

Doing good is always the right thing to do!

- It is good to have a merciful and respectful attitude.
 - We can correctly judge sin, and evil that we see in people without slandering them.
- We need to be people of not good, but great manners!
 - A quarrelsome attitude makes a poor witness for Christ.

Christopher Coker, 2014-12-15 The Improbable War explains why conflict between the USA and China cannot be ruled out In 1914 war between the Great Powers was considered unlikely yet it happened We learn only from history and popular though the First World War analogy is the lessons we draw from its outbreak are usually mistaken Among these errors is the tendency to over estimate human rationality All major conflicts of the past 300 years have been about the norms and rules of the international system In China and the US the world confronts two exceptional powers whose values differ markedly with China bidding to challenge the current order The Thucydidean Trap when a conservative status quo power confronts a rising new one may also play its part in precipitating hostilities To avoid stumbling into an avoidable war both Beijing and Washington need a coherent strategy which neither of them has History also reveals that war evolves continually The next

global conflict is likely to be played out in cyberspace and outer space and like all previous wars it will have devastating consequences Such a war between the United States and China may seem improbable but it is all too possible which is why we need to discuss it now Philosophical Letters of David K. Bakker,2018-03-15 Applying linguistic theory to the study of Homeric style Egbert J Bakker offers a highly innovative approach to oral poetry particularly the poetry of Homer By situating formulas and other features of oral style within the wider contexts of spoken language and communication he moves the study of oral poetry beyond the landmark work of Milman Parry and Albert Lord One of the book s central features related to the research of the linguist Wallace Chafe is Bakker s conception of spoken discourse as a

sequence of short speech units reflecting the flow of speech through the consciousness of the speaker Bakker shows that such short speech units are present in Homeric poetry with significant consequences for Homeric metrics and poetics Considering Homeric discourse as a speech process rather than as the finished product associated with written discourse Bakker's book offers a new perspective on Homer as well as on other archaic Greek texts Here Homeric discourse appears as speech in its own right and is freed Bakker suggests from the bias of modern writing style which too easily views Homeric discourse as archaic implicitly taking the style of classical period texts as the norm Bakker's perspective reaches beyond syntax and stylistics into the very heart of Homeric and ultimately oral poetics altering the status of key features such as meter and formula rethinking their relevance to the performance of Homeric poetry and leading to surprising insights into the relation between speech and text in the encounter of the Homeric tradition with writing
