Icelandic Spiritualism Mediumship And Modernity In Iceland:

Icelandic Spiritualism Loftur Reimar Gissurarson, 2018-01-16 Icelandic Spiritualism is an engaging social anthropological study of the place of spiritualism in Icelandic church and society during the first half of the twentieth century Challenging standard theoretical approaches to the study of religion the book contributes a wealth of data on the history of religion and psychical research presenting it in a vivid descriptive narrative The authors trace the role of the spirit world in Icelandic culture giving particular attention to the distinctive history of Iceland's conversion to Christianity They focus on the appearance of modern spiritualism as a distinct phenomenon in Icelandic life The book studies the interaction between various groups in fin de siecle Icelandic society not least in the state church as mediumistic phenomena became widely reported through the newspapers To some Icelandic spiritualism may be considered a deviant case of Protestantism What makes this book interesting however is that the spiritualism is seen as integral to Iceland's transition to modernity While Icelandic Spiritualism concentrates mainly on the first half of the twentieth century it also provides a summary of the continuation of spiritualist phenomena up to the current period This intriguing study will be of interest to theologians philosophers sociologists psychologists and anthropologists **The Spiritualist Movement** Christopher M. Moreman, 2013-08-27 At once controversial and intriguing Spiritualism has spread from the United States to become a global movement Bringing together perspectives from within the movement and without this unique collection treats readers to insights about Spiritualism's history belief and practice Based on the belief that the dead can communicate with the living through mediums Spiritualism touches concepts as timelessly fascinating as human mortality and the continuing existence of the soul beyond bodily death This comprehensive work will help readers parse the mysteries of this uniquely American religion through three thematically organized volumes Spiritualism in the U S and Globally Evidence and Beliefs and Cultural and Social Issues Drawing on fields as diverse as psychology sociology religious studies anthropology history ethnic and gender studies literature and art this broad based collection frames Spiritualism through the views of a team of international scholars Among the many things that separate Spiritualism from mainstream religions is the involvement of women in central leadership roles Such cultural and political elements of the movement are one aspect of this study Of equal interest to believers and skeptics alike will be the work of scholars who have devoted themselves to examining the claim that communication through mediums proves the existence of life after death The Survival Hypothesis Adam I. Rock, 2014-04-04 Contemporary parapsychology tends to be preoccupied with ESP telepathy clairvoyance precognition and psychokinesis In contrast this cutting edge anthology assembles an international team of experts from the fields of psychology parapsychology philosophy anthropology and neuroscience to examine critically what is referred to as the survival hypothesis the tentative statement or prediction that some aspect of our personhood e g consciousness persists subsequent to the death of the physical body The appraisal of the survival hypothesis will be restricted to the phenomenon of

mediumship that is humans who ostensibly communicate with the deceased The book has been divided into four main sections Explanation and Belief Culture Psychopathology and Psychotherapy Empirical Approaches The Present and Future The issue of postmortem survival is supremely relevant to us all because the human encounter with death is of course a Guided by Spirit Charles F. Emmons PhD, Penelope Emmons MSW, 2003-03-03 AN INVITATION TO A JOURNEY What do spirit mediums themselves think about what they do What do scientists and Spiritualists think about messages from the spirit world We are a social scientist and a psychotherapist who have spent ten years answering these questions Acting as mediums ourselves we question and marvel at our own experiences To learn more we interviewed 40 mediums and studied the lives of 80 others Journey with us INTO THE MIND OF THE MEDIUM The Secularization **Debate** William H. Swatos (Jr.), 2000 Introduced to social scientific audiences by Max Weber the concept of secularization has had a major influence on the way in which religion has been understood in the West But at least since the late 1980s both the predictive and the descriptive adequacy of this concept have been seriously challenged In the face of this challenge The Secularization Debate offers a timely summary of the critical issues that have arisen over the past decade With its wide range of essays by prominent international scholars The Secularization Debate is sure to become a pivotal volume for anyone interested in the hotly contested concept of secularization and its continued relevance to the study of religion Ghosts Michele Hanks, 2025-04-28 Based on ethnographic research in England Doubting Ghosts explores the paradoxes faced by paranormal investigators or ghost hunters in spite of spending significant time observing and