Good Jobs Wanted:

Good Jobs Wanted Inter-American Development Bank, 2003 Annotation There is a widespread perception that the structural reforms implemented in Latin America in the 1990s have failed to spur employment growth This perception is fueled by rising unemployment slow wage growth rising wage inequalities and a heightened sense of economic insecurity This year's edition of *Economic and Social Progress in Latin America* investigates whether this disappointing outcome can be explained by an abnormal adjustment to rapid changes in goods and capital markets increased female participation in the workplace technological change and secular changes in the sector composition of output In particular the book examines whether there are important demands for change that are being thwarted by inappropriate institutions and rigidities The report documents unemployment and underemployment employment creation and destruction productivity growth and the wage level and inequality It includes a CD ROM with data on labor markets in the region *The American Artisan*, 1916
