Idea Of A Social Science And Its Relation To Philosophy

Peter Winch

Idea Of A Social Science And Its Relation To Philosophy:

The Idea of a Social Science and Its Relation to Philosophy Peter Winch, 1990 This classic text attempts to locate the social sciences on the intellectual map utilizing the insights of Wittgenstein Includes a new preface by the author **The Idea of a Social Science and Its Relation to Philosophy** Peter Winch, 1989 *The Idea of a Social Science and Its Relation to Philosophy* Peter Guy WINCH, 1958 Historical Understanding and Ethics in Social Science Leonidas Tsilipakos, 2025-03-14 Can social scientific description capture the historically individual Is the idea of an ethically committed social science morally defensible This book offers a critical historically grounded perspective on these perennial methodological and ethical problems in their current forms It provides a series of in depth examinations of recent work by prominent authors in sociology and philosophy The book draws on the thought of Peter Winch to provide a coherent response to the core issues that underlie past and present debate in social science and to provide a solid basis for future inquiry It will be of particular interest to social scientists philosophers and historians and to anyone seeking a clear grasp of the demands made by historical understanding and ethics on the study of society Legal Theory and the Social Sciences Maksymilian Del Mar, 2017-07-05 Ever since H L A Hart s self description of *The Concept of Law* as an exercise in descriptive sociology contemporary legal theorists have been debating the relationship between legal theory and sociology and between legal theory and social science more generally There have been some who have insisted on a clear divide between legal theory and the social sciences citing fundamental methodological differences Others have attempted to bridge gaps revealing common challenges and similar objects of inquiry Collecting the work of authors such as Martin Krygier David Nelken Brian Tamanaha Lewis Kornhauser Gunther Teubner and Nicola Lacey this volume the second in a three volume series provides an overview of the major developments in the last thirty years The volume is divided into three sections each discussing an aspect of the relationship of legal theory and the social sciences 1 methodological disputes and collaboration 2 common problems especially as they concern different modes of explanation of social behaviour and 3 common objects including most prominently the study of language in its social context and normative pluralism **There is No Such Thing as a Social Science** Phil Hutchinson, Rupert Read, Wes Sharrock, 2016-02-17 The death of Peter Winch in 1997 sparked a revived interest in his work with this book arguing his work suffered misrepresentation in both recent literature and in contemporary critiques of his writing Debates in philosophy and sociology about foundational questions of social ontology and methodology often claim to have adequately incorporated and moved beyond Winch s concerns Re establishing a Winchian voice the authors examine how such contentions involve a failure to understand central themes in Winch s writings and that the issues which occupied him in his *Idea of a Social Science and its Relation to Philosophy* and later papers remain central to social studies The volume offers a careful reading of the text in alliance with Wittgensteinian insights and alongside a focus on the nature and results of social thought and inquiry It draws parallels with other movements in the social studies notably

ethnomethodology to demonstrate how Winch's central claim is both more significant and more difficult to transcend than sociologists and philosophers have hitherto imagined

Phenomenology, Language and the Social Sciences Maurice Roche, 2013-10-23 This book looks at two revolutions in philosophy phenomenology and conceptual analysis which have been influential in sociology and psychology It discusses humanistic psychiatry and sociological approaches to the specific area of mental illness which counter the ultimately reductionist implications of Freudian psycho analytic theory The book originally published in 1973 concludes by stating the broad underlying themes of the two forms of humanistic philosophy and indicating how they relate to the problems of theory and method in sociology

Social Science Gerard Delanty, 1997 It is argued that the conception of social science emerging today is one that involves a synthesis of radical constructivism and critical realism The crucial challenge facing social science is a question of its public role growing reflexivity in society has implications for the social production of knowledge and is bringing into question the separation of expert systems from other forms of knowledge

Encyclopedia of Social Theory Austin Harrington, Barbara L. Marshall, Hans-Peter Müller, 2005-12-22 The Encyclopedia of Social Theory contains over 500 entries varying from concise definitions of key terms and short biographies of key theorists to comprehensive surveys of leading concepts debates themes and schools The object of the Encyclopedia has been to give thorough coverage of the central topics in theoretical sociology as well as terms

Jihad for Jerusalem M.A. Khan, 2004-10-30 Jihad for Jerusalem explores the agent structure dynamics in world politics and advances a constructivist theory of choice that explains the role of identity culture religion and other core values in international politics The struggle for Jerusalem by Iran Saudi Arabia Jordan and Israel is the empirical space where the dynamics between reason and identity values and strategies is explored Jihad for Jerusalem advances a theory of agency in international politics This theory of agency is based on a reconstituted constructivist paradigm The theory is tested by an examination of the foreign policy decision making of Iran Israel Jordan and Saudi Arabia towards Israel from 1967 1997 The book uses the foreign policy of these states as cases to test the tension between religion and rationality between identity and reason between power and morality and advances a constructivist theory of choice that explains the importance of the role of culture religion identity and core values in international politics Anyone interested in international relations theory and the convoluted politics of the Middle East will find this book intriguing reading

The Idea of a Social Science and Its Relation to Philosophy Peter Winch Peter Winch, 1967

Political Theory and Social Science J. Gunnell, 2011-02-14 This work is devoted to a critical analytical examination of the history character and conduct of contemporary academic political theory and to a reconsideration of significant elements of this field of inquiry from the perspective of the philosophy of Ludwig Wittgenstein

