Frankel, 1990 At one time or another almost all boaters and many non boaters fantasize about leaving behind the house lawn and neighbors and moving aboard a boat But leaving behind a familiar comfortable lifestyle for the Perils Of The Sea is a quantum leap not to be taken lightly That so few actually make the break has less to do with the rigors of the lifestyle than the lack of information about what it's really like Since 1972 Living Aboard Journal has served as an idea exchange for the members of the Homafloote Association live aboards from all walks of life spread all around the globe Fueled by 18 years of the best letters articles and firsthand accounts from Living Aboard magazine Gently With the Tides is a powerful testimonial to the lure and romance of living aboard a boat It is also a compendium of the pitfalls disappointments and setbacks Most of all it is a high octane dream feeder for liveaboard aspirants It will help them decide whether to do it will tell them how to and most important it will fill their dreams with why to A Taste of Power Katharina Vester, 2015-10-02 A Taste of Power is an investigation of the crucial role culinary texts and practices played in the making of cultural identities and social hierarchies since the founding of the United States Nutritional advice and representations of food and eating including cookbooks literature magazines newspapers still life paintings television shows films and the internet have helped throughout American history to circulate normative claims about citizenship gender performance sexuality class privilege race and ethnicity while promising an increase in cultural capital and social mobility to those who comply with the prescribed norms The study examines culinary writing and practices as forces for the production of social order and at the same time as points of cultural resistance against hegemonic norms especially in shaping dominant ideas of nationalism gender and sexuality suggesting that eating right is a gateway to becoming an American a good citizen an ideal man or a perfect mother Cookbooks as a low prestige literary form became the largely unheralded vehicles for women to participate in nation building before they had access to the vote or public office for middle class authors to assert their class privileges for men to claim superiority over

women even in the kitchen and for Lesbian authors to reinscribe themselves into the heteronormative economy of culinary culture The book engages in close reading of a wide variety of sources and genres to uncover the intersections of food politics and privilege in American culture Provided by publisher
