Desjarlais s graceful ethnography explores the life histories of two Yolmo elders focusing on how particular sensory
orientations and modalities have contributed to the making and the telling of their lives These two are a woman in her late
eighties known as Kisang Omu and a Buddhist priest in his mid eighties known as Ghang Lama members of an ethnically
Tibetan Buddhist people whose ancestors have lived for three centuries or so along the upper ridges of the Yolmo Valley in
north central Nepal It was clear through their many conversations that both individuals perceived themselves as nearing
death and both were quite willing to share their thoughts about death and dying The difference between the two was
remarkable however in that Ghang Lama s life had been dominated by motifs of vision whereas Kisang Omu s accounts of her
life largely involved a theatre of voices Desjarlais offers a fresh and readable inquiry into how people s ways of sensing the
world contribute to how they live and how they recollect their lives **The Late Rev. J. D.... in the Pulpit and at the**

anthropological fieldwork in Kenya in the 1970s Using his fieldnotes and letters home to bring to life the voices of those he
met Fratkin invites the reader to experience his cross cultural friendships with the enigmatic laibon a diviner and healer of
the Samburu and Maasai peoples Lonyoki his family and the people of the nomadic community of Lukumai Fratkin
participated in the daily lives of the Ariaal livestock herders and accompanied the laibon as he performed divination and
healing rituals throughout Marsabit and Samburu Districts After Fratkin reunited Lonyoki with his son and wife Lonyoki
adopted Fratkin into his family and Fratkin continues his close friendship with Lonyoki s son Lembalen today Black and white
photographs a guide to the characters words and places and a list of suggested readings supplement the engaging narrative
Laibon is more than a memoir it delves into nitty gritty details of fieldwork speaks to larger questions about ethnographic
research and provides unparalleled insight into the world of the laibon **American Machinist** ,1916