Max Weber Alan Sica, The most profound and enduring social theorist of sociology's classical period Max Weber speaks as cogently to concerns of the new century as he did to those of the past In *Max Weber and the New Century* Alan Sica demonstrated Weber's preeminent position and lasting vitality within social theory by applying his ideas to a broad range of

topics of contemporary concern Max Weber A Comprehensive Bibliography is a companion volume that offers some 4 600 bibliographic listings of work on Weber making it the most complete guide to the literature in English and a testament to the continued vitality of Weber's thought Sica's work supersedes all previous bibliographical efforts covering the Weber literature both in the quantity and accuracy of its references and the clarity and convenience of its format In order to demonstrate the enormous variety of Weberiana in English Sica has adopted a liberal criterion for inclusion rather than a critical one choosing to mix the best with what may be more routine work Following a preface in which previous bibliographies and bibliographic problems are discussed the volume opens with a series of five specialized bibliographies The first lists Weber's works in English translation The second lists reviews of Weber's major works including those translated into English while the third covers reviews of recent books and other work on Weber The fourth section contains a selection of dissertations and theses relating to Weber or his ideas The fifth includes primary and secondary sources treating Weber on rationality and rationalization processes The last and largest section offers a comprehensive Weber bibliography of works in English This large scale endeavor attempts to identify with accuracy and completeness the entire universe of Weber scholarship in English It will be an essential scholarly tool for sociologists historians economists and students of cultural and intellectual history Alan Sica is professor of sociology and director of the Social Thought Program at Pennsylvania State University

Cambridge Yearbook of European Legal Studies Vol 2, 1999 Angela Ward, 1999 The Cambridge Yearbook of European Legal Studies provides a new forum for the scrutiny of significant issues in European Union Law the Law of the Council of Europe and Comparative Law with a European dimension and particularly those which have come to the fore during the year preceding publication The contributions appearing in the collection are commissioned by the Centre for European Legal Studies CELS Cambridge which is the research Centre of Cambridge University Law Faculty specialising in European legal issues The papers presented are all at the cutting edge of the fields which

Cambridge Yearbook of European Legal Studies Vol 2, 1999 Alan Dashwood, Angela Ward, 2000-10-09 The Cambridge Yearbook of European Legal Studies provides a new forum for the scrutiny of significant issues in European Union Law the Law of the Council of Europe and Comparative Law with a European dimension and particularly those which have come to the fore during the year preceding publication The contributions appearing in the collection are commissioned by the Centre for European Legal Studies CELS Cambridge which is the research Centre of Cambridge University Law Faculty specialising in European legal issues The papers presented are all at the cutting edge of the fields which they address and reflect the views of recognised experts drawn from the University world legal practice and the civil services of both the EU and its Member States Inclusion of the comparative dimension brings a fresh perspective to the study of European law and highlights the effects of globalisation of the law more generally and the resulting cross fertilisation of norms and ideas that has occurred among previously sovereign and separate legal orders The Cambridge Yearbook of European Legal Studies is an invaluable resource

for those wishing to keep pace with legal developments in the fast moving world of European integration

Ethics after Wittgenstein Richard Amesbury, Hartmut von Sass, 2021-01-28 What does it mean for ethics to say as Wittgenstein did that philosophy leaves everything as it is Though clearly absorbed with ethical questions throughout his life and work Wittgenstein's remarks about the subject do not easily lend themselves to summation or theorizing Although many moral philosophers cite the influence or inspiration of Wittgenstein there is little agreement about precisely what it means to do ethics in the light of Wittgenstein Ethics after Wittgenstein brings together an international cohort of leading scholars in the field to address this problem The chapters advance a conception of philosophical ethics characterized by an attention to detail meaning and importance which itself makes ethical demands on its practitioners Working in conversation with literature and film engaging deeply with anthropology and critical theory and addressing contemporary problems from racialized sexual violence against women to the Islamic State these contributors reclaim Wittgenstein's legacy as an indispensable resource for contemporary ethics
Wittgenstein among the Sciences Rupert Read, Edited by Simon Summers, 2016-02-17 Engaging with the question of the extent to which the so called human economic or social sciences are actually sciences this book moves away from the search for a criterion or definition that will allow us to sharply distinguish the scientific from the non scientific Instead the book favours the pursuit of clarity with regard to the various enterprises undertaken by human beings with a view to dissolving the felt need for such a demarcation In other words Read pursues a therapeutic approach to the issue of the status and nature of these subjects Discussing the work of Kuhn Winch and Wittgenstein in relation to fundamental question of methodology Wittgenstein among the Sciences undertakes an examination of the nature of natural science itself in the light of which a series of successive cases of putatively scientific disciplines are analysed A novel and significant contribution to social science methodology and the philosophy of science and the human sciences this book will be of interest to social scientists and philosophers as well as to psychiatrists economists and cognitive scientists
Conceptions of Social Inquiry J. J. Snyman, 1993 *The New Wittgenstein* Alice Cray, Rupert Read, 2002-11 A stellar collection of essays that presents a significantly different portrait of Wittgenstein and sheds light on the relation between his thought and different philosophical positions and areas of human concern
Worldview David K. Naugle, 2002-07-16 Conceiving of Christianity as a worldview has been one of the most significant events in the church in the

last 150 years In this new book David Naugle provides the best discussion yet of the history and contemporary use of worldview as a totalizing approach to faith and life This informative volume first locates the origin of worldview in the writings of Immanuel Kant and surveys the rapid proliferation of its use throughout the English speaking world Naugle then provides the first study ever undertaken of the insights of major Western philosophers on the subject of worldview and offers an original examination of the role this concept has played in the natural and social sciences Finally Naugle gives the concept biblical and theological grounding exploring the unique ways that worldview has been used in the Evangelical Orthodox and Catholic traditions This clear presentation of the concept of worldview will be valuable to a wide range of readers

Idea Of A Social Science And Its Relation To Philosophy Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is really remarkable.
