Dean, 2006 From radical abolitionist John Brown to presidential candidate Bob Dole to visionary environmentalist Wes Jackson Kansas history is bursting with fascinating stories of individuals who made a difference to the nation and whose lives reveal much about our collective past Prominent Kansas historian Virgil Dean has gathered a distinguished team of writers Thomas Isern Craig Miner and others who have crafted incisive portraits of 27 notable men and women covering 150 years of Kansas and American history Here are agitators who moved their fellow citizens to action over political social and economic problems not only John Brown but also proslavery agitator William H Russell Mary Elizabeth Lease lecturer for the Farmers Alliance and Populist Party Gerald B Winrod a k a the Jayhawk Hitler and Esther Brown who challenged segregation in public schools **The Lever of Riches** Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and

innovations that have transformed society since ancient Greece and Rome. What emerges from this survey is often surprising: the classical world for instance was largely barren of new technology; the relatively backward society of medieval Europe bristled with inventions; and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution. What were the causes of technological creativity? Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas. He discusses a long list of such factors showing how they interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China, between classical antiquity and medieval Europe, and between Britain and the rest of Europe during the industrial revolution. He examines such aspects as the role of the state, the Chinese gave up a millennium-wide lead in shipping to the Europeans for example when an Emperor banned large ocean-going vessels; the impact of science as well as religion, politics, and even nutrition. He questions the importance of such commonly cited factors as the spill-over benefits of war, the abundance of natural resources, life expectancy, and labor costs. Today an ever greater number of industrial economies are competing in the global market, locked in a struggle that revolves around technological ingenuity. The *Lever of Riches* with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential.

**The Concise Oxford Companion to African American Literature** William L. Andrews, Frances Smith Foster, Trudier Harris, 2001-02-15. A breathtaking achievement, this Concise Companion is a suitable crown to the astonishing production in African American literature and criticism that has swept over American literary studies in the last two decades. It offers an enormous range of writers from Sojourner Truth to Frederick Douglass, from Zora Neale Hurston to Ralph Ellison, and from Toni Morrison to August Wilson. It contains entries on major works including synopses of novels such as Harriet Jacobs's *Incidents in the Life of a Slave Girl*, Richard Wright's *Native Son*, and Lorraine Hansberry's *A Raisin in the Sun*. It also incorporates information on literary characters such as Bigger Thomas, Coffin Ed Johnson, Kunta Kinte, Sula, and Peace, as well as on character types such as Aunt Jemima, Brer Rabbit, John Henry, and Stackolee, and the trickster. Icons of black culture are addressed, including vivid details about the lives of Muhammad Ali, John Coltrane, Marcus Garvey, Jackie Robinson, John Brown, and Harriet Tubman. Here too are general articles on poetry, fiction, and drama; on autobiography, slave narratives, Sunday School literature, and oratory, as well as on a wide spectrum of related topics. Compact yet thorough, this handy volume gathers works from a vast array of sources, from the black periodical press to women's clubs, making it one of the most substantial guides available on the growing, exciting world of African American literature.

**Political Economy, Race, and the Image of Nature in the United States, 1825-1878** Evan Robert Neely, 2024-05-01. Political Economy, Race, and the

Image of Nature in the United States 1825-1878 is an interdisciplinary work analyzing the historical origins of a dominant concept of Nature in the culture of the United States during the period of its expansion across the continent. Chapters analyze the ways in which Nature became a discursive site where theories of race and belonging, adaptation and environment, and the uses of literary and pictorial representation were being renegotiated, forming the basis for an ideal of the human and the nonhuman world that is still with us. Through an interdisciplinary approach involving the fields of visual culture, political economy, histories of racial identity, and ecocritical studies, the book examines the work of seminal figures in a variety of literary and artistic disciplines and puts the visual culture of the United States at the center of intellectual trends that have enormous implications for contemporary cultural practice. The book will be of interest to scholars working in art history, visual culture, American studies, environmental studies, ecocriticism, critical race theory, and semiotics.

**Black Genius** Dick Russell, 2009-02-02. Intimate in depth portraits, interviews, and essays of America's black leaders from the founding of the nation and Frederick Douglass to the 2008 presidential race and Barack Obama. Each figure is interconnected with the next, exploring themes of family and intergenerational community, spirituality and diligence, activism and struggle. These remarkable portraits reveal the true spirit of the American pioneers who forged much of the heart of this nation but whose achievements have been largely overlooked. New York Times bestselling author Dick Russell examines the lives of musicians, civil rights leaders, philosophers, writers, and actors including Duke Ellington, Will Marion Cook, Louis Armstrong, Wynton Marsalis, Albert Murray, Ralph Ellison, Toni Morrison, and Romare Bearden. Concluding with a list of sources and suggested reading, this fascinating and vibrant look at American history is a must for any collection.

*The World of Shaft* Steve Aldous, 2015-10-05. Mention Shaft and most people think of Gordon Parks' seminal 1971 film starring Richard Roundtree in a leather coat walking the streets of Manhattan to Isaac Hayes' iconic theme music. But the black private dick who inspired the blaxploitation film genre actually made his debut on the printed page as the creation of a white novelist. Ernest Tidyman was a seasoned journalist down on his luck when he decided to try his hand at fiction. Shaft was the result, giving Tidyman the break he was looking for. He went on to become an Academy Award-winning screenwriter and respected film producer. Based on extensive research of Tidyman's personal papers, this book tells the story of Shaft from the perspective of his creator. The author provides new insight and analysis of the writing of the Shaft novels as well as the production of the films and TV series. First-ever coverage of the forgotten Shaft newspaper comic strip includes previously unseen artwork. Also included is Shaft's recent reappearance on the printed page in both comic book and prose form.