documenting what they suspect to be paranormal phenomena in a scientific secular and rational fashion many paranormal investigators remain skeptical about the existence of the paranormal What then does it mean to regularly see ghosts and yet to not believe ghosts are real Examining the manner in which the scientific approach adopted by investigators produces profound doubts about the existence of the paranormal the meaning of science and the nature of modernity the author demonstrates that doubt itself is central to experiences of secularity and that doubt can constitute a foundation for long term engagements with the paranormal Thus paranormal investigators are able to sustain a relationship albeit an uneasy one with the paranormal while maintaining a commitment to a scientific secular and rational worldview A contribution to understandings of doubt science religion and disenchantment this book will appeal to scholars of sociology and anthropology **Redefining Shamanisms** David Gordon Wilson, 2013-01-31 Spiritualism and mediumship are often regarded as the product of lingering superstition in the Victorian era and as having limited relevance in modern Anglo American society Scholarship to date which has considered Spiritualism as a distinct religious tradition has focussed on analysing the phenomenon in terms of spirit possession only This volume analyses the development of shamanism communication with the spiritual world as a concept within North American English speaking scholarship with particular focus on Mircea Eliade s influential cross cultural presentation of shamanism By re examining the work of Sergei Shirokogoroff one of Eliade's principal sources the traditional

Evenki shamanic apprenticeship is compared and identified with the new Spiritualist apprenticeship The author demonstrates that Spiritualism is best understood as a traditional shamanism as distinct from contemporary appropriations or neo shamanisms. He argues that shamanism is the outcome of an apprenticeship in the management of psychic experiences and which follows the same pattern as that of the apprentice medium In doing so the author offers fresh insights into the mechanisms that are key to sustaining mediumship as a social institution Bringing the Sacred Down to Earth Corinne G. Dempsey, 2012 Corinne Dempsey offers a study of Hindu and Christian Indian and Euro American earthbound religious expressions She argues that official religious political and epistemological systems tend to deny sacred access and expression to the general populace Fairies, Demons, and Nature Spirits Michael Ostling, 2017-11-23 This book examines the fairies demons and nature spirits haunting the margins of Christendom from late antique Egypt to early modern Scotland to contemporary Amazonia Contributions from anthropologists folklorists historians and religionists explore Christian strategies of encompassment and marginalization and the small gods undisciplined tendency to evade such efforts at exorcism Lurking in forest or fairy mound chuckling in dark corners of the home or of the demoniac s body the small gods both define and disturb the borders of a religion that is endlessly syncretistic and in endless active denial of its own syncretism The book will be of interest to students of folklore indigenous Christianity the history of science and comparative The Healing Power of Spirituality J. Harold Ellens, 2009-12-30 This three volume set addresses how the role of religion spirituality and its constructive expressions in various religions and outside of formal religion enhances human personality and experience Theologian and acclaimed scholar J Harold Ellens now offers a breakthrough work on the positive impact of faith In The Healing Power of Spirituality and Religion an extraordinary group of scholars discuss the latest scientific research into the connection between belief and psychological and physical well being Each volume of The Healing Power of Spirituality focuses on a specific aspect of the scientific exploration of faith and well being volume one examines the healing power of personal spiritualities like I Ching and Transcendentalism volume two looks at the subject in the context of Christianity Iudaism and other world faiths and volume three explores the psychodynamics of healing spirituality and religion including the role of biochemical and chemical reactions in heightening psychospiritual apperception Bridges Between Worlds Corinne G. Dempsey, 2017 Keeping track a glossary of characters Bridging worlds with Andleg M l Roots and layers of Andleg M l Science and skepticism belief and blasphemy Skyggnig fa the gift that keeps on giving Trance work Healers and healing Leaps of geography and faith The Anthropology of Religious Conversion Andrew Buckser, Stephen D. Glazier, 2003-08-18 The Anthropology of Religious Conversion paints a picture of conversion far more complex than its customary image in anthropology and religious studies Conversion is very seldom simply a sudden moment of insight or inspiration it is a change both of individual consciousness and of social belonging of mental attitude and of physical experience whose unfolding depends both on its cultural setting and on the distinct individuals who undergo it The book

