called for responsibility towards nature The focal point is the work of Joseph Sittler 1904-1987 an American Lutheran and ecumenical theologian The role of these early ecotheologians is discussed in relation to environmental history and education The findings show that ecotheology was not as strongly separated from other environmentalism as it was after the 1960s Series Studies in Religion and the Environment Studien zur Religion und Umwelt Vol 12 Subject Religious Studies Environmental Studies Ecotheology Joseph Sittler *An Ecological Christian Anthropology* Ernst M. Conradie, 2017-03-02 What is the place and vocation of human beings in the earth community This is the central question that this contribution towards a Christian ecological anthropology addresses In ecological theology this question is often answered by the affirmation that We are at home on earth This affirmation rightly responds to the widespread sense of alienation from nature to the anthropocentrism that pervades much of the Christian tradition and to concerns about the scope of environmental devastation This book

challenges the affirmation that we are at home on earth examining natural suffering anxieties concerning human finitude and especially the pervasiveness of evil The book investigates contributions to ecological theology South African and African theology reformed theology and contemporary dialogues between theology and the sciences in search of a thoroughly ecological Christian anthropology *Textual Interaction* Michael Hoey,2013-06-17 *Textual Interaction* provides a clear and cogent account of written discourse analysis Each chapter introduces key concepts and analytical techniques describes important parallel work and major issues and suggests how to apply the ideas to the teaching and learning of reading and writing In this activity based book Hoey analyzes a wide variety of narrative texts and argues that in the interaction between writer and reader the reader has as much power as the writer *Thinking About Faith in God* Jonathan Clatworthy,2015-12-01 For many decades militant atheism and religious dogmatism have fed off of each other Each intellectual argument and rhetorical flourish acts as encouragement and cause for further passion in the other Into this mix author Jonathan Clatworthy offers a different alternative to reject neither reason nor God because believing in God makes sense Clatworthy starts by outlining the history of our current problem The antagonism between belief and science he says is the product of a unique history The either or dichotomy that emerged from this story is not inevitable and places us at odds with countless other cultures who find a way to hold the two in suspension Using the most common reasons for belief including design values morality and experience Clatworthy creates a compelling tapestry that commends belief in God in the scientific age An essential read for anyone interested in science spirituality and faith in the modern world *Intelligent Faith* John MacDonald Smith,John Quenby,2009-11-16 In this book a group of scientists and theologians unite to honour Charles Darwin expressing their common conviction that Darwinian evolution marks a very great advance in human understanding of the world and that Intelligent Design is an unproductive dead end Intelligent Faith will be of interest not only to thinking people with an interest in theology and science but also to sixth formers school discussion groups and university societies *From the Head Upwards* Gunter Helft,2001 *Journal of Theology for Southern Africa* ,2005

Revelation John M. Court,1994-03-01 The first question is Should Revelation be studied at all Is it monopolised by fundamentalists or of such a minority interest that it doesn t belong in the New Testament This study guide introduces the text anew by a series of thematic readings The text is seen to deal with essential themes God and Christ the Church in the World Creation and the end of the Universe Politics and Rival Powers and the Future Hope Special attention is paid to the living traditions within which Revelation is interpreted including art literature and music Not only does this guide seek to orientate the reader within the whole range of the text and its traditions it also focusses discussion in three substantial chapters dealing in turn with the key literary historical and theological issues raised How can one describe Revelation s literary character From what historical and social context did it come What are its abiding theological values and doctrines This study is set in the context of modern approaches to the biblical text and is supported by selected bibliographies and

Help My Unbelief!* Veli-Matti Kärkkäinen,2024-07-01 This innovative book introduces main Christian doctrines and beliefs for thoughtful Christians and seekers in a manner understandable and meaningful for people living in a religiously pluralistic complex and secular world Different from any other titles available it engages not only Christian tradition and Bible but also the insights from natural sciences and four living faiths and their

Trinitarian Challenge to Individualism Steve Pearson, 2025-08-05 In today's market driven world the relationship between faith and work is vital for every Christian in the workforce This book examines how much Christian thinking on the subject needs a radical shift Traditionally the focus has been on how Christians can influence the marketplace often overlooking the profound ways the market shapes our theology With a fresh perspective the book centers on identity contrasting today's individualism with the relational model of the Trinity It argues that the market can erode our Christian identity and distort our theology often without us being aware Through the insights of British theologian Colin Gunton who explored the Trinity's connection to identity and the work of Timothy Keller on faith and work the book reveals a crucial truth our understanding of identity is not relational enough To truly engage meaningfully at the intersection of faith and work our foundational theology must be reframed **Religious Philosophies and Environmental Ethics** Muzzamel Hussain
