Total Undersea War Aaron S. Hamilton, 2020-05-30 An analysis of the air mast equipped German U boats in World War II and Allied countermeasures During the last year of World War II the once surface bound diesel electric U boat ushered in the age of total undersea war This was due to the introduction of an air mast or snorkel as it became known among the men who served in Doenitz s submarine fleet U boats no longer needed to surface to charge batteries or refresh air they rarely communicated with their command operating silently and alone among the shallow coastal waters of the United Kingdom and across to North America At first U boats could remain submerged continuously for a few days then a few weeks and finally for months at a time and they set underwater endurance records not broken for nearly a quarter of a century The introduction of the snorkel was of paramount concern to the Allies who strived to frustrate the impact of the device before war s end Every subsequent wartime U boat innovation was subordinated to the snorkel including the new Type XXI Electro boat wonder weapon The snorkel s introduction foreshadowed the nearly un trackable weapon and instrument of intelligence that the submarine became in the postwar world *Total Undersea War* answers many long standing questions about the last year of the war How and why did U boats patrol so close inshore How effective was acoustic and anti radar camouflage Why was U boat wireless communication so problematic How did U boats navigate so effectively submerged What were the health implications of staying submerged for a month or more What does an accurate snorkel configuration look like This previously unpublished historical data is applied to a maritime archaeological case study about how the snorkel equipped U 869 likely met its demise off the United States east coast in February 1945 The theory that emerges based on a precise understanding of late war snorkel operations is new and compelling This exhaustive study the first of its kind draws upon wartime documents from archives around the world to re evaluate the last year of the U boat s deployment all its key technological innovations the evolving operations and tactics and Allied countermeasures It is destined to become an authoritative reference on late war U boat development for historians and maritime archaeologists alike for years to come Praise for *Total Undersea War* The snorkel s powerful influence during the Battle of the Atlantic is reflected in this riveting book that is filled with action photographs schematics and page turning accounts of the great advantage given to the German navy by this revolutionary piece of equipment *Maritime Engineering Journal*

Pioneer Photographers from the Mississippi to the Continental Divide Peter E. Palmquist, Thomas R. Kailbourn, 2005 This biographical dictionary of some 3 000 photographers and workers in related trades active in a vast area of North America before 1866 is based on extensive research and enhanced by some 240 illustrations most of which are published here for the first time The territory covered extends from central Canada through Mexico and includes the United States from the Mississippi River west to but not including the Rocky Mountain states Together this

volume and its predecessor *Pioneer Photographers of the Far West A Biographical Dictionary 1840 1865* comprise an exhaustive survey of early photographers in North America and Central America excluding the eastern United States and eastern Canada This work is distinguished by the large number of entries by the appealing narratives that cover both professional and private lives of the subjects and by the painstaking documentation It will be an essential reference work for historians libraries and museums as well as for collectors of and dealers in early American photography In addition to photographers the book includes photographic printers retouchers and colorists and manufacturers and sellers of photographic apparatus and stock Because creators of moving panoramas and optical amusements such as dioramas and magic lantern performances often fashioned their works after photographs the people behind those exhibitions are also discussed