explores religious conversion in a variety of cultural settings and considers how anthropological approaches can help us understand the phenomenon Fourteen case studies span historical and geographical contexts including the contemporary United States modern and medieval Europe and non western societies in South Asia Melanesia and South America They discuss conversion to Christianity Judaism Hinduism Islam and Spiritualism Combining ethnographic description with theoretical analysis authors consider the nature and meaning of conversion its social and political dimensions and its Nine Worlds of Seid-Magic Jenny Blain, 2003-09-02 This accessible study of relationship to individual religious experience Northern European shamanistic practice or seidr explores the way in which the ancient Norse belief systems evoked in the Icelandic Sagas and Eddas have been rediscovered and reinvented by groups in Europe and North America The book examines the phenomenon of altered consciousness and the interactions of seid workers or shamanic practitioners with their spirit worlds Written by a follower of seidr it investigates new communities involved in a postmodern quest for spiritual meaning Acts of Faith Rodney Stark, Roger Finke, 2000-08-01 Finally social scientists have begun to attempt to understand religious behavior rather than to discredit it as irrational ignorant or foolish and Rodney Stark and Roger Finke have played a major role in this new approach Acknowledging that science cannot assess the supernatural side of religion and therefore should not claim to do so Stark and Finke analyze the observable human side of faith In clear and engaging prose the authors combine explicit theorizing with animated discussions as they move from considering the religiousness of individuals to the dynamics of religious groups and then to the religious workings of entire societies as religious groups contend for support The result is a comprehensive new paradigm for the social scientific study of religion Burnett Tylor, Religion and Culture Paul-François Tremlett, Graham Harvey, Liam T. Sutherland, 2017-09-21 Through revisiting and challenging what we think we know about the work of Edward Burnett Tylor a founding figure of anthropology this volume explores new connections and insights that link Tylor and his work to present concerns in new and important ways At the publication of Primitive Culture in 1871 Tylor was at the centre of anthropological research on religion and culture but today Tylor s position in the anthropological canon is rarely acknowledged Edward Burnett Tylor Religion and Culture does not claim to present a definitive new Tylor The old Tylor the founder of British anthropology the definer of religion the intellectualist the evolutionist the liberal the utilitarian the avatar of white Protestant rationalism the Tylor of the canon remains Part I explore debates and contexts of Tylor's lifetime while the chapters in Part II explore a series of new Tylors including Tylor the ethnographer and Tylor the Spiritualist re writing the legacy of the founder of anthropology in the process Edward Burnett Tylor Religion and Culture is essential reading for anyone interested in the study of religion and the anthropology of religion **Everyday Sacred** Hillary Kaell, 2017-11-07 Over the last decade there has been ongoing discussion about the place of religion in Qu b cois society particularly following the proposed Charter of Quebec Values in 2013 The essays in Everyday Sacred emerged from this active and often tense period of debate Revitalizing an awareness of

how people encounter create and employ religion in everyday life contributors to this volume explore communities networks of beliefs traditions and relationships Through broad comparisons beyond the Quebec context contributors look at African Pentecostal congregations an Iragi Jewish community in Montreal a rural Catholic parish on the Saint Lawrence River and Tewehikan drumming in Wemotaci They also examine wayside crosses places of pilgrimage and devotion debates on the regulation of the hijab and the place of Montreal Spiritualists and transhumanists in the religious landscape Seeking a holistic definition of Qu b cois religion Everyday Sacred considers religious and secular identity pluralism the bodily and material aspects of religion the impact of gender on community and the public sphere and the rise of hybridity sociality and new technologies in transnational and online networks in order to uncover the transmission of practices and beliefs from one generation to another Disrupting familiar dichotomies between Catholicism and other religions founders and immigrants new religious movements and traditional institutions Everyday Sacred marks the beginning of a sustained conversation on contemporary religion in Quebec both inside and outside of the province Contributors include Emma Anderson University of Ottawa Randall Balmer Dartmouth College H l ne Charron Universit Laval Elysia Guzik University of Toronto Laurent J r me Universit du Qu bec Montr al Norma B Joseph Concordia University Cory Andrew Labrecque Universit Laval Deirdre Meintel Universit de Montr al G raldine Mossi re Universit de Montr al Fr d ric Parent Universit de Qu bec Montr al Meena Sharify Funk Wilfrid Laurier University Where God and Science Meet Patrick McNamara Ph.D., 2006-09-30 Spiritual practices or awakenings have an impact on brain mind and personality These changes are being scientifically predicted and proven For example studies show Buddhist priests and Franciscan nuns at the peak of religious feelings show a functional change in the lobes of their brain Similar processes have been found in people with epilepsy which Hippocrates called the sacred disease New research is showing that not only does a person s brain activity change in particular areas while that person is experiencing religious epiphany but such events can be created for some people even self professed atheists by stimulating various parts of the brain In this far reaching and novel set experts from across the nation and around the world present evolutionary neuroscientific and psychological approaches to explaining and exploring religion including the newest findings and evidence that have spurred the fledgling field of neurotheology It is not the goal of neurotheology to prove or disprove the existence of God but to understand the biology of spiritual experiences Such experiences seem to exist outside time and space caused by the brain for some reason losing its perception of a boundary between physical body and outside world and could help explain other intangible events such as altered states of consciousness possessions alien visitations near death experiences and out of body events Understanding them as well as how and why these abilities evolved in the brain could also help us understand how religion contributes to survival of the human race Eminent contributors to this set help us answer questions including How does religion better our brain function What is the difference between a religious person and a terrorist who kills in the name of religion Is there one site or function in the brain necessary for religious experience

Butinage Yonatan N. Gez, Yvan Droz, Jeanne Rev, Edio Soares, 2021-03-01 Based on comparative ethnographic research in four countries and three continents Butinage The Art of Religious Mobility explores the notion of religious butinage as a conceptual framework intended to shed light on the dynamics of everyday religious practice Derived from the French word butiner which refers to the foraging activity of bees and other pollinating insects this term is employed by the authors metaphorically to refer to the to ing and fro ing of believers between religious institutions Focused on urban predominantly Christian settings in Brazil Kenya Ghana and Switzerland Butinage examines commonalities and differences across the four case studies and identifies religious mobility as existing at the meeting points of religious institutional rules and narratives social norms and individual agency and practice Drawing on anglophone francophone and lusophone academic traditions Butinage is dedicated to a dialogue between ethnographic findings and theoretical ideas and explores how we may rethink The Triumph of Faith Rodney Stark, 2023-08-22 God is not dead Wall common conceptions of religious normativity Street Journal Believe it or not the world is more religious than ever before Everyone seems to take it for granted that the world is getting more secular that faith is doomed by modernity Scientists secularists and atheists applaud the change religious believers lament it But here s the thing they re all wrong and the bestselling author and influential scholar of religion Rodney Stark has the numbers to prove it The Triumph of Faith explodes the myth that people around the world are abandoning religion Stark marshals an unprecedented body of data surveys of more than a million people in 163 nations to paint the full picture that both scholars and popular commentators have missed And he explains why the astonishing growth of religion is happening and what it means for our future Stark's bracing book is full of insights that defy the conventional wisdom With vigorous prose he reveals Why claims about Millennials lack of religion are overblown and historically ignorant Why Islam is NOT overtaking Christianity How 4 out of 5 people worldwide now belong to an organized religion How 50 percent have attended a worship service in the past week Why much ballyhooed studies from the Pew Research Center and others get the religious landscape wrong Why atheists remain few anywhere despite all the talk of the New Atheism As Stark shows secularists have been predicting the imminent demise of religion for centuries It is their unshakable faith in secularization that may be the most irrational of all beliefs As the author of How the West Won The Victory of Reason and many other bestselling works Rodney Stark has a richly deserved reputation for writing page turning myth busting books He is also a groundbreaking scholar who has so reshaped the social scientific study of religion that his work has become the basis of a new paradigm Stark puts all those talents on full display in The Triumph of Faith This book will change how you Magnús Eiríksson Gerhard Schreiber "Jon Stewart "2017-03-06 The see both religion and the forces of secularization present volume is the first anthology devoted to the Icelandic theologian and religious author Magn's Eir ksson 1806 81 a forgotten contemporary of S ren Kierkegaard in Golden Age Denmark With his remarkably modern views thoughts and ideas of society politics and religion Eir ksson has taken on the role of a widely unknown pioneer in various contexts As early as in
